

# Contents

## Part I Systems-Based Intensive Care Unit

---

- 1. Whole Brain Leadership for Creating Resonant Multidisciplinary Teams, 1**  
*Ross M. Ungerleider and Jamie Dickey Ungerleider*
  - 2. Optimizing Care Delivery: Quality and Performance Improvement, 11**  
*Kyle J. Rehder, Sarah Tallent, and Jon N. Meliones*
  - 3. Streaming Analytics in Pediatric Cardiac Care, 18**  
*Melvin C. Almodovar*
  - 4. How to Interpret and Use Outcome Data, 24**  
*Karl Welke, Tara Karamlou, Ross M. Ungerleider, and Jeffrey P. Jacobs*
  - 5. Pediatric Cardiac Intensive Care Unit Model, 35**  
*Scott I. Aydin, Konstantinos Boukas, Jeannie Koo, Jon N. Meliones, and George Ofori-Amanfo*
  - 6. Selection, Training, and Mentoring, 48**  
*Saul Flores, Matthew K. Bacon, Rohit S. Loomba, and Jennifer Schuette*
  - 7. Critical Care Databases and Quality Collaboratives, 58**  
*Michael Gaies*
  - 8. Improving Safety, 64**  
*Charlotte Woods-Hill and Geoffrey L. Bird*
  - 9. Decision Making and Ethics, 73**  
*John R. Brownlee and Jamie Dickey Ungerleider*
  - 10. Advanced Nursing Practice in Pediatric Cardiac Critical Care, 82**  
*Kristen M. Brown, Melissa B. Jones, Lisa Moore, Christine Meliones, Jenny A. Montgomery, and Judith Ascenzi*
  - 11. Family Needs and Expectations, 94**  
*Valerie King, Amy Basken, Emily Johnson, and Alison Miles*
  - 12. Simplified Guide to Understanding the Anatomy of Congenital Heart Disease, 100**  
*Karen McCarthy, Rodney Franklin, Zdenek Slavik, and Siew Yen Ho*
  - 13. Cardiovascular Physiology for Intensivists, 111**  
*Karan R. Kumar, Roxanne E. Kirsch, and Christoph P. Hornik*
  - 14. Respiratory Physiology for Intensivists, 134**  
*Plato Alexander*
  - 15. Organ System Response to Cardiac Function—Splanchnic, 150**  
*Dylan Stewart, Daria Shores, and Samuel M. Alaish*
  - 16. Organ System Response to Cardiac Function—Renal, 160**  
*David M. Kwiatkowski, Katja M. Gist, Stuart L. Goldstein, Catherine D. Krawczeski, and David S. Cooper*
  - 17. Organ System Response to Cardiac Function—Neurology, 174**  
*Rocky Tsang, Daniel J. Licht, and Ken Brady*
  - 18. Endocrine Function in Critical Heart Disease, 186**  
*Ilias Iliopoulos, Christin Huff, and Eric M. Graham*
  - 19. Pharmacology of Cardiovascular Drugs, 192**  
*David E. Procaccini, Jaclyn E. Sawyer, and Kevin M. Watt*
- ## Part III Special Considerations
- 
- 20. Anesthesia and Sedation for Pediatric Heart Disease, 213**  
*Euleche Alanmanou, Nina Deutsch, Vyas M. Kartha, and Jamie McElrath Schwartz*
  - 21. Sedation, Sleep, Delirium, and Rehabilitation, 232**  
*Sapna R. Kudchadkar, Heidi A.B. Smith, and Chani Traube*
  - 22. Monitoring Systems, 245**  
*Nancy S. Ghanayem, Mubbasheer Ahmed, Marc M. Anders, Sebastian C. Tume, Eric L. Vu, and George M. Hoffman*
  - 23. Ventilators and Ventilator Strategies, 261**  
*Konstantinos Boukas, Ira M. Cheifetz, and Jon N. Meliones*
  - 24. Coagulation Disorders in Congenital Heart Disease, 282**  
*Kristen Nelson McMillan, Jennifer Kramer, Cliff M. Takemoto, and Caroline P. Ozment*

**25. Blood Utilization and Conservation, 303**  
*Jill Marie Cholette, Branden Engorn, and Dheeraj Goswami*

**26. Nutrition and Metabolism in the Critically Ill Child With Cardiac Disease, 313**  
*Darla Shores, Leah Simpson, and Samuel M. Alaish*

**27. Arrhythmias and Pacing, 326**  
*Zebulun Z. Spector, Christine Meliones, and Salim F. Idriss*

**28. Inflammatory Heart Disease: Pericardial Effusion and Tamponade, Pericarditis, and Myocarditis, 351**  
*Steven S. Mou and Michael C. McCrory*

**29. Fetus With Critical Heart Disease—Bridging to Birth, 365**  
*Ryan Loftin and Miguel DeLeon*

**30. Low Birth Weight and Other High-Risk Conditions, 371**  
*Matthew H.L. Liava'a, Ganga Krishnamurthy, and Paul J. Chai*

**31. Cardiopulmonary Resuscitation (CPR) in Children With Heart Disease, 379**  
*Elizabeth A. Hunt, Tia T. Raymond, Kimberly Ward Jackson, Bradley S. Marino, and Donald H. Shaffner*

**32. Pediatric General Surgeon and Critically Ill Cardiac Patient, 395**  
*Allison L. Speer, Beth A. Rymeski, and John K. Petty*

**33. Management of Common Postoperative Complications and Conditions, 406**  
*Javier J. Lasa, Paul A. Checchia, and Ronald A. Bronicki*

## Part IV Basics of Diagnostics and Clinical Care

**34. Echocardiography in the Critically Ill Pediatric Patient, 417**  
*Priya Sekar and William Ravekes*

**35. Bedside Ultrasonography in the Pediatric Intensive Care Unit, 437**  
*Renée Willett, Becky Riggs, and Erik Su*

**36. Imaging Modalities—Magnetic Resonance Imaging and Computed Tomography, 452**  
*Lasya Gaur, Cara Morin, Nicholas Morin, and Philip Spevak*

**37. Cardiac Catheterization Laboratory, 465**  
*Kevin D. Hill, Jennifer Roark, and Gregory A. Fleming*

**38. Biomarkers in Care of Congenital Heart Disease Patients in the Intensive Care Unit, 480**  
*Melanie Nies and Allen Everett*

**39. Extracorporeal Membrane Oxygenation, 488**  
*Melania M. Bembea, Allan Goldman, Osami Honjo, and Ravi R. Thiagarajan*

**40. Ventricular Assist Device Therapy, 500**  
*Kristen Nelson McMillan and Robert Jaquiss*

**41. Cardiopulmonary Bypass, 513**  
*Steve Bibeovski, Lloyd Felmly, and Mino N. Kavarana*

**42. Initial Management and Stabilization: Emergency Department Transport, 525**  
*Corina Noje, Kelly A. Swain, Autumn K. Peterson, Edd Shope, and Jennifer L. Turi*

## Part V Defects

**43. Patent Ductus Arteriosus, 536**  
*Graham D. Ungerleider, Derek A. Williams, and Ross M. Ungerleider*

**44. Vascular Rings and Pulmonary Artery Sling, 544**  
*William S. Ragalie and Michael E. Mitchell*

**45. Coarctation of the Aorta, 551**  
*Jennifer S. Nelson, Matthew L. Stone, and James J. Gangemi*

**46. Repair of Interrupted Aortic Arch With Ventricular Septal Defect, 565**  
*Andrew C. Fiore, Renuka E. Peterson, and Charles B. Huddleston*

**47. Atrial Septal Defects, 572**  
*Graham D. Ungerleider, Tharakanatha R. Yarrabolu, and Robert D. Stewart*

**48. Total Anomalous Pulmonary Venous Return, 587**  
*James St. Louis, Erica Molitor-Kirsch, Sanket Shah, and James O'Brien*

**49. Ventricular Septal Defects, 597**  
*Ashok Muralidaran and Irving Shen*

**50. Atrioventricular Septal Defects, 606**  
*Peter Sassalos, Ming-Sing Si, Richard G. Ohye, Edward L. Bove, and Jennifer C. Romano*

**51. Left Ventricular Outflow Tract Obstruction, 615**  
*Bahaaldin Alsoufi, Alaa Aljiffry, and Ross M. Ungerleider*

**52. Mitral Valve Disease, 632**  
*Joseph R. Nellis, Nicholas D. Andersen, and Joseph W. Turek*

**53. Heart Disease and Connective Tissue Disorders, 642**  
*Charles D. Fraser III, Duke E. Cameron, Kristen Nelson McMillan, and Luca A. Vricella*

- 54. Aortopulmonary Window; Hemitruncus, 652**  
*Inder D. Mehta, Prashob Porayette, Ramon Julio Rivera, Amulya Buddhavarapu, and Christopher Mehta*
- 55. Truncus Arteriosus, 661**  
*James Jagers and Charles R. Cole*
- 56. Coronary Artery Anomalies, 670**  
*Julie A. Brothers and Marshall L. Jacobs*
- 57. Transposition of the Great Arteries and the Arterial Switch Operation, 683**  
*Alexis L. Bescoter, Amy Ryan, and James S. Tweddell*
- 58. Double-Outlet Right Ventricle, 694**  
*David Bichell*
- 59. Tetralogy of Fallot With and Without Pulmonary Atresia, 705**  
*Stephanie S. Handler, Salil Ginde, Charles P. Bergstrom, and Ronald K. Woods*
- 60. Pulmonary Valve Replacement: Indications and Options, 720**  
*Yoshio Ootaki and Derek A. Williams*
- 61. Pulmonary Atresia with Intact Ventricular Septum, 726**  
*Michelle A. Grenier and Frank Scholl*
- 62. Palliative Procedures: Deciding on Clinical Pathway; One Versus Two Ventricles, 733**  
*Immanuel I. Turner and Richard G. Ohye*
- 63. Fontan Procedure, 747**  
*Thomas S. Maxey, James R. Herlong, Laura N. Jansen, and Paul M. Kirshbom*
- 64. Ebstein Anomaly, 758**  
*T.K. Susheel Kumar and Christopher J. Knott-Craig*
- 65. Tricuspid Atresia, 765**  
*Raghav Murthy, John Nigro, and Tara Karamlou*
- 66. Hypoplastic Left Heart Syndrome, 778**  
*James Quintessenza, Holly C. DeSena, Lindsey Justice, and Marshall L. Jacobs*
- 67. Heterotaxy, 796**  
*Rohit S. Loomba, David L.S. Morales, and Andrew Redington*
- 68. Arrhythmia Surgery, 804**  
*Timothy S. Lancaster, Pirooz Eghtesady, and Ralph J. Damiano Jr.*
- 69. Congenitally Corrected Transposition, 813**  
*David J. Barron*
- Part VI Medical Conditions**
- 
- 70. Infective Endocarditis, 823**  
*Michael J. Walsh and Avinash K. Shetty*
- 71. Pulmonary Hypertension, 836**  
*Rajeev S. Wadia, Priya Sekar, Chinwe Unegbu, Ephraim Tropp, Patricia L. Kane, Meghan Bernier, John D. Coulson, and Lewis H. Romer*
- 72. Pediatric Heart Failure and Pediatric Cardiomyopathies, 852**  
*Scott I. Aydin, Nida Siddiqi, Christopher M. Janson, Sarah E. Norris, Giles J. Peek, Kimberly D. Beddows, Jacqueline M. Lamour, and Daphne T. Hsu*
- 73. Heart and Lung Transplantation, 868**  
*Thomas D. Ryan, Clifford Chin, and Roosevelt Bryant III*
- 74. Pulmonary Embolism, 885**  
*Kevin Patrick Schooler*
- 75. Syndromes, Genetics, and Heritable Heart Disease, 892**  
*Benjamin J. Landis and Matthew T. Lisi*
- 76. Adult Congenital Heart Disease, 905**  
*Abigail May Khan, Daniel R. Sedehi, and Craig S. Broberg*
- Index, 911**
