CONTENTS

1. Robust Identification and Complexity

Estimation and prediction in the presence of unknown but bounded uncertainty: a survey
M. Milanese 3
Optimal sampling design for parameter estimation and p-widths under stochastic and deterministic noise
C. A. Micchelli 25
How useful is nonadaptive information for ordinary differential equations?
B. Z. Kacewicz 41
Fast algorithms for the computation of fixed points
K. Sikorski 49
Bounding techniques for model-structure selection
J. P. Norton 59
Robust linear and nonlinear parameter estimation in the bounded-error context
E. Walter, H. Piet-Lahanier 67

2. Robust Stability and Control

Generalized Nyquist tests for robust stability: Frequency domain generalizations of Kharitonov's theorem
J. J. Anagnost, C. A. Desoer, R. J. Minnichelli 79
Extending Kharitonov's theorem to more general sets of polynomials
I. R. Petersen 97
Strong Kharitonov theorem for discrete systems
M. Mansour, F. J. Kraus, B. D. O. Anderson 109
Polytopes of polynomials with zeros in a prescribed region: new criteria and algorithms
M. Fu 125
Robustness bounds for classes of structured perturbations
A. Vicino, A. Tesi 147
Markov's theorem of determinants and the stability of families of polynomials
C. V. Hollot 165
An application of state space methods to obtain explicit formulae for robustness measures of polynomials
D. Hinrichsen, A. J. Pritchard 183

digitalisiert durch DEUTSCHE NATIONAL BIBLIOTHEK

Robust stability and stabilization of interval plants
H. Chapellat, S. P. Bhattacharyya 207
Shaping conditions and the stability of systems with parameter uncertainty
T. E. Djaferis, C. V. Hollot 231
Structured and simultaneous Lyapunov functions for system stability problems
S. Boyd, Q. Yang 243
Robust stability of polynomials with multilinear parameter dependence
F. J. Kraus, M. Mansour, B. D. O. Anderson 263
Stability conditions for polynomials via quadratic inequalities in their coefficients
A. T. Fam 281
Boundary implications for interval positive rational functions: preliminaries
N. K. Bose, J. F. Delansky 287
Guaranteeing ultimate boundedness and exponential rate of convergence for a class of uncertain systems
M. Corless, F. Garofalo, G. Leitmann 293
On measures of stability robustness for linear uncertain systems
R. K. Yedavalli 303
Robust stabilization of linear time-invariant systems via linear control
K. Wei 311
U-Parameter design: feedback system design with guaranteed robust stability
P. Dorato, Y. Li, H. B. Park 321
New criteria for robust stability
M. Corless, D. Da 329
