

# CONTENTS

Preface .....	iii
---------------	-----

## The Landscape

Chapter 1: <i>Five Examples</i> .....	1
1.1 Temperature Conversion .....	1
1.2 Counting Change .....	3
1.3 A Better Way to Count Change .....	6
1.4 Target Practice .....	9
1.5 Keeping Score .....	11

## Dominant Features

Chapter 2: <i>Describing Data</i> .....	15
2.1 Types .....	16
2.2 Primitive Types .....	19
2.3 Array Types .....	21
Chapter 3: <i>Describing Computations</i> .....	26
3.1 Expressions .....	26
3.2 Assignment Statements .....	29
3.3 Conditional Statements .....	29
3.4 Looping Statements .....	31
Chapter 4: <i>Subprograms</i> .....	34
4.1 Subprograms .....	34
4.2 Calling Statements .....	36
4.3 Separation of Subprogram Bodies .....	38
4.4 Overloading of Subprograms .....	39
Chapter 5: <i>Packages</i> .....	40
5.1 The Visible Information .....	40
5.2 Making Use of the Visible Information .....	42
5.3 Providing Operations Over Data .....	43
5.4 Private Information .....	46
5.5 Summary .....	47
Chapter 6: <i>General Program Structure</i> .....	48
6.1 Elaboration of Declarations .....	52
6.2 Nesting and Visibility .....	52
6.3 Separate Compilation .....	54
6.4 Using Separate Compilation .....	55
6.5 Summary .....	58

## **Specialized Features**

<b>Chapter 7:</b> <i>Types Revisited</i> .....	59
7.1 Record Types .....	59
7.2 Types with Dynamic Structure .....	64
7.3 Derived Types .....	66
7.4 Constraints on Types .....	67
<b>Chapter 8:</b> <i>Input and Output</i> .....	72
8.1 Printing a Price List .....	73
8.2 Use of Specialized Subprograms .....	74
8.3 Predefined Packages for Input-Output .....	77
<b>Chapter 9:</b> <i>Parallel Processing</i> .....	79
9.1 Textual Appearance of a Task .....	80
9.2 Organization of Multiple Tasks .....	82
9.3 Communications between Tasks .....	83
9.4 Choosing Among Alternative Entry Calls .....	85
9.5 Specifying Delays .....	88
9.6 Interrupting a Task .....	91
<b>Chapter 10:</b> <i>Exception Conditions</i> .....	96
10.1 Introducing Exceptions .....	97
10.2 Raising and Handling an Exception .....	98
10.3 Propagation of an Exception .....	100
10.4 Exceptions Arising During Inter-task Communication .....	102
<b>Chapter 11:</b> <i>Utilizing the Implementation</i> .....	103
11.1 Representing Data .....	103
11.2 Changing the Representation of Data .....	105
11.3 Giving Instructions to the Translator .....	106
11.4 Environment Inquiries .....	107
<b>Perspective</b>	
<b>Chapter 12:</b> <i>Summary</i> .....	109
<b>Index</b> .....	133
