Chomsky's Influence on Linguistics 5
The Biological Basis of Language 8
Animal Communication to Speech 12
The Brain 14
How Children Learn to Speak 17
Difficulties Facing the Study of Language Origins 20
Conclusion: A Synthesis Required 20

Chapter 2: Language and Labour 23
Traditions of Linguistic Thought 23
What is Meant by Labour? 23
Forms of the Ideal 29
Concepts, Knowledge, Language 32
Language as Authority 35
Language as Tool 37
Social Activity and Register 39
Conclusion 42

Chapter 3: Apes, Humans and Common Ancestors 44
Chimpanzees' Life in the Wild 45
Chimp Intelligence 46
Studies of Chimpanzee Communication 48
Chimpanzee Gestures in the Wild 51
Why can't Chimps Speak? 53
Gaining Self-control 56
Co-operation among Chimps 58
What Happened in History? 58

Chapter 4: Gesture and Origins of Meaning 60
The Gesture Theory of Language Origins 60

The Form of Early Gestural Language 64
'Semantic Phonology' and the Origins of Syntax in Gesture 65
The Development of Early Gestures 68
Disadvantages of Gesture? 69
Natural Selection of Speech 72

Chapter 5: Hominids and Humans 75
Australopithecines 77
Homo habilis and *Homo erectus* 83
Archaic *Homo sapiens* 91

Chapter 6: Origins of Speech 97
Why replace gesture? 97
Fossil Evidence for Speech 97
Theories of Speech Origins 102
Speech as Activity 108

Chapter 7: Human Languages Appear? 116
The 'Human Revolution' 116
The Neanderthals 117
What Happened at the Transition? 122
Development of the Family 124
Origins of Foraging Life at the Upper Palaeolithic 126
Language for Survival among Foragers 129
Summary 131

Chapter 8: The Social Formation of Grammar 134
Speakers' Perceptions of the World 134
Syntax as a Result of Human Tasks 136
Syntax as a Product of Discourse 139
Syntax as a Social Metaphor 141
Noun-class Grammar 143
Forms of Possession 147

Chapter 9: Language Evolution 153
Views of Language Change 153
Language and Activity: a Historical View 156
The Active Language Type 156
How did Transitivity Relations Evolve? Accusative Syntax 161
Sex-gender 168
Diffusion 169
