

# Table of Contents

## Part I Methodology and Methods

'Cheaper by the Dozen': Twelve Functional Equations and their Applications to the 'Laws of Science' and to Measurement in Economics J. Aczél .....	3
The Equation of Measurement W. Eichhorn and W. Gleissner .....	19
The Solutions of Important Special Cases of the Equation of Measurement W. Eichhorn and W. Gleissner .....	29
On a Functional Equation with Applications to Measurement in Economics L. Paganoni .....	39

## Part II Prices

The Precision of Consumer Price Indices Caused by the Sampling Variability of Budget Surveys; an Example B.M. Balk and H.M.P. Kersten .....	49
On the Factorial Approach to Index Number Problems, Consumption Analysis and Orthogonal Decomposition of National Income: A Review K.S. Banerjee .....	59
Test Approaches to International Comparisons W.E. Diewert .....	67
Production-Theoretic Input Price Indices and the Measurement of Real Aggregate Input Use F.M. Fisher .....	87
Mean Value Properties of the Weights of Linear Price Indices H. Funke .....	99
Axiomatic Characterization of Statistical Price Indices M. Krtscha .....	117
A System of Functional Equations Considered by Krtscha P. Volkmann .....	135
A Probabilistic Model for Price Levels in Discontinuous Markets C. Webb .....	137
Weighting and Additivity Problems of Multilateral Comparison J. van Yzeren .....	157

Part III Efficiency

On the Definition of Efficiency Measures: A Note G. Böhl .....	167
Efficiency Gains from Addition of Technologies: A Nonparametric Approach R. Färe .....	171
Efficiency Measures for Multiplant Firms with Limited Data R. Färe and D. Primont .....	177
Testing for Aggregation Bias in Efficiency Measurement C.A. Knox Lovell, A. Sarkar, and R. Sickles .....	187
On the Axiomatic Approach to the Measurement of Technical Efficiency R.R. Russell .....	207

Part IV Preferences

On the Role of Income Compensation Functions as Money - Metric Utility Functions S. Fuchs - Seliger .....	221
Algebra and Topology in Cardinal Utility Theory G. Fuhrken and M.K. Richter .....	239
Binary Inversions and Transitive Majorities W. Gaertner .....	253
Evaluation Techniques for Paired Ratio-Comparison Matrices in a Hierarchical Decision Model J.M. Hahn and Ch. R. Johnson .....	269
On the Effects of Bayesian Learning for a Risk-Averse Consumer P. Kischka .....	289
Measurement by Public Opinion Polls and Consequences for Modelling Pure Competition Ch. Klein .....	297
Characterizations of Quasilinear Representations and Specified Forms of These P.P. Wakker .....	311

Part V Quality

A Measure or Index of Noxiousness W.-D. Heller and M. Rutsch .....	329
Environmental Quality Indices: Problems, Concepts, Examples F. Stehling .....	349

Part VI Inequality

How to Retrieve the Lorenz Curve from Sparse Data M. Braulke .....	373
Axiomatizations of the Entropy Numbers Equivalent Index of Industrial Concentration S.R. Chakravarty and J.A. Weymark .....	383
On the Decomposition of Inequality: Partitions into Nonoverlapping Sub-Groups U. Ebert .....	399
On the Shannon - Theil Concentration Measure and its Characterizations W. Gehrig .....	413
Aggregation Issues in Inequality Measurement A.F. Shorrocks .....	429
On the Construction of an Index of Bequest Behavior M. Straub and A. Wenig .....	453

Part VII Taxation

Risk-Taking Under Progressive Taxation: Three Partial Effects G. Bamberg and W.F. Richter .....	479
Measuring the Burden of Taxation: An Index Number Approach B. Genser .....	499
Net Fiscal Incidence Progressivity: Some Approaches to Measurement P.J. Lambert .....	519
Distributional Equity and Measurement of Tax Progressivity W. Pfähler .....	533
Measures of Tax Progression - An Axiomatic Approach A. Pfingsten .....	549
Equal Sacrifice in Taxation H.P. Young .....	563

Part VIII Aggregation

Consistent Commodity Aggregates in Market Demand Equations Ch. Blackorby and W. Schworm .....	577
The Problem of Aggregation of Individual Economic Relations; Consistency and Representativity in a Historical Perspective J. van Daal and A.H.Q.M. Merkies .....	607

Aggregation and Efficiency R. Färe and C.A. Knox Lovell .....	639
Separability and the Existence of Aggregates King-tim Mak .....	649
Nataf's Theorem, Taylor's Expansion and Homogeneity in Consumer Demand A.H.Q.M. Merkies and J. van Daal .....	671
Consistent Aggregation of a General Equilibrium Model A. Vilks .....	691
 Part IX <u>Econometrics</u>	
The Concept of "Scale" and Related Topics in the Specification of Econometric Cost Functions: Theory and Application to Hospitals F. Breyer and F.-J. Wodopia .....	707
Theory and Measurement of Productivity and Cost Gaps: A Comparison for the Manufacturing Industry in US, Japan and Germany, 1960-1979 K. Conrad .....	725
Indices of Allocation Inefficiencies for Heterogeneous Labor G. Hasenkamp and B. Kracht-Müntz .....	751
On the Identification of Key Sectors: Critical Theoretical and Empirical Analysis of Key Sector Indices H. Kogelschatz .....	767
Testing Integrability Conditions in a Dynamic Framework S. Nakamura .....	793
Value-Added Total-Factor-Productivity Measurement: A Monte-Carlo Assessment M.E. Slade .....	809
