

CONTENTS

CHAPTER 1	1
Introduction	1
PART I: THE NATURE AND PRODUCTION OF BEESWAX	5
CHAPTER 2	6
The Origin of Beeswax : an Historical Perspective	6
The Classical Era	6
The Renaissance	6
The Enlightenment	8
CHAPTER 3	11
Source of Secretion	11
The Cuticle: the Search for Holes	11
Filaments or Microtubules?	16
Tracheation	18
The Epidermis	18
Fat Body and Oenocytes	21
Synchronising Cellular Activity	24
CHAPTER 4	29
Rise and Fall of the Epithelium	29
Age and the Division of Labour	29
Rejuvenation of Old Bees	31
Newly Settled Swarms	32
Laying Workers	34
Racial Differences	35
Tragedies and Disease	36
Winter	37
Cell Height and Secretory Performance	39
CHAPTER 5	44
Composition and Synthesis of Beeswax	44

Gross Composition of Beeswax 44

The Proteins of Beeswax 48

Proof of Synthesis 48

Routes of Synthesis 50

Recent Refinements 51

CHAPTER 6 57

Food Conversion Ratios, in the Production of Beeswax 57

The Agricultural Chemists 57

Cumulative Ratios 58

Direct Costs of Wax Production 62

Measures of Conversion Efficiency 64

Temperature and Wax Production 68

PART II: THE MANIPULATION OF WAX BY HONEYBEES 71

CHAPTER 7 72

Manipulation of Wax Scales 72

Removal of the Wax Scales(Casteel 1912) 72

The Scale-Removing Organ(Casteel 1912) 73

Mandibulation of the Scales 74

Free Scales (Casteel 1912) 76

Partial Removal of Scales(Casteel 1912) 77

Producers and Builders(Casteel 1912) 78

CHAPTER 8 80

Metamorphosis of Wax 80

The Structure of Virgin Scale Wax 80

Optical and Diffraction Studies 81

Crystallography 81

Mechanical Properties of Wax 84

Maturation of Newly Constructed Combs 89

Foreign Substances 91

CHAPTER 9 93

The Construction of Cells 93

Minor Building Operations 93

Inception of the Nest 97

The Irregular Nature of Cells 99

Recognition of Cell Patterns 100

Interlude: Bigger Cells, Bigger Bees 102

Assessment of Cell Size	103
The Cell Base	109
CHAPTER 10	115
The Construction of Combs	115
Parallelism between Combs	115
Festoons and Torsion	117
Festoons and Comb Growth	120
Evidence of a Sense of Equilibrium	121
Application of the Sense of Equilibrium	123
The Orientation of Combs	125
PART III: STIMULI FOR PRODUCTION AND MANIPULATION OF WAX	127
<hr/>	
CHAPTER 11	128
The Nectar Flow	128
The Stimulus of Spring	128
Winter, the Off-Switch	132
Nectar, the Unqualified Stimulus	133
Hoarding Assays	134
Comb as a Stimulus	134
The Honey Stomach	137
CHAPTER 12	139
Pollen and Wax Production	139
Essential role of pollen	139
Quantitative Requirements	140
Compartmental Effects	142
Physical Presence of Pollen	143
Pollen Pheromones	144
CHAPTER 13	145
The Brood Nest	145
The Meaning of Brood	145
Efficacy of Open Brood	147
Brood-Rearing and Honey Storage	150
CHAPTER 14	153
The Queen	153
The Construction of Queen Cells	153
Comb Construction and the Queen	155

CHAPTER 15	162
Space and Density	162
Nest Founding	162
Volume of a Potential Nest	162
The Arrangement of Space	163
Density Versus Space	165
Reduction of Nest Size	167
Quality of Space	168
REFERENCES	172
AUTHOR INDEX	191
SUBJECT INDEX	197
