

Inhaltsverzeichnis:

	Seite
Professor Dr.-Ing. habil. S. Bednarski: Intensification of wastewater treatment process in tubular bioreactors	1
Dr.-Ing. S. Daniel: Biological waste gas treatment	41
Professor Dr.-Ing. habil. B. Tabis, Dr.-Ing. A. Georgiou: Iterative mathematical treatment of complex reactions in tubes and catalyst pellets	62
Frau Dr.-Ing. B. Brander: Fluid flow and heat transfer in tube bundles	85
Professor Dr.-Ing. habil. Z. Matras: Flow of non-Newtonian liquids in curved pipes	105
Dipl.-Ing. D. Sofia: The continuous production of acetic acid in reciprocating jet reactor with integrated microfiltration	124
Dr.-Ing. A. Mieszkowski, Professor Dr.-Ing. habil. M. Dylag, Dr.-Ing. L. Maszek, Dr.-Ing. Z. Roszak: Filter material for drop and mist separation	146
Dr.-Ing. S. Lomnicki, Dr.-Ing. J. Krawczyk: Heat transfer in flow of high-viscosity fluids in a static mixer	171

Frau Dipl.-Ing. J. Bohlmann: Fluid flow and mixing process in single-screw extruders	186
Dr.-Ing. W. Krzanowski: Mixing of multiphase systems in a rotating disk	200
Dipl.-Ing. S. Wieczorek: Biotechnological production of Poly- β -Hydroxybutyrate, a biologic polymer	222
Dr.-Ing. P. Cyklis: Mathematical treatment of instationary heat transfer through the cylindrical wall of a reciprocating compressor	245
Professor Dr. habil. W. N. Blinczew: Wärme- und Stoffaustausch bei der Sublimation von mechanisch aktivierten Substanzen	267
