Preface	
Constitutive Equations for Thermoelasticity and Instability Phenomena in Thermodynamic Flow Processes by <i>P. Perzyna</i>	1
Numerical Simulation of Plastic Localization Using Fe-Mesh Realignment by <i>R. Larsson, K. Runesson and A. Samuelsson</i>	79
Recent Developments in the Numerical Analysis of Plasticity by <i>J. C. Simo</i>	115
Shake-down Analysis for Perfectly Plastic and Kinematic Hardening Materials by <i>E. Stein, G. Zhang and R. Mahnken</i>	175
Continuum Mechanics, Nonlinear Finite Element Techniques and Computational Stability by <i>P. Wriggers</i>	245
