

CONTENTS: Volume 182 no 1 2018

Editorial

Proceedings of the 15th coordination meeting of the WHO Radiation Emergency Medical Preparedness and Assistance Network (REMPAN) - Geneva, Switzerland, 3–5 July 2017 <i>Z. Carr, C. Murith and C. Li.</i>	1
--	---

Strengthening global health security with respect to radiological and nuclear emergencies

Public Health England—centre for radiation, chemical and environmental hazards (phe-crce) external expert experience in the joint external evaluation (JEE) mission for the radiation emergencies technical area <i>A. de Ruvo and D. Cox.</i>	3
--	---

US Centers for Disease Control and Prevention experience in the joint external evaluation process—radiation emergencies technical area <i>R. C. Whitcomb, A. J. Ansari, A. Salame-Alfie, M. C. McCurley, J. Buzzell, A. Chang and R. L. Jones.</i>	9
--	---

IRPA guidance—the role of stakeholders, radiation protection culture and ethics in emergency preparedness <i>M-C. Cantone, R. Coates and B. L. Guen.</i>	14
--	----

Network members reports for 2014–2017 period

Exposure of a service technician repairing a biplane X-ray system <i>R. Elmiger, U. Schanz, B. Ott and D. Frei</i>	18
--	----

Sustainable medical preparedness and response system for radiation emergencies in the Republic of Korea <i>M. Cho, K. M. Seong, C. Y. Park, G. R. Bae, S. Kim and Y. W. Jin</i>	20
---	----

Medical response to a radiological accident involving an iridium-192 source in Nanjing, China <i>L. Yuan, Y. Liu, N. Yu, X. Fu and C. Lei.</i>	25
--	----

Updates and lessons learned from Fukushima Daiichi nuclear power plant accident

Current status of the Fukushima health management survey <i>A. Kumagai and K. Tanigawa.</i>	31
---	----

Epidemiological study of health effects in Fukushima nuclear emergency workers—study design and progress report <i>H. Kitamura, T. Okubo and K. Kodama, on behalf of the Nuclear Emergency Workers Study Group.</i>	40
---	----

Recovery from nuclear disaster in Fukushima: collaboration model <i>N. Takamura, M. Orita, Y. Taira, Y. Fukushima and S. Yamashita.</i>	49
---	----

Radiation and thyroid cancer

Keynote lecture: Radiation and thyroid cancer—an overview <i>G. Thomas</i>	53
--	----

Chernobyl thyroid cancer: 30 years of follow-up overview <i>W. Weiss.</i>	58
---	----

Thyroid diseases among atomic bomb survivors <i>M. Imaizumi, K. Furukawa, W. Ohishi and A. Hida</i>	62
Do multiple administrations of stable iodine protect population chronically exposed to radioactive iodine: what is PRIODAC research program (2014–22) teaching us? <i>M. Benderitter, T. Pourcher, J-C. Martin, J. Darcourt, P. Guigon, F. Caire-Maurisier, A. Pech, D. Lebsir, C. Rosique, J. Guglielmi, F. Rebière, K. Tack, G. Phan, P. Lestaevel, M. Souidi and J-R. Jourdain</i>	67
Management of acute radiation injuries	
Coordination of management of the acute radiation syndrome <i>L. Stenke, K. Lindberg, M. L. Lindberg, R. Lewensohn, J. Valentin, R. Powles and N. Dainiak</i>	80
Acute myeloid leukemia, prostate and skin cancer in acute radiation syndrome survivor after the 1986 Chernobyl nuclear accident: case report <i>A. S. Samoylov, A. Yu. Bushmanov, Yu. D. Udalov, I. A. Galstyan, V. Yu. Nugis, M. G. Kozlova, V. A. Nikitina, I. K. Khvostunov and E. V. Gohub</i>	85
Clinical triage of radiation casualties—the hematological module of the Bundeswehr Institute of Radiobiology <i>M. Port and M. Abend</i>	90
Application of reflectance confocal microscopy for early diagnosis of radiation-induced acute dermatitis in radiosensitive patient: case study <i>J. Kišonas, J. Venius, O. Sevriukova, M. Grybauskas, K. Guogytė, A. Burneckis and R. Rotomskis</i>	93
Management of internal contamination with radionuclides	
An accident of internal contamination with plutonium and americium at a nuclear facility in japan: a preliminary report and the possibility of DTPA administration adding to the diagnosis <i>H. Tatsuzaki, T. Tominaga, E. Kim, S. Watanabe, Y. Tsutsumi, M. Sagara, C. Takada, T. Momose, O. Kurihara and M. Akashi</i>	98
Rapid monitoring of internal contamination using a mobile radiobioassay laboratory following radiation emergencies <i>W-H. Ha, Tae-eun Kwon, J. Kim and Y. Woo Jin</i>	104
Encapsulated 3,4,3-LI(1,2-hopo) in chitosan Nanoparticles for decorporation via inhalation <i>S. Chen, R. Ko, E. P. C. La, H. Wyatt, R. J. Abergel and C. Li</i>	107
Psycho-social impact of radiological and nuclear regencies and risk communication	
Non-radiological impact of a nuclear emergency: preparedness and response with the focus on health <i>Z. Carr, M. Maeda, D. Oughton and W. Weiss</i>	112
Building risk communication capabilities among professionals: seven essential characteristics of risk communication <i>M. Murakami, A. Kumagai and A. Ohtsuru</i>	120
Biodosimetry and biomarkers research and applications	
Biodosimetry and biodosimetry networks for managing radiation emergency <i>U. Kulka, A. Wojcik, M. Di Giorgio, R. Wilkins, Y. Suto, S. Jang, L. Quing-Jie, L. Jiaxiang, E. Ainsbury, C. Woda, L. Roy, C. Li, D. Lloyd and Z. Carr</i>	128

Development of a miniaturized version of dicentric chromosome assay tool for radiological triage	
<i>A. S. Balajee, T. Smith, T. Ryan, M. Escalona and N. Dainiak</i>	139
Biological markers of external and internal exposure in shelter construction workers: a 13-year experience	
<i>D. Bazyka, I. Iliencko, V. Sushko, K. Loganovsky, L. Lyashenko, N. Golyarnik, O. Lyaskivska, S. Nechaev, L. Shvayko, K. Bazyka, M. Pilinska and L. Bezdrobna</i>	146
Peculiarities of dynamics of peripheral blood cell composition in chronically-exposed individuals in the period prior to leukemia development	
<i>A.A. Akleyev</i>	154
Clinical and dosimetric information to support long-term cohort study of Chernobyl clean-up workers in Russia	
<i>V. K. Ivanov, V. V. Kashcheev, M. A. Maksoutov, K. A. Tumanov, S. Yu. Chekin, P. V. Kashcheeva, A. D. Kaprin, S. A. Ivanov and N. G. Seleva</i>	163
