Part II**School-based Primary and Secondary Environmental Education**

1	Environmental Education in Schools	55
	G. W. KNAMILLER	
2	Teaching for the Environment in Third World Schools: Some Implementation Constraints	79
	G. VULLIAMY	
3	Case Studies on School-based Environmental Education	
	Order and Disorder in Nature: Action-based and Interdisciplinary Environmental Education in the Natural Sciences	85
	H. HASS	
	Children and the Environment	97
	J. ELSTGEEST	
	Some Problems and Perspectives of Environmental Education in the School	101
	M. KRASILCHIK	
	The IPST Environmental Education Project	107
	P. VONGCHUSIRI	
	An Environmental Education Development Project for Elementary and Secondary School Levels	111
	L. KANHASUWAN AND J. WEBB	
	Issue-based Learning at Primary School Level	119
	A. J. YOUNG AND J. E. MAGGS	
	Science Education for the Environment — an Indian Case Study	127
	B. D. ATREYA	
	Syllabuses with an Environmental Emphasis in the Caribbean	135
	J. GLASGOW	
	Problems of Secondary Science Curriculum Innovation in Bangladesh	139
	J. E. REEVES	
	Towards a Relevant Scientific Curriculum for the Environment: a Case Study from Papua New Guinea	143
	G. VULLIAMY	

Sustainable Development: Agriculture and Environmental Education A. BLUM	151
Issue-based Environmental Education in Developing Countries G. W. KNAMILLER	157
Teaching through the Environment in Elementary Schools in India V. G. JADHAO, S. RAJPUT, S. MUKHOPADHYAY, A. B. SAXENA AND J. S. RAJPUT	163
Agriculture for Self-reliance V. M. GONDWE	167
Teaching History and Environmental Protection K. HORVATH	175
The Laws of Aesthetics are the Laws of Nature (Goethe) E. BADACSONYI	183
The Resource Management Education Programme G. A. LIEBERMAN	189
Environmental Education Courses in Scotland: a Case Study of Theory Translated into Practice F. CRAWFORD	195

Part III

Community-based Environmental Education and Links with Other Conference Themes

S. JAKOWSKA

1 Highlights of the Prevailing Trends and Recommendations	207
2 The Place of Ethics, Humanities and the Arts in the Environmental Education of Children	209
3 The Use of Art, Music, History and Other Topics in Environmental Education	213
4 Children as Partners in Conservation	217
5 Special Approaches to Non-formal Environmental Education of Children: Integrating the School and the Community	225
6 Environmental Education and Coexistence with Protected Wildlife	231

7	Public Awareness Activities in India	235
8	Ethics and Environment	239
9	Health and Environment	243
10	The Presence of Children at the Bangalore Conference	247
11	Conclusions and a Guide for Action	251

Part IV

Tertiary, Professional and Vocational Environmental Education

1	Introduction Environment in Technology and Engineering Education C. BAUER	257
	University-level Environmental Education G. R. FRANCIS	269
	Environmental Science Education and Future Human Needs M. K. WALI AND R. L. BURGESS	273
2	Country-based Studies The teaching of Sanitary Engineering and Environmental Sciences in Venezuela G. RIVAS MIJARES	279
	Environmental Sciences in Engineering Curricula: Reflections on the Growing Interaction between the Engineer and Society in a Developing Country R. C. DE CAMARGO	283
	The Teaching of Ecology to Students of Engineering at the National University of Lujan (Argentina) L. MALACALZA	295
	Environmental Teaching in the School of Engineering of Buenos Aires University J. C. DURAN	297
	Environmental Protection in Engineering Education H. P. JOHANN	301

	Environmental Education for Engineering and Technology: An Analysis of Experience in India	309
	R. D. DESHPANDE	
	Science and Technology Education in Darjeeling–Sikkim Himalayas	315
	G. S. YONZONE	
	Environmental Education in China	321
	HUANG MIN-YUNG	
	Ecological Education of Engineers in the USSR	323
	E. ZNAMENSKY	
3	An Issue-based Approach Education and Research Options for Addressing Social and Environmental Issues in Water Resources Planning and Management	327
	W. VIESSMAN, JR	
4	Implementation Strategies Implementation Strategies at the Tertiary Level – an Example and a Proposal	333
	G. R. FRANCIS AND G. RIVAS MUJARES	
	Conclusions and Recommendations	337
	G. R. FRANCIS	
 Part V		
Non-formal Public Environmental Education		
1	Introduction	343
	L. WAYBURN	
2	An Overview of Selected Papers	349
	Range, Opportunities and Applicability of Non-formal Environmental Education	351
	M. A. PARTHA SARATHY	
	The Saving of the Silent Valley: a Case Study of Environmental Education in Action	355
	D. S. VARIAVA	
	AVEHI: Audiovisual Educational Resources Centre	365
	D. S. VARIAVA	

	Developing Wildlife Education Programmes in a Remote Section of Canada	369
	K. BLANCHARD	
	Audiovisual Techniques for Conservation	377
	M. N. BOULTON	
	Ecological Information for Non-specialists: an International Case Study	385
	J. DAMLAMIAN AND M. HADLEY	
	Environmental Education and Community Involvement	397
	J. MEHTA	
	Environmental Education – the Indian Experience: Non-formal Education	401
	T. N. KHOSHOO	
	The Use of Simulation Games in Environmental Education	409
	A. BLUM	
	Report of a Workshop on the Use of Games in Environmental Education	413
	P. FENSHAM	
3	Emerging Directions in Non-formal Environmental Education: Conclusions of the Environment Workshop	415
	L. WAYBURN	
	Index of Authors and Papers	417
	Subject Index	427
