

## CONTENTS

### Preface

|      |  |     |
|------|--|-----|
| I.   | Mathematical logic, philosophical logics,<br>logics and natural languages (R.Hartmann, J.S.Petöfi) | 1   |
|      | 1. General works   | 3   |
|      | 2. Bibliographies  | 9   |
|      | 3. Periodicals   | 11  |
|      | 4. History of Logic  | 13  |
| II.  | Logic and the philosophy of language (P. Finke)  | 33  |
| III. |  |     |
|      | 1. Non-modal propositional and predicate<br>calculus (R. Bartsch)                                  | 55  |
|      | 2. Modal propositional and predicate calculus<br>(L. Åqvist)                                       | 76  |
|      | 3. Quantification (Ö. Dahl)  | 95  |
|      | 4. Many-valued logic, fuzzy logic (H.-J.Eikmeyer)  | 102 |
|      | 5. Relevance logic (H.-J.Eikmeyer)   | 105 |
| IV.  |  |     |
|      | 1. Model theory (Th.T.Ballmer)   | 111 |
|      | 2. Definitions, analytic and synthetic, synonymy<br>(K. Hölker)                                    | 121 |
|      | 3. Identity (Ö. Dahl)  | 136 |
|      | 4. Worlds, indexical logic, intensional logic<br>(Th.T.Ballmer)                                    | 141 |
|      | 5. Theory of argumentation (M.-J.Borel)  | 155 |
|      | 6. Presuppositions and entailments (W. Heydrich)   | 170 |
|      | 7. Montague grammar(s) and formal pragmatics<br>(U. Mönnich)                                       | 201 |
|      | 8. Logical and natural connectives (T.A.van Dijk)  | 213 |
| V.   | Combinatory logic (H.-J. Eikmeyer)   | 221 |
| VI.  |  |     |
|      | 1. Logic of actions (H.-J.Eikmeyer)  | 231 |
|      | 2. Deontic logic and logic of norms (A.G.Conte)  | 234 |
|      | 3. Tense logic (W. Burghardt)  | 252 |
|      | 4. Logic of questions (K. Hölker)  | 272 |
|      | 5. Logic of dialogue (K.Hölker)  | 179 |
|      | 6. Epistemic logic (W. Kummer)   | 285 |
|      | 7. Logic of conditionals (L. Åqvist)   | 297 |
|      | 8. Inductive logic (M.-J.Borel)  | 302 |
| VII. | Appendix   | 311 |
|      | The logico-semantic theory of natural languages as<br>text theory (J.S.Petöfi)                     | 313 |
