Part 1 Pedagogy and Learning Experiences

Pedagogy

| | |
|--|----|
| 1 A Pedagogical Framework for CMC Programmes | 11 |
| <i>Morten Flate Paulsen, Beatriz Barros, Peter Busch, Benita Compostela, Mirabelle Quesnel</i> | |
| 2 Computer Support for Collaboration | 21 |
| <i>Thore Danielsen</i> | |
| 3 Some Pedagogical Techniques for Computer-Mediated Communication .. | 33 |
| <i>Morten Flate Paulsen</i> | |
| 4 Learning in Groups: Some Experiences of Online Work | 46 |
| <i>David McConnell</i> | |

Learning Experiences

| | |
|--|-----|
| 5 Learning Experiences with Collaborative Working Technologies: Some Critical Factors | 60 |
| <i>Cristina Simón</i> | |
| 6 Towards Collaborative Learning at a Distance | 65 |
| <i>Gary Alexander, Paul Lefrere, Steve Matheson</i> | |
| 7 An Experimental Network-Mediated Study Support System in Higher Distance Education | 78 |
| <i>Henk Ellerman, Ad Schellekens, Willibrord Huisman</i> | |
| 8 Innovative Support Technologies for Tele- and Team-Work at Universities | 97 |
| <i>Ralph Seitz, Freimut Bodendorf</i> | |
| 9 Remote Collaboration in Medicine: Some Tools and Experiences in Portugal | 109 |
| <i>A. Sousa Pereira, J. Arnaldo Martins, J.A. Veiga Pires</i> | |

Part 2 Models and Systems

| | |
|---|-----|
| 10 Models and Systems for Collaborative Dialogues in Distance Learning .. | 119 |
| <i>Stefano A. Cerri</i> | |

Models

| | |
|---|-----|
| 11 Cooperative Open Systems Architecture | 126 |
| <i>Christian Lemaitre, Victor German Sanchez, Cristina Loyo</i> | |
| 12 The Role of Knowledge Based Systems for Automatic Coordination in Distance Learning | 142 |
| <i>José Cuenca, Ana García-Serrano, M. Felisa Verdejo</i> | |
| 13 Supporting Collaborative Dialogues in Distance Learning | 156 |
| <i>Carla Simone</i> | |
| 14 Towards Models of Interaction Between an Artificial Agent and a Human One | 170 |
| <i>Dominique Guin</i> | |
| 15 The "Natural Laboratory" Methodology Supporting Computer Mediated Generic Dialogues | 181 |
| <i>Stefano A. Cerri</i> | |
| 16 Building an Evolving Knowledge-Base from Computer Teleconferencing | 202 |
| <i>André Boder, Christine Gardiol</i> | |
| 17 Educational Scenarios for Telecommunication Applications | 210 |
| <i>Peter Zorkoczy</i> | |

Systems

| | |
|--|-----|
| 18 Developing a Tool to Support Collaborative Dialogues and Graphical Representation of Ideas | 219 |
| <i>M.B. Twidale, T. Rodden, I. Sommerville</i> | |
| 19 Real-Time Multimedia Conferencing System and Collaborative Learning | 236 |
| <i>A.C. Derycke, C. Viéville</i> | |
| 20 Distributed Multimedia Environment for Distance Learning | 258 |
| <i>Encarna Pastor, Gonzalo Sanchez, Javier Alvarez</i> | |
| 21 Production of Flexible and Modulized Course Material in COSYS | 270 |
| <i>Mette Ringsted, Finn Groenbaek, Peter Busch, Hanne Shapiro</i> | |
| 22 OSCAR: A System for Collaborative Distributed Authoring of Multimedia Training Materials | 282 |
| <i>Antonio Ulloa, Antonio De Girolamo, Stephen Delaney</i> | |
| List of Contributors | 291 |
| Subject Index | 293 |
