<b>1</b>	<b>Analysis of Nitrated Polycyclic Aromatic Hydrocarbons by Gas Chromatography</b>	
	C. M. White .....	1
1.1	Introduction .....	3
1.1.1	Emission Sources of Nitro-PAH .....	4
1.1.2	Formation of Nitro-PAH .....	5
1.1.3	The Necessity of Distinguishing between Isomers .....	6
1.1.4	Positive and Tentative Identification of Nitro-PAH Using Gas Chromatography .....	7
1.1.5	Historical Aspects .....	7
1.2	Separation of Nitro-PAH by Gas Chromatography .....	8
1.2.1	Isothermal Retention Characteristics of Nitro-PAH on SE-52 ..	14
1.2.2	Linear-Temperature-Programmed Retention Characteristics of Nitro-PAH on SE-52 .....	41
1.2.3	Effect of Initial Temperature on van Den Dool and Kratz Retention Indices .....	43
1.2.4	The Relationship between Retention Indices and Physico-chemical Properties (Boiling Point and Dipole Moment) .....	46
1.3	Molecular Connectivity .....	52
1.3.1	Relationship between First-Order Valence Molecular Connectivity and Retention Indices of Nitro-PAH .....	54
1.3.2	Prediction of van Den Dool and Kratz Retention Indices Using Molecular Connectivity .....	56
1.4	Some Experimental Problems Encountered During Quantitation of Nitro-PAH by Gas Chromatography .....	58
1.4.1	Methods of Nitro-PAH Quantitation by Gas Chromatography ..	60
1.5	Gas Chromatography Detectors Used for Nitro-PAH Analyses ..	61
1.5.1	Nitrogen/Phosphorus Detection .....	62
1.5.2	Electron Capture Detection .....	63
1.5.3	Negative Ion Chemical Ionization Mass Spectrometric Detection .....	63
1.5.4	Thermionic Ionization Detection in a Nitrogen Atmosphere (TID-1-N <sub>2</sub> ) .....	64
1.6	Sample Fractionation Techniques that Yield a Nitro-PAH Fraction: Sample Preparation .....	70

1.7	Future Research Directions .....	80
	References .....	82
<b>2</b>	<b>Chromatographic Detectors Used for the Determination of Nitrated Polycyclic Aromatic Hydrocarbons</b>	
	B. A. Tomkins .....	87
2.1	Introduction .....	89
2.2	Detection Methods Using Thin-Layer Chromatography .....	90
2.3	Detection Methods Using Gas Chromatography .....	90
2.3.1	Nonspecific Flame Ionization Detectors and Retention Indi- ces .....	90
2.3.2	Nitrogen-Phosphorus Detectors .....	91
2.3.3	Electron-Capture Detectors .....	93
2.3.4	Thermionic Ionization Detectors .....	93
2.3.5	Photoionization Detectors .....	94
2.3.6	Thermal Energy Analyzer .....	96
2.3.7	Comparison of Four Nitrosensitive Detectors .....	101
2.4	Detection Methods Using High-Pressure Liquid Chromatogra- phy .....	102
2.4.1	Spectrophotometric Detectors .....	102
2.4.2	HPLC/MS Detectors .....	106
2.4.3	Electrochemical Reduction Detectors .....	106
2.4.3.1	Principles, Mechanisms, and Studies Based on Explosives and Related Species .....	106
2.4.3.2	Application to Nitro-PAH Present in Diesel Particulate Extracts .....	107
2.4.3.3	LC/EC Coupled to Microbore HPLC Columns .....	108
2.4.4	Electrochemical Oxidation Detectors .....	108
2.4.5	Comparison of HPLC Detection Methods .....	111
2.5	Detection Methods Using Mass Spectrometric Detectors .....	111
2.5.1	Scope and Importance of Mass Spectrometric Methods .....	111
2.5.2	High- and Low-Resolution Spectrometric Methods .....	111
2.5.3	Negative-Ion Chemical Ionization Mass Spectrometry .....	112
2.5.4	MS/MS Methods .....	113
2.5.5	Comparison of Mass Spectrometric Methods .....	113
2.6	Conclusion .....	114
	References .....	117

<b>3</b>	<b>Analysis of Nitrated Polycyclic Aromatic Hydrocarbons (Nitro-PAH) by Mass Spectrometry</b>	
	D. Schuetzle and T. E. Jensen	121
3.1	Introduction	123
3.2	Sample Preparation	129
3.3	MS Analysis of Nitro-PAH	130
3.3.1	Electron Impact Ionization	130
3.3.2	Chemical Ionization	138
3.3.3	Atmospheric Pressure Ionization	141
3.4	Coupled MS Techniques	141
3.4.1	Gas Chromatography/Mass Spectrometry (GC/MS)	142
3.4.2	Liquid Chromatography/Mass Spectrometry (LC/MS)	146
3.5	High-Performance MS Techniques	147
3.5.1	Mass Spectrometry/Mass Spectrometry (MS/MS)	148
3.5.2	High Resolution Mass Spectrometry (HRMS)	151
3.6	Quantitation	154
3.7	Application of MS to Nitro-PAH Analysis	156
3.7.1	Characterization of Environmental Samples	157
3.7.2	Biological Studies	160
3.7.3	MS Methods Development Studies	162
3.7.4	Chemical Reactivity Studies	162
3.8	Conclusions	163
	References	164
<b>4</b>	<b>Synthesis of Nitrated Polycyclic Aromatic Hydrocarbons</b>	
	P. H. Ruehle, L. C. Bosch, and W. P. Duncan	169
4.1	Introduction	171
4.2	Direct Nitration of Parent PAH	172
4.2.1	Reactivity of PAH to Nitration	172
4.2.2	Position of Substitution for Mononitration	172
4.2.3	Dinitration of PAH	175
4.2.4	Nitration Systems	176
4.2.4.1	General Considerations	176
4.2.4.2	Nitrations in Acetic Anhydride-Nitric Acid	177
4.2.4.3	Nitrations in Acetic Acid-Nitric Acid	177
4.2.4.4	Nitrations Using Red-Fuming Nitric Acid-Water-Dioxane	178
4.2.4.5	Nitrobenzene as a Solvent	178
4.2.5	Introduction to Table 2	178

4.3	Synthesis of Nitro-PAH by Indirect Routes .....	192
4.3.1	Introduction .....	192
4.3.2	Nitration of Hydrogenated PAH Followed by Dehydrogenation .....	196
4.3.2.1	Examples of Nitration of Hydrogenated PAH .....	196
4.3.2.2	Unusual Reactions of Hydrogenated PAH .....	198
4.3.3	Oxidation of the Amino Substituent .....	199
4.3.4	From Diazonium Salts .....	199
4.3.5	Using Blocking and/or Directing Groups .....	200
4.3.6	Ring Formation and Ring Expansion Reactions .....	204
4.3.7	Miscellaneous Methods .....	206
4.3.8	Introduction to Table 3 .....	207
4.4	Substituted Nitro-PAH .....	207
4.4.1	Introduction .....	207
4.4.2	Methyl Nitro-PAH .....	207
4.4.2.1	Methyl Nitronaphthalenes .....	207
4.4.2.2	Methyl Nitrofluoranthenes .....	210
4.4.2.3	Side-Chain Nitration .....	212
4.4.3	Hydroxynitro-PAH .....	213
4.5	Isotopically Labeled Nitro-PAH .....	214
4.5.1	Introduction .....	214
4.5.2	<sup>14</sup> C and <sup>15</sup> N Labeled Nitro-PAH .....	215
4.5.3	Deuterium Labeled Nitro-PAH .....	216
4.5.4	Tritium Labeled Nitro-PAH .....	216
4.5.4.1	General Considerations .....	216
4.5.4.2	Nitration of Tritium Labeled PAH .....	217
4.5.4.3	Tritium Exchange on Nitro-PAH .....	218
4.6	Purification and Separation .....	219
4.6.1	Introduction .....	219
4.6.2	Use of Modified Soxhlet Column for Purification .....	219
4.6.3	Column Chromatography and Preparative HPLC .....	221
4.6.4	Recrystallization .....	222
4.7	Characterization and Analysis of Nitro-PAH .....	222
4.7.1	Introduction .....	222
4.7.2	<sup>1</sup> H NMR of Nitro-PAH .....	222
4.7.3	UV Spectra of Nitro-PAH .....	224
4.7.4	Mass Spectra of Nitro-PAH .....	224
4.7.5	Thin Layer Chromatography of Nitro-PAH .....	225
4.8	Experimental Section .....	226
4.8.1	Preparation of 1-Nitropyrene .....	226
4.8.1.1	Small Scale Preparation .....	226

4.8.1.2	Large Scale Preparation .....	227
4.8.2	Preparation of 1,3,6-Trinitropyrene .....	228
4.8.3	Preparation of 1,3,6,8-Tetranitropyrene .....	228
4.8.4	6-Nitrobenzo[ <i>a</i> ]pyrene .....	229
	References .....	230
<b>5</b>	<b>Sampling and Atmospheric Chemistry of Particles Containing Nitrated Polycyclic Aromatic Hydrocarbons</b>	
	T. L. Chan and T. L. Gibson .....	237
5.1	Introduction .....	239
5.2	Particulate Sampling .....	240
5.2.1	Size Selective Particulate Mass Sampling .....	242
5.2.2	Experimental and Analytical Procedures .....	243
5.2.3	Effects of Particulate Sampling Methodology .....	244
5.3	Nitro-PAH on Particles .....	248
5.3.1	Chemical Basis of Nitro-PAH Formation .....	248
5.3.2	Artifact Formation of Nitro-PAH in Diesel Particles .....	250
5.3.3	Contribution to Bacterial Mutagenicity from 1-Nitropyrene and Dinitropyrenes in Ambient Particulate Samples .....	253
5.4	Atmospheric Chemistry and Smog Chamber Studies .....	257
5.4.1	Atmospheric Formation of NO <sub>2</sub> and HNO <sub>3</sub> .....	258
5.4.2	Smog Chamber Studies of Nitro-PAH .....	259
5.5	Discussion .....	260
5.6	Future Research Needs .....	263
	References .....	264
<b>6</b>	<b>The Mutagenic and Carcinogenic Properties of Nitrated Polycyclic Aromatic Hydrocarbons</b>	
	H. S. Rosenkranz and R. Mermelstein .....	267
6.1	Introduction .....	269
6.1.1	Mutagenicity in Bacteria .....	270
6.2	Basis of the Mutagenic Activity of Nitro-PAH in <i>Salmonella Typhimurium</i> .....	270
6.2.1	Mutagenic Specificity .....	270
6.2.2	Enzymic Basis of Mutagenicity in Bacteria .....	273
6.2.3	Structural Determinants of the Mutagenicity of Nitro-PAH ..	275
6.2.4	Conformational Determinants of Mutagenicity .....	276

6.3	Genotoxicity of Nitro-PAH for Yeast .....	277
6.4	Genetic and Genotoxic Effects of Nitro-PAH on Mammalian Cells .....	278
6.4.1	Mutagenic Specificities of Mammalian Cells .....	284
6.4.2	Metabolism of Nitro-PAH by Mammalian Cells and Subcellular Components .....	285
6.5	Biodisposition in Whole Animals .....	286
6.6	<i>In Vitro</i> Neoplastic Cell Transformation Activity of Nitro-PAH .....	287
6.7	The Carcinogenicity of Nitro-PAH .....	288
6.7.1	Epidemiology .....	288
6.8	Perspectives on Nitro-PAH .....	291
