

# TABLE OF CONTENTS

Plenary Address: Tomorrow's world — <i>Gunnar Hambraeus (Royal Swedish Acad. of Eng. Sci., Sollentuna, Sweden)</i> . . . .	1
Plenary Address: The need for innovations in automobile technology — <i>Ulrich Seiffert (Volkswagen AG, Wolfsburg, Germany)</i> . . . . .	7

## SECTION 1: Management of Engineers, Scientists and Technical Organizations

Structuring a firm's participation in the setting of information processing and telecommunications industry standards — <i>Antonio J. Bailetti and John Callahan (Fac. of Eng. &amp; Sch. of Bus., Carleton Univ., Ottawa, Ont., Canada)</i> . . . . .	29
The self-designing organization: Structure, learning, and the management of technical professionals — <i>David D. Dill (Univ. of North Carolina, Chapel Hill, NC, USA) and A. W. Pearson (Manchester Bus. Sch., Univ. of Manchester, UK)</i> . . . . .	33
The interaction between a development group in a technology intensive firm and a customer organization — <i>Antonio J. Bailetti (Fac. of Eng. &amp; Sch. of Bus., Carleton Univ., Ottawa, Ont., Canada) and José M. Duran (Bell Northern Res. Ltd., Ottawa, Ont., Canada)</i> . . . . .	37
Design of intra-organizational network (ION) — <i>Yoshikazu Watanabe (Sch. of Manage. &amp; Inf., Sanno Coll., Isehara, Kanagawa, Japan)</i> . . . . .	41
Technology for organizational coordination — <i>Joseph A. Heim (Nat. Acad. of Eng., Washington, DC, USA)</i> . . . . .	45
Relationships among leadership, communication and outcomes in research teams — <i>Kyoungjo Oh (Korea Inst. for Defense Analyses, Cheongryang, Seoul, South Korea)</i> . . . . .	49
Organizational flexibility in the Japanese corporate R&D setting — <i>Saviour Boluda, Hiroshi Asamitsu, Tomohiro Ijichi, and Ryo Hirasawa (Univ. of Tokyo, Meguro-ku, Tokyo, Japan)</i> . . . . .	53
Cultivating coalition attitudes — <i>Robert J. Parden (Santa Clara Univ., CA, USA)</i> . . . . .	59
The engineer as hero or scapegoat: Implementing new technologies — <i>Carol A. Beatty (Sch. of Bus., Queen's Univ., Kingston, Ont., Canada)</i> . . . . .	63
The changing role of the middle manager in engineering — <i>W. O. Anderson Jr. (Bell Communications Res., Inc., Denver, CO, USA)</i> . . . . .	69
The labor market for R&D personnel—The current situation in Japan and pertinent issues — <i>Akiya Nagata (Inst. for Future Technol., Kitanomaru-koen, Chiyodaku, Tokyo, Japan)</i> . . . . .	74
Education for leadership in management of engineering and technology — <i>Dundar F. Kocaoglu (Portland State Univ., OR, USA)</i> . . . . .	78
Training communication network managers to meet the expectations of the industry — <i>Frank Mighetto (City Univ., Bellevue, WA, USA), Srinivas Chaganty (GTE Telecom, Inc., Bothell, WA, USA), and Michael A. Pastore (IBID Corp., Bellevue, WA, USA)</i> . . . . .	84
Mitsubishi Kougaku-Juku: A technology training camp for engineers of the future — <i>Yoshimi Gamo, Masao Yano, and Kuniaki Sakai (Mitsubishi Electric Corp., Nagata-ku, Kobe, Japan)</i> . . . . .	88
Teaching management of technology in European graduate business schools — <i>Thierry Grange (Group ESC Grenoble, France)</i> . . . . .	92
Engineering management: Past, present, and future — <i>R. B. Ward (Sch. of Mech. Eng., Univ. of Technol., Sydney, NSW, Australia)</i> . . . . .	96
The use of simulation in an engineering management academic program — <i>Henry N. Christiansen (Civil Eng. Dept., Brigham Young Univ., Provo, UT, USA) and Roger K. Summit (Dialog Inf. Services, Inc., Palo Alto, CA, USA)</i> . .	100
Simulation in the classroom — <i>Elaine L. Tatham (Univ. of Kansas, Overland Park, KS, USA)</i> . . . . .	104

Cumulative trauma disorders as a result of poor ergonomic workstation design: A case history of VDT operators — <i>German Nunez and German R. Nunez Jr. (Dept. of Ind. Eng., Florida Int. Univ., Miami, FL, USA)</i> .....	108
Culture-change and the leader-follower subsystem — <i>Kathryn A. Welch, Larry A. Mallak, and Harold A. Kurstedt Jr. (Virginia Polytech. Inst. &amp; State Univ., Blacksburg, VA, USA)</i> .....	111
Organizational changes in engineering companies in a developing economy — <i>Zeyyat Hatiboglu (Istanbul Tech. Univ., Turkey) and Kirhan Dadasbilge (STFA Co., Turkey)</i> .....	111
HiTop: A tool for integrating technology with the organization — <i>Michael T. Wood, Mitchell Fleischer (Ind. Technol. Inst., Ann Arbor, MI, USA), and Ann Majchrzak (Univ. of Southern California, CA, USA)</i> .....	112
Social interaction and innovative project performance — <i>Scott Seibert (Ithaca, NY, USA)</i> .....	112
The personal experience of professional obsolescence among scientists and engineers in Israel — <i>Asya Pazy (Graduate Sch. of Bus. Adm., Tel Aviv Univ., Israel)</i> .....	113
Use of group nominal technique for consensus formation for bringing changes/improvement — <i>S. C. Misra (Tata Steel, Jamshedpur, India)</i> .....	113
Engineers and their competitive edge for the 90s — <i>Cecilia Temponi and Donald Liles (Autom. &amp; Robotic Res. Inst., Univ. of Texas, Arlington, TX, USA)</i> .....	114
The managerial/technologist conflict — <i>Charles W. Richards IV (Scientific Atlanta, Melbourne, FL, USA)</i> .....	114
Graduate programs in management of technology—A manual — <i>Yechiel Shulman (Inst. of Technol., Univ. of Minnesota, Minneapolis, MN, USA)</i> .....	115
Educational programs in management of technology (MOT) — <i>Tarek M. Khalil and Evan Berman (Ind. Eng. Dept., Univ. of Miami, FL, USA)</i> .....	115
Environmental analysis for engineering/science management (ESM) program in Alaska — <i>Jang W. Ra (Sch. of Eng., Univ. of Alaska, Anchorage, AK, USA)</i> .....	116
Perspectives on quality education in management development — <i>Jeffrey S. Busch (Pinnell Busch Engineering, Inc., Portland, OR, USA) and Dragon Milosevic (Energoprojekt Holding Corp., Yugoslavia)</i> .....	116
Corporate culture, educational paradigms and the limits of R&D management: The case of Philips The Netherlands — <i>Andre J. C. Manders (Univ. of Utrecht, Netherlands)</i> .....	117
Diversity in the workplace of the future is no longer an option — <i>Mary Madison (City of Westminster, Dept. of General Services, Colorado, USA)</i> .....	117
Understanding work force diversity — <i>Ellen West (Sch. of Bus., Adm., Portland State Univ., OR, USA)</i> .....	118
Family care policy in the high-tech workplace: It's a good investment — <i>Jane E. Humble (Dept. of Manuf. &amp; Ind. Technol., Arizona State Univ., Tempe, AZ, USA) and Amy Hauth (AT&amp;T Technologies, USA)</i> .....	118

## SECTION 2: R&D Management

A study of the impact of the growing international dimensions of technology on career development at a national aerospace laboratory — <i>Belinda H. Adams (Nat. Aeronaut. &amp; Space Adm., Hampton, VA, USA)</i> .....	121
Integrated management activities in the Joint Institute for Advancement of Flight Sciences — <i>John L. Whitesides (Joint Inst. for Adv. of Flight Sci., George Washington Univ., Hampton, VA, USA)</i> .....	124
Managing BPA R&D — <i>James J. Ray and Walter E. Myers (Bonneville Power Administration, Portland, OR, USA)</i> ..	127
Management of science and engineering work force in the global R&D environment — <i>Masazumi Sone (Nissan Res. &amp; Dev., Inc., Ann Arbor, MI, USA) and George A. Fulton (Inst. of Labor &amp; Ind. Relations, Univ. of Michigan, Ann Arbor, MI, USA)</i> .....	130
Global R&D activities of US multinational corporations: Some empirical results — <i>Alexander von Boehmer (Inst. for Res. in Innovation Manage., Univ. of Kiel, Germany)</i> .....	135
Sustained success through the management of core competencies: An empirical analysis — <i>Martin Lafrance (Bell-Northern Res. Ltd., Ottawa, Ont., Canada) and Jérôme Doutriaux (Fac. of Adm., Univ. of Ottawa, Ont., Canada)</i> .....	141

Core competency management in R&D organizations — <i>Keith Dawson (Bell-Northern Res. Ltd., Ottawa, Ont., Canada)</i> .....	145
Managing R&D as an opportunity center — <i>Bradley N. Ross (Bell-Northern Res. Ltd., Ottawa, Ont., Canada)</i> .....	149
Managing the R&D–Marketing interface — <i>Elza V. Seregelyi and Irene A. Kohut (Bell-Northern Res. Ltd., Ottawa, Ont., Canada)</i> .....	153
Inclusive-interactive approach for R&D management—A new scheme for the global enterprise — <i>Yutaka Kuwahara (Hitachi, Ltd., Marunouchi, Tokyo, Japan) and Ryo Hirasawa (Dept. of Gen. Syst. Studies, Univ. of Tokyo, Meguro-ku, Tokyo, Japan)</i> .....	157
Tools for improving the quality of R&D management — <i>Michael M. Menke (Strategic Decisions Group, Menlo Park, CA, USA)</i> .....	162
Research and development intensity and performance — <i>C. Carl Pegels (Sch. of Manage., State Univ. of New York, Buffalo, NY, USA)</i> .....	166
Strategic Planning—A key for R&D management — <i>Vijay K. Verma and P. Eng (TRIUMF, Univ. of British Columbia, Vancouver, BC, Canada)</i> .....	170
Characteristics of Japanese R&D management excellence — <i>Fujio Niwa (Inst. of Socio-Econ. Planning, Univ. of Tsukuba, Ibaraki, Japan)</i> .....	175
Managing communication at the interface between R&D and marketing — <i>A. W. Pearson (Manchester Bus., Sch., UK) and D. F. Ball (Leicester Bus. Sch., UK)</i> .....	178
Strategic planning process—Employee empowerment in an R&D center — <i>Sidney F. Pauls (NASA Langley Res. Center, Hampton, VA, USA) and William L. Williams (George Washington Univ., USA)</i> .....	184
Multinational issues in R&D management — <i>Eric William Burger (McLean, VA, USA)</i> .....	184
Informatics for project structuring — <i>Jan Osterlund (Stockholm Univ., Sweden)</i> .....	185
Effective R&D project management through effort classification — <i>Andrew Snow (Network Management Inc., Fairfax, VA, USA)</i> .....	185

### SECTION 3: Product and Project Management

Planning and managing the design of systems — <i>Donald V. Steward (Comput. Sci. Dept., California State Univ., Sacramento, CA, USA)</i> .....	189
Implementing CAD in a small company engineering group — <i>Max G. Maginness (Gretag Systems, Bothell, WA, USA)</i> ..	194
Activity design in product development — <i>Pascale Hermann-Lassabe, Claire Courquin, and Claudine Guidat de Queiroz (Genie des Systemes Ind., Instut Nat. Polytech. de Lorraine, Villers-les-Nancy, France)</i> .....	198
New product technology decisions in the U.S. multi-market firm — <i>Gerald S. Rosenfelder and Guy H. Gessner (Manage./Marketing Dept., Canisius Coll., Buffalo, NY, USA)</i> .....	202
Comparison of Korean to western R&D: Project selection factors for new product development — <i>Ilyong Kim and Chiyong Kim (Dept. of Ind. Proj. Manage., Sci. &amp; Technol. Policy Inst./KAIST, South Korea)</i> .....	207
Achieving product and service fast time to market objectives through technology management — <i>Johnson A. Edosomwan (Johnson &amp; Johnson Associates, Inc., Morgan Hill, CA, USA)</i> .....	211
Accelerating time-to-market methodology and case study highlights — <i>Donald E. White (California Polytech. State Univ., San Luis Obispo, CA, USA) and John R. Patton (Cadence Management Corp., Portland, OR, USA)</i> .....	214
Shortening development cycle times: A manufacturer’s perspective — <i>Arnoud De Meyer (INSEAD, Fontainebleau, France)</i> .....	220
Some strategic aspects of faster new product introduction — <i>R. Balachandra (Graduate Sch. of Bus., Northeastern Univ., Boston, MA, USA)</i> .....	226
Leadership in product development phase — <i>Tomislav Mandakovic and Edurne L. Gorricho (Universidad Catolica de Chile, Santiago, Chile)</i> .....	230

The product-process-market path: New road maps — <i>Albert E. J. Bachmann (Florida Inst. of Technol., Melbourne, FL, USA)</i> .....	235
Concurrent engineering as an integrated approach to fast cycle development — <i>Denis M. S. Lee (Sch. of Manage., Suffolk Univ., Boston, MA, USA)</i> .....	238
A structured method for assessing the maturity of an electronic design process — <i>Charles W. Rosenthal (Mentor Graphics Corp., Wilsonville, OR, USA)</i> .....	242
Competition and cooperation in Japanese home appliance manufacturers—A case in VCR manufacturers — <i>Kazuo Yanagishita (Dept. of Managerial Eng., Kanazawa Inst. of Technol., Ishikawa, Japan) and Ryo Hirasawa (Dept. of Gen. Syst. Studies, Univ. of Tokyo, Meguro-Ku, Tokyo, Japan)</i> .....	247
Coupling of customer preferences and production cost information — <i>Benny Iggländ (ABB Asea Brown Boveri Ltd., Zurich, Switzerland)</i> .....	250
Using project management for strategic advantage in the public sector — <i>Peter R. Richardson (Sch. of Bus., Queen's Univ., Canada) and J. Trevor Jubb (Dept. of Energy, Mines &amp; Resources, Canada)</i> .....	254
Startup and management of a highly complex, interdisciplinary project — <i>Edward F. Bradley (Technology Management Associates, Inc., Sandy, UT, USA) and David W. Hoepfner (Dept. of Mech. &amp; Ind. Eng., Univ. of Utah, Salt Lake City, UT, USA)</i> .....	258
Generic risk reduction strategies for R&D projects — <i>Vasanthakumar Bhat (Dept. of Manage. Sci., Pace Univ., New York, NY, USA)</i> .....	262
Project valuation and scheduling with recourse — <i>Fred Y. Phillips, Rajendra K. Srivastava, and Roy E. Springer (Univ. of Texas, Austin, TX, USA)</i> .....	266
Measuring project progress by work sampling — <i>Max L. Hailey (Eng. Manage. Dept., Univ. of Tennessee Space Inst., Tullahoma, TN, USA) and Iain Andrew (Andrew, Nixon &amp; Associates Inc., Greenville, SC, USA)</i> .....	272
The post-evaluation of an engineering project via AHP — <i>Zilla Sinuany-Stern and Atzmon Amitai (Dept. of Ind. Eng. &amp; Manage., Ben-Gurion Univ., Beer Sheva, Israel)</i> .....	275
Cost based allocation of resources in project planning — <i>Richard F. Deckro (Portland State Univ., OR, USA), John E. Hebert, (Dept. of Manage., Univ. of Akron, OH, USA), and William A. Verdini (Dept. of Decision/Inf. Syst., Arizona State Univ., AZ, USA)</i> .....	278
Project planning and control in practice, firm or fiction? The treatment of uncertainty in project planning and control — <i>Kornelis Sietsma and M. B. Sietsma (Dept. of Mech. &amp; Ind. Eng., Monash Univ., Victoria, Australia)</i> .....	284
Enhancing success probabilities of projects, especially large projects entailing legal-political difficulties — <i>Bruce N. Baker (SRI International, Menlo Park, CA, USA)</i> .....	288
Managing the system design cycle using progressive models — <i>D. L. Stiles and S. R. Shaver (Pacific Northwest Lab., Richland, WA, USA)</i> .....	293
Accelerating the product design process — <i>Richard G. Ollila, Donald R. Forry, and Donald W. Caudy (Battelle Columbus Operations, OH, USA)</i> .....	293
Relative importance of time, cost and performance in the NPD process — <i>Ashok Gupta (Marketing Dept., Ohio Univ., Athens, OH, USA), Klaus Brockhoff, and Ursula Weisenfeld (Christian-Albrechts Univ.)</i> .....	294
A framework for continuous improvement in new product development — <i>Dundar F. Kocaoglu, Richard F. Deckro, Molly Olson, M. Guven Iyigun, Jacob Klein, and Sida Zhou (Portland State Univ., OR, USA)</i> .....	294
Managing a technical product evaluation function — <i>Michael E. Richerson (Boeing Computer Services, Wichita, KS, USA)</i> .....	295
Evaluation of project management software packages and their usefulness on small short duration projects — <i>Donald F. Adamski (Portland, OR, USA)</i> .....	295
Engineer participation in scheduling and budgeting: The effect on project performance — <i>David F. McManus (Boise Cascade Corp., ID, USA)</i> .....	296

## SECTION 4: Management of Critical Resources

Cost savings or cost shift — <i>Michael E. Richerson (Boeing Computer Services, Wichita, KS, USA)</i> .....	299
The impact of setup cost reduction — <i>Kun-Jen Chung, Tsong Ming Lin (Dept. of Ind. Manage., Nat. Taiwan Inst. of Technol., Taiwan), and Fu Chiao Chyr (Dept. of Ind. Manage., Nat. Kaohsiung Inst. of Technol., China)</i> .....	301
An intuitive parametric cost forecasting model for assembled products — <i>Rhys G. Williams (European Business Manage. Sch., Univ. of Wales, Swansea, UK)</i> .....	304
The strategic pricing center: Coordinating marketing, engineering and manufacturing for competitive advantage — <i>Robert R. Harmon, Tom Gillipatrick (Sch. of Bus., Portland State Univ., OR, USA), and Jamshid Hosseini (Manage. Sci., Marquette Univ., USA)</i> .....	309
A decision support system for resource allocation derived from Poisson gravity regression analysis and linear goal programming — <i>Reza Khorramshahgol (Dept. of Comput. Sci. &amp; Inf. Syst., American Univ., Washington, DC, USA) and A. Ason Okoruwa (Dept. of Finance, Univ. of Northern Iowa, Cedar Falls, IA, USA)</i> .....	314
Technology management using computer-aided decision engineering tool — <i>Kazuo J. Ezawa and James B. Scherer (AT&amp;T Bell Lab., Murray Hill, NJ, USA)</i> .....	319
A multiobjective approach to transportation network design — <i>Alpaslan Figlali and Atac Soysal (Ind. Eng. Dept., Istanbul Tech. Univ., Macka, Istanbul, Turkey)</i> .....	323
A new algorithm for two-level RFFD generation — <i>M. Liou, H. Dietz, H. Moskowitz, and R. Plante (Purdue Univ., West Lafayette, In, USA)</i> .....	328
A new algorithm for IFFD generation — <i>M. Liou, H. Dietz, H. Moskowitz, and R. Plante (Purdue Univ., West Lafayette, In, USA)</i> .....	332
Multiobjective R&D portfolio analysis in highly uncertain environments — <i>M. Guven Iyigun (Portland State Univ., OR, USA)</i> .....	335
Stochastic resources modelling — <i>Michael M. Nkasu (Dept. of Manuf. Eng., City Poltech., Hong Kong)</i> .....	342
Optimal strategies for acquiring advanced engineering technologies with linked resources — <i>Roger J. Gagnon (Babcock Graduate Sch. of Manage., Wake Forest Univ., Winston-Salem, NC, USA) and Chwen Sheu (Coll. of Bus. Adm., Kansas State Univ., Manhattan, KS, USA)</i> .....	348
A management decision model for discrete maintenance — <i>John L. Hunsucker and Dorra Damak (Dept. of Ind. Eng., Univ. of Houston, TX, USA)</i> .....	354
Technical interaction in large complex technology systems and its impact on technology management decisions — <i>Win G. Liu (Portland State Univ., OR, USA)</i> .....	358
Managing toward a reliability-based design approach — <i>Edward F. Bradley (Technology Management Associates, Inc., Sandy, UT, USA) and David W. Hoepfner (Dept. of Mech. &amp; Ind. Eng., Univ. of Utah, Salt Lake City, UT, USA)</i> .	362
A product development model: From a reliability engineering viewpoint — <i>Pah I. Chen (Mech. Eng. Dept., Portland State Univ., OR, USA)</i> .....	366
Hazardous area robotics for nuclear systems maintenance: A challenge in reliability — <i>David J. Wells (Mech. Eng., Clarkson Univ., Potsdam, NY, USA)</i> .....	371
Establishing a productivity-based infrastructure in a technical organization — <i>Edward F. Bradley (Technology Management Associates, Inc., Sandy, UT, USA) and David W. Hoepfner (Dept. of Mech. &amp; Ind. Eng., Univ. of Utah, Salt Lake City, UT, USA)</i> .....	374
Manufacturing strategies: Implementing 'sequencing' — <i>K. E. Venner (AT&amp;T-Network Systems, N. Andover, MA, USA)</i> .	378
Managerial accounting strategy: Activity based costing — <i>Arvind Ballakur (AT&amp;T Bell Lab., Holmdel, NJ, USA)</i> .....	383
Quality measures for a hospital — <i>K. N. Gopalakrishnan, B. McIntyre, and John Whittaker (Univ. of Alberta, Alta., Canada)</i> .....	389
Target costing for new product development — <i>Barry Wald (Intel Corp., Hillsboro, OR, USA)</i> .....	394
A decision support system for multilocation plant sizing and timing problems — <i>R. V. Kulkarni and R. P. Mohanty (Nat. Inst. for Training in Ind. Eng., Bombay, India)</i> .....	394

Flexible decision method for resource allocation — <i>Shi Yongheng and Gu Changyao (Beijing Univ. of Aeronaut. &amp; Astronaut., China)</i> .....	395
A method of dynamic modeling: A scheme of MBS implementation — <i>Xuping Jiang (Sch. of Econ. Manage., Tsinghua Univ., Beijing, China)</i> .....	395
Multi-criteria investment analysis under uncertainty — <i>Ethem Tolga and Cengiz Kahraman (Dept. of Ind. Eng., Istanbul Tech. Univ., Turkey)</i> .....	396
The burning plasma experiment: Changing fusion to an energy-oriented program — <i>Robert T. Simmons and John A. Schmidt (Princeton Plasma Phys. Lab., NJ, USA)</i> .....	396
Computer energy management systems problems and resolutions — <i>Rod Neal (Coll. of Bus. Adm., Univ. of Arkansas, Little Rock, AR, USA)</i> .....	397
A delta T—A time-based strategy — <i>Kathleen H. Nash (QualiTime Strategies, Tempe, AZ, USA)</i> .....	397
Applying TQM to R&D — <i>Dave Gobeli (Coll. of Bus., Oregon State Univ., Corvallis, OR, USA)</i> .....	398
Continuous improvement in daily work — <i>Michael Caravatta (Tektronix, Inc., Beaverton, OR, USA)</i> .....	398
Quality and productivity through process management — <i>Hal A. Rumsey (Washington State Univ., Spokane, WA, USA)</i> .	399
The quality sciences and technology management — <i>Robert M. Krone (Univ. of Southern California, Los Angeles, CA, USA)</i> .....	399
Sample performance measures for organization processes — <i>Luis F. A. M. Gomes (Dept. of Ind. Eng., Pontifical Catholic Univ. of Rio de Janeiro, Brazil) and Joao Rufino de Oliveira (SERPRO, Rio de Janeiro, Brazil)</i> .....	400

## SECTION 5: Management of New and Emerging Technologies

Management of technology: A morphological taxonomy — <i>Aaron Shenhar (Fac. of Manage., Tel-Aviv Univ., Israel)</i> .	403
Technology management in 'mul-tech' corporations — <i>Ove Granstrand and Christer Oskarsson (Dept. of Ind. Mangage. &amp; Econ., Chalmers Univ. of Technol., Goteborg, Sweden)</i> .....	407
Remediation technologies for environmental restoration — <i>Shakir Zuberi (Davy Environmental, San Ramon, CA, USA)</i> .	416
Management and technology of liquid waste disposal by deep-well injection — <i>Saeed N. Mogharabi (Alcoa Technical Center, Alcoa Center, PA, USA)</i> .....	420
Strategic management of technology for manufacturing operations — <i>Gustavo A. Vargas (California State Univ., Fullerton, CA, USA)</i> .....	424
Multi-criteria evaluation of site selection alternatives — <i>Thomas M. West (Dept. of Ind. &amp; Manuf., Eng., Oregon State Univ., Corvallis, OR, USA), Nancy L. Mills (Dept. of Eng., Univ. of Southern Colorado, Pueblo, CO, USA), and Sabah U. Randhawa (Dept. of Ind. &amp; Manuf., Eng., Oregon State Univ., Corvallis, OR, USA)</i> .....	428
Understanding and evaluating environmental costs of manufacturing: The industrial management perspectives — <i>Cheickna Sylla (Sch. of Ind. Manage., New Jersey Inst. of Technology, Newark, NJ, USA)</i> .....	432
Management challenges for the manufacturing engineer — <i>Robert V. Peltier and Renee B. Horowitz (Department of Manuf. &amp; Ind. Technol., Arizona State Univ., Tempe, AZ, USA)</i> .....	436
Expert support system for designing cellular manufacturing — <i>Wing S. Chow (Dept. of Finance &amp; Decision Sci., Hong Kong Baptist Coll., Hong Kong) and Ostab Hawaleshka (Dept. of Mech. Eng., Univ. of Manitoba, Man., Canada)</i> .	440
Management of just-in-time production — <i>Frank Safayeni, P. Robert Duimering (Dept. of Manage. Sci., Univ. of Waterloo, Ont. Canada), and Lyn Purdy (Centre for Adm. &amp; Inf. Studies, Univ. of Western Ontario, London, Ont., Canada)</i> .....	444
Implementing JIT: The dimensions of culture, management, and human resources — <i>Paul H. Meredith, John H. Ristroph, and Jim Lee (Univ. of Southwestern Louisiana, Lafayette, LA, USA)</i> .....	448
Quality impacts on JIT performance measures: A factory simulation — <i>Harold Dyck, Jay Varzandeh, and Jack McDonnell (Inf. &amp; Decision Sci. Dept., California State Univ., San Bernardino, CA, USA)</i> .....	452
University/industry cooperation on an integrated production planning software system — <i>Mark A. Turnquist (Sch. of Civil &amp; Environ. Eng., Cornell Univ., Ithaca, NY, USA)</i> .....	456

Academia–industry interactions in developing countries—An overview of developmental issues and management challenges — <i>G. V. Kamala (Centre for Sci. &amp; Ind. Consultancy, Indian Inst. of Sci., Bangalore, India)</i> .....	460
Technology transfer in international joint ventures: The importance of early staff negotiations — <i>Kurt Loess (Dept. of Marketing &amp; Policy Studies, Case Western Reserve Univ., Cleveland, OH, USA)</i> .....	464
Understanding quality in engineering service organizations — <i>Robert M. Mason, Paul Salipante, and George Robinson (Case Western Reserve Univ., Cleveland, OH, USA)</i> .....	468
Cultural differences and the management of engineering in U.S.–Japanese joint ventures — <i>Leonard H. Lynn (Dept. of Marketing &amp; Policy Studies, Case Western Reserve Univ., Cleveland, OH, USA)</i> .....	474
Indicators of firm patent activities — <i>Klaus K. Brockhoff (Inst. for Res. in Innovation Manage., Univ. of Kiel, Germany)</i> .	476
Knowledge spillovers and absorptive capacity: A model of technological learning — <i>Naren D. Udayagiri (Carlson Sch. of Manage., Univ. of Minnesota, Minneapolis, MN, USA)</i> .....	482
A prototyping methodology to support development of generic user software — <i>M. Afferson, J. K. Andrews, A. P. Muhlemann, D. H. R. Price, and J. A. Sharp (Univ. of Bradford Manage. Centre, Bradford, UK)</i> .....	486
The transition from software development to software engineering — <i>Wolfgang B. Strigel (Science Council of B.C., Burnaby, BC, Canada)</i> .....	491
Models of technology transfer (A dialectical case study) — <i>Eli Berniker (Sch. of Bus. Adm., Pacific Lutheran Univ., Tacoma, WA, USA)</i> .....	499
Knowledge-based technology transfer — <i>David V. Gibson (Graduate Sch. of Bus., Univ. of Texas, Austin, TX, USA) and Kiyoshi Niwa (Eng. Manage. Program, Portland State Univ., OR, USA)</i> .....	503
Customer-driven technology transfer — <i>William S. Bregar (Tektronix Lab.)</i> .....	507
Interorganizational transfer of knowledge: An analysis of patent citations of a defense firm — <i>Alok K. Chakrabarti, Israel Dror, and Nopphadol Eakabuse (Sch. of Ind. Manage., New Jersey Inst. of Technol., Newark, NJ, USA)</i> ...	510
Transitioning research results: A challenge in communication — <i>Helmut Hellwig (Air Force Office of Sci. Res., Bolling AFB, Washington, DC, USA)</i> .....	516
Technology transition: Implications from studying a DoD laboratory — <i>W. Austin Spivey and William T. Flannery (Manage. &amp; Marketing Div., Univ. of Texas, San Antonio, TX, USA)</i> .....	521
Appropriate technology transfer: A must for improving global competitiveness — <i>Subhash Bhatia (Amdahl Corp., Sunnyvale, CA, USA)</i> .....	525
A new thinking and model for technology diffusion — <i>Huang Zhen-Li (Hydraulic Dept., Tsinghua Univ., Beijing, China) and Ja-Su Lei (Sch. of Econ. &amp; Manage., Tsinghua Univ., Beijing, China)</i> .....	529
Senior management’s responsibilities in promoting information technologies: Some empirical perspectives — <i>Bela Gold (Claremont Graduate Sch., CA, USA)</i> .....	533
The strategic use and misuse of interorganizational information systems: The case of EDI — <i>Robert R. Wharton (Manage. Studies Dept., Univ. of Minnesota, Duluth, MN, USA)</i> .....	538
Factors influencing the adoption and use of intelligent systems in professional service organizations — <i>Albert H. Rubenstein (CITT, Northwestern Univ., Evanston, IL, USA) and Eliezer Geisler (Coll. of Bus. &amp; Econ., Univ. of Wisconsin, Whitewater, WI, USA)</i> .....	542
Emerging applications of knowledge sharing systems — <i>Kiyoshi Niwa (Sch. of Eng. &amp; Appl. Sci., Portland State Univ., OR, USA)</i> .....	546
Knowledge system of engineering and technology management — <i>Karol I. Pelc (Sch. of Bus &amp; Eng. Adm., Michigan Technol., Univ., Houghton, MI, USA)</i> .....	550
How to manage technology by an expert system — <i>Brigitte Remünger (Siemens AG, Munich, Germany)</i> .....	554
Probabilistic technological forecasts using precursor events — <i>Joseph P. Martino (Res. Ins., Univ. of Dayton, OH, USA)</i> .....	562
A Dempster–Shafer based approach to technology assessment applied to selection of software packages — <i>Margaret F. Shipley and André de Korvin (Univ. of Houston-Downtown, TX, USA)</i> .....	566

An approach to methods for processing uncertain factors in short-term macroeconomic forecasting — <i>Xuping Jiang (Dept. of Inf. Syst., Tsinghua Univ., Beijing, China)</i> .....	570
Assessment of the strategic benefits of robotic operations: A case study of a thermal spraying robot — <i>Aydan Kutay and Lee Weiss (Robotics Inst., Carnegie Mellon Univ., Pittsburgh, PA, USA)</i> .....	574
Technology management: The system perspectives for the 1990s — <i>K. C. Hau (Dept. of Electr. &amp; Electron. Eng., Univ. of Hong Kong, Hong Kong)</i> .....	578
System engineering—The basis for management of engineering and technology — <i>Brian W. Mar (University of Washington, Seattle, WA, USA)</i> .....	578
Environmental clean-up: Who is responsible — <i>Alfonso K. Cruz, D. Alice Cruz (AT&amp;T Network Systems) and Jane E. Humble (Dept. of Manuf. &amp; Ind. Technol., Arizona State Univ., Tempe, AZ, USA)</i> .....	579
The development and management of a nuclear waste transportation research center — <i>William R. Wells (Coll. of Eng., Univ. of Nevada, Las Vegas, NV, USA)</i> .....	579
Evaluation of alternative manufacturing equipment implementation strategies — <i>Sabah U. Randhawa and Thomas M. West (Dept. of Ind. &amp; Manuf. Eng., Oregon State Univ., Corvallis, OR, USA)</i> .....	580
A 3-D competitive manufacturing model — <i>B. Mustafa Pulat (AT&amp;T Network Systems, Oklahoma City, OK, USA) and P. Simin Pulat (Dept. of Ind. Eng., Univ. of Oklahoma, Norman, OK, USA)</i> .....	580
Strategy for controlled creation of new product ranges — <i>Herman H. van Mal (Dept. of Ind. Eng. &amp; Manage. Sci., Univ. of Technol., Eindhoven, Netherlands)</i> .....	581
An experimental design for conducting simulation studies in effect of shop control factors — <i>Ziaul Huq (Decision Sci. Dept., Univ. of Nebraska, Omaha, NE, USA)</i> .....	581
Systematic models for industry–institution cooperation — <i>Kris K. Murthy (UNESCO, CA, USA)</i> .....	582
Government/industry/academic partnerships in Brazil — <i>Guilherme Ary Plonski (Univ. of Sao Paulo, Brazil)</i> .....	582
Cultural collisions in international joint venture decision making: A social constructionist perspective — <i>Judith Y. Weisinger (Dept. of Marketing &amp; Policy Studies, Case Western Reserve Univ., Cleveland, OH, USA)</i> .....	583
Patents: Untapped sources of technical information — <i>Carole Shlaes (Eng. Manage. Dept., Portland State Univ., OR, USA)</i> .....	583
Multidisciplinary research thrusts from co-word analysis — <i>Ronald N. Kostoff (Office of Naval Res., Arlington, VA, USA)</i> .....	584
Issues with managing computer workstation technical support functions — <i>Michael E. Richerson (Boeing Computer Services, Wichita, KS, USA)</i> .....	584
Software project management: The effect of development methodologies and environment — <i>Emdad H. Khan (Dept. of Comput. Sci., Univ. of Bahrain, Bahrain)</i> .....	585
Managing by modelling: How to manage the adoption of a new technology — <i>Hannu Jaakkola (Res. Inst. for Inf. Technol., Tampere Univ. of Technol., Finland)</i> .....	585
Transfer of advanced manufacturing technology from universities to industry — <i>Donald Gerwin, Vinod Kumar, and Siva Pal (Sch. of Bus., Carleton Univ., Ottawa, Ont., Canada)</i> .....	586
An empirical study of methods and techniques used in the interface between universities and industry in a research consortium — <i>and Eliezer Geisler (Dept. of Manage., Univ. of Wisconsin, Whitewater, WI, USA)</i> .....	586
State/national science foundation industry–university cooperative research centers (IUCRC): Research and policy rationale for a new model of cooperation — <i>Denis O. Gray (Dept. of Psychol., North Carolina State Univ., Raleigh, NC, USA) and Walter Plosila (Montgomery County High Technology Council, USA)</i> .....	587
The new culture shock: The manager in the evolving information society — <i>Harold A. Linstone (Syst. Sci. Dept., Portland State Univ., OR, USA)</i> .....	588
A group decision support system for large group processes — <i>Larry E. Shirland and James M. Kraushaar (Univ. of Vermont, Burlington, VT, USA)</i> .....	589
Knowledge building and concurrent engineering in manufacturing automation — <i>Frank A. Dubinkas (Carroll Sch. of Manage., Boston Coll., MA, USA)</i> .....	589

New product development effectiveness: A triadic comparison in the information technology industry — <i>Yves L. Doz (Int. Manage., INSEAD, Fontainebleau, France)</i> .....	590
An expert system for academic advising — <i>Ling Ling Pan (Dept. of Eng. Manage., Old Dominion Univ., Norfolk, VA, USA)</i> .....	590
The changing role of engineers and knowledge-based systems — <i>Gunilla Bradley (Inst. of Int. Educ., Univ. of Stockholm, Sweden)</i> .....	591

## SECTION 6: Management of Technological Innovation

Hierarchical decision process — <i>Jang W. Ra (Sch. of Eng., Univ. of Alaska, Anchorage, AK, USA)</i> .....	595
The preferred contaminated soil remediation method at Shemya Air Force Base — <i>Kenneth J. Brown (US Air Force, Elmendorf AFB, AK, USA)</i> .....	600
Towards measuring the success of innovations — <i>J. Hauschildt (IRIM, Univ. of Kiel, Germany)</i> .....	605
Rewarding and stimulating creativity and innovation in technology companies — <i>Carol Shlaes (Eng. Management Dept., Portland State Univ., OR, USA)</i> .....	609
Fostering the innovation process by textual analysis of stakeholder opinions — <i>Wade H. Shaw Jr. and T. Roger Manley (Sch. of Bus., Florida Inst. of Technol., Melbourne, FL, USA)</i> .....	613
A model of 'secondary innovation' process — <i>Qingrui Xu and Xiaobo Wu (Res. Inst. of Manage. Sci., Zhejiang Univ., Hangzhou, China)</i> .....	617
A method to diagnose high tech ventures — <i>C. Gordon Bell and Heidi B. Mason (Los Altos, CA, USA)</i> .....	621
Start-ups and spin-outs: Competitive strategies and effects on former employees — <i>Robert H. Keeley and Behnam Tabrizi (Stanford Univ., CA, USA)</i> .....	625
Technical change in technology management — <i>Johan O. Hilbrink (NCR Corp., Dayton, OH, USA)</i> .....	631
On the creative process in science and engineering — <i>Melvin P. Shaw (Dept. of Electr. &amp; Comput. Eng., Wayne State Univ., Detroit, MI, USA)</i> .....	635
A portfolio approach to managing technological innovations — <i>Louis Rajczi (Bell Northern Res. Ltd., Ottawa, Ont., Canada)</i> .....	640
Managing uncertainty: Tools for change — <i>Tim G. Moore (Bell Northern Res. Ltd., Ottawa, Ont., Canada)</i> .....	644
The cost distribution of technological innovation in China — <i>Tang Shiguo and Lan Chongyuan (Nat. Res. Center for Sci. &amp; Technol. for Dev., Beijing, China)</i> .....	648
R&D management for diversification of business — <i>Tsuneo Nakahara, Kunihiko Taniguchi, and Michikazu Murakami (Sumitomo Electric Ind., Ltd., Konohana-ku, Osaka, Japan)</i> .....	652
Targeting growth through technological innovation — <i>Stanley C. Ross (Bus. &amp; Econ. Dept., State Univ. of New York, Brockport, NY, USA)</i> .....	656
Strategies to speed the adoption of innovation — <i>James R. Bright (RRI, Edgecomb, ME, USA)</i> .....	660
Management of innovation in large established companies — <i>Shoukry Saleh and Clement K. Wang (Manage. Sci., Univ. of Waterloo, Ont., Canada)</i> .....	665
Organizing for technology adoption—The 'nucleus-snowball-hydra' structure — <i>David E. Mandeville and Ahmed Elamin Haroun (Oklahoma State Univ., Stillwater, OK, USA)</i> .....	669
Developing technological innovation diffusion models: A framework — <i>Uma Kumar and Vinod Kumar (Sch. of Bus., Carleton Univ., Ottawa, Ont., Canada)</i> .....	673
Combined application of the hierarchical decision process with time series analysis: A telecommunications industry forecasting application — <i>Kimberly Chancey (Alaska Anvil Consulting Engineers, Anchorage, AK, USA)</i> .....	677
Using the analytic hierarchy process for strategic and policy decisions in engineering management — <i>Jamshid C. Hosseini (Coll. of Bus. Adm., Marquette Univ., Milwaukee, WI, USA) and Robert L. Armacost (Univ. of Central Florida, FL, USA)</i> .....	677

A methodology for selecting computer maintenance vendors based on a hierarchical framework with eigenvector weighting — <i>Amir A. Sadrian (Bell Communications Res., Red Bank, NJ, USA)</i> .....	678
Hierarchical analysis to assess the direction of the national energy policy — <i>Ronald B. Marquez and Jang Ra (Sch. of Eng., Univ. of Alaska, Anchorage, AK, USA)</i> .....	678
Partner selection for joint venture agreements — <i>Melanie M. Lilley and Rhys G. Williams (European Bus. Manage. Sch., Univ. of Wales, Swansea, UK)</i> .....	679
A private sector initiative in establishing a science and technology park: The case of POSCO-RIST-POSTECH — <i>Sungil Juhn and Chanjuh Rhee (Res. Inst. of Ind. Sci. &amp; Technol., Pohang, South Korea)</i> .....	679
Innovation as multi-level evolutionary knowledge production — <i>Wolfgang Scholl (Inst. for Econ. &amp; Social Psychol., Univ. of Göttingen, Germany)</i> .....	680
The pitfalls of managing intellectual work in engineering and technology — <i>D. Lynne Persing (Univ. of Oregon, Portland, OR, USA)</i> .....	680
How to be successful in imitation management — <i>Gerhard Schewe (Inst. for Bus. Adm., Univ. of Kiel, Germany)</i> .....	681
Lurching towards innovation: An alternative to technology push vs. market pull — <i>Arthur Francis (Manage. Sch., Imperial Coll., London, UK) and Michael Brocklehurst (Univ. of London, UK)</i> .....	681
Defining the modernization capabilities of the small and medium-sized businesses — <i>Lise Préfontaine, Hélène Sicotte (Departement des Sci. Adm., Univ. du Quebec, Montreal, Que., Canada), and Yves-Chantal Gagnon (Ecole Nat. d'Adm. Publique, Canada)</i> .....	682

## SECTION 7: Strategic and Policy Issues

A method based on cluster analysis for national and regional technology policy development — <i>Richard G. Mathieu (Dept. of Production &amp; Decision Sci., Univ. of North Carolina, Wilmington, NC, USA)</i> .....	685
The science parks in Japan: The state in 1990 — <i>Shinji Masuda (Tokyo Inst. of Technol., Midoriku, Yokohama, Japan)</i> ..	689
An empirical investigation of the relationship between science, technology, and total factor productivity growth rate — <i>John O. Aje (Technol. &amp; Eng. Syst., Univ. of Maryland, College Park, MD, USA)</i> .....	693
Japan's industrial technology system as a tangible asset — <i>Chihiro Watanabe (New Energy &amp; Ind. Technol. Dev. Organ., Toshima-Ku, Tokyo, Japan)</i> .....	700
Technological, organizational and alliance strategies in the auto parts supplier industry — <i>Vernon P. Dorweiler and Manfred Tittel (Michigan Technol. Univ., Houghton, MI, USA)</i> .....	704
R&D-cooperation by small and medium sized companies — <i>Stefan Kuhlmann and Uwe Kuntze (Fraunhofer-Institut fuer Systemtechnik und Innovationsforschung, Karlsruhe, Germany)</i> .....	709
Technology management: An integrating function of general management — <i>Hugo P. Tschirky (Dept. of Ind. Eng. &amp; Manage., Swiss Federal Inst. of Technol., Zurich, Switzerland)</i> .....	713
Exploiting a conceptual representation to integrate business and technology strategies — <i>David H. Lee and Craig C. Johnson (Loral Command &amp; Control Syst., Colorado Springs, CO, USA)</i> .....	717
The link between business strategy and technology development — <i>David D. Hood (Northrop Electronics Syst. Div., Hawthorne, CA, USA)</i> .....	721
The strategic management process: A survey of consulting engineers — <i>Joseph F. Singer (Henry W. Bloch Sch. of Bus. &amp; Public Adm., Univ. of Missouri, Kansas City, MO, USA)</i> .....	727
Strategic planning considerations for cost effective implementation of underground electrical power delivery — <i>Edward L. Parkinson (Dept. of Ind. Eng. &amp; Manage. Syst., Univ. of Central Florida, Orlando, FL, USA)</i> .....	732
Consequences of centralized strategic decision making in high technology firms — <i>R. E. Jones and L. W. Jacobs (Univ. of Wyoming, Casper, WY, USA)</i> .....	737
An integrated technology management model — <i>G. A. Geistauts (Univ. of Alaska, Anchorage, AK, USA), E. R. Baker IV (Univ. of Alaska, Fairbanks, AK, USA) and T. G. Eschenbach (Univ. of Alaska, Anchorage, AK, USA)</i> .....	742

Strategic technology planning—Developing roadmaps for competitive advantage — <i>Alexander Nauda and David L. Hall (HRB Systems, State College, PA, USA)</i> .....	745
Managing technological change through strategic planning — <i>Joseph W. Lee (Inst. of Technol. Assessment, Alexandria, VA, USA)</i> .....	749
Transition/integration engineering: The program management tie between developer and user — <i>Joseph F. Kasper (Thayer Sch. of Eng., Dartmouth Coll., Hanover, NH, USA)</i> .....	755
The Entrepreneurial Pursuit of Technology program — <i>David H. Lee (Loral Command &amp; Control Syst., Colorado Springs, CO, USA)</i> .....	759
Product architectures and the impact of the legal constraints associated with acquired technologies — <i>Richard A. Brait (Northern Telecom Canada Ltd., Mississauga, Ont., Canada)</i> .....	763
Learning and linkages: The management of captive ASIC design and manufacturing capability — <i>John Callahan (Sch. of Bus. &amp; Fac. of Eng., Carleton Univ., Ottawa, Ont., Canada) and Peter Diedrich (Bell Northern Res. Ltd., Ottawa, Ont., Canada)</i> .....	768
Product design strategy in the global firm — <i>Karen Rajczi (Bell-Northern Res., Ottawa, Ont., Canada)</i> .....	772
Strategic alliances versus internal venturing: The impact upon firm performance — <i>Joseph E. McCann (Egon Zehnder Int., Atlanta, GA, USA)</i> .....	776
Management team politics and strategic alliances in biotechnology — <i>Ralph C. Hybels (Cornell Univ., Ithaca, NY, USA)</i> .....	776
The organizational framework for governance of the corporate R&D strategy — <i>Junichi Baba (Mitsubishi Electric Corp., Chiyoda-ku, Tokyo, Japan)</i> .....	777
Technological management at the macro-level — <i>Richard L. Brinkman (Dept. of Econ., Portland State Univ., OR, USA)</i> ..	777
A technological development model for strategy formation — <i>Harry Nystrom (Inst. for Econ., Uppsala, Sweden)</i> .....	778
Managing the social dimension of technology — <i>Terry Bristol (Inst. for Sci., Eng. &amp; Public Policy, Portland, OR, USA)</i> ..	778
Integration of economic information with design and manufacturing systems — <i>Aydan Kutay and Susan Finger (Robotics Inst., Carnegie Mellon Univ., Pittsburgh, PA, USA)</i> .....	779
Analyzing competitive effects of R&D — <i>Petteri Piippo and Markku Tuominen (Lappeenranta Univ. of Technol., Finland)</i> .....	779
Technology strategy: What is it and how should it be used? Some empirical evidence — <i>Ronald L. Schill (Bus. &amp; Eng. Manage., Brigham Young Univ., Provo, UT, USA) and David N. McArthur (Univ. of South Carolina, SC, USA)</i> ..	780
Strategy in a technology firm: A case study — <i>Gloria Barczak and Edward F. McDonough (Coll. of Bus. Adm., Northeastern Univ., Boston, MA, USA)</i> .....	780
Effective strategic management for technology-based firms: Context, management style, and incentives — <i>Daniel E. Sands (Sch. of Bus., Pennsylvania State, Erie, PA, USA)</i> .....	781
Management of high technology in China—Some problems of strategy and policy — <i>Li Guang Lin (Nat. Natural Sci. Found. of China, Beijing, China)</i> .....	781

## SECTION 8: International Issues

Target: Increased productivity exploratory Eastern European model — <i>Harris Jack Shapiro (Baruch Coll., City Univ. of New York, NY, USA)</i> .....	785
Eastern Europe: A commercial perspective of Western opportunities in Poland and Hungary — <i>William J. Burke (Power Technologies, Inc., Schenectady, NY, USA)</i> .....	787
Engineering management in Poland: Problems of systems change — <i>Zygmunt Rozwicz (Power Research &amp; Testing Co., Gliwice, Poland)</i> .....	789
Strategic sourcing of industrial technology: An empirical study among British managers — <i>Ronald L. Schill (Marriott Sch. of Manage., Brigham Young Univ., Provo, UT, USA), John Cheese (CEST, London, UK), and David N. McArthur (Univ. of South Carolina, SC, USA)</i> .....	794

Research and development management in a UK chemical firm: A case study — <i>Keith Nicolle-Evans and Rhys G. Williams (European Bus. Manage. Sch., Univ. of Wales, Swansea, UK)</i> .....	800
High tech competitiveness: Comparing 29 countries with a set of three indicators — <i>Alan L. Porter, J. David Roessner, and Huaidong Xu (Georgia Inst. of Technol., Atlanta, GA, USA)</i> .....	804
Differences in competitive strategies between the United States and Japan — <i>Helmut Hellwig (US Air Force Office of Sci. Res., Bolling AFB, Washington, DC, USA)</i> .....	808
Transfer of dual-use technology from Japan through reciprocal equity investments — <i>Dona T. Mularkey, Kazuhiko Kawamura (Vanderbilt Univ., Nashville, TN, USA), James E. Auer (Center for U.S.–Japan Studies &amp; Cooperation, Nashville, TN, USA), and Gerald Sullivan (Boulder, CO, USA)</i> .....	812
Managing the transfer of manufacturing technology for industrial development — <i>Saeed A. Al-ArAIMI and Yildirim Omurtag (Eng. Manage. Dept., Univ. of Missouri, Rolla, MO, USA)</i> .....	816
Management of engineering and technology in third world — <i>K. L. Chandrasekhar (Computer Centre Dept., MIT, India)</i> .....	820
Technology management for small and cottage industries in developing countries — <i>Mizanur Rahman (Bangladesh Small &amp; Cottage Ind. Corp., Dhaka, Bangladesh) and B. C. Srivastava (Int. Labour Organization, Sri Lanka)</i> ...	824
Development and implementation of a job evaluation system in Turkish industry — <i>M. Nahit Serarslan, Haluk Erku, and Ethem Tolga (Fac. of Manage. Eng., Istanbul Tech. Univ., Macka, Istanbul, Turkey)</i> .....	828
The practice of engineering management in Saudi Arabia — <i>Abdulaziz S. Alidi and Taqi N. Al-Faraj (King Fahd Univ. of Pet. &amp; Miner., Dhahran, Saudi Arabia)</i> .....	832
Integration of MRP and JIT and its applicability in Hong Kong's industries — <i>Johnny L. Poon (City Polytech. of Hong Kong, Hong Kong)</i> .....	836
Training engineers as managers—The Ethiopian experience — <i>John Whittaker (Dept. of Mech. Eng., Univ. of Alberta, Edmonton, Alta., Canada)</i> .....	840
Technological transfers to Eastern Europe — <i>Drucilla E. Bell (Swacker &amp; Associates, Clearwater, FL, USA)</i> .....	844
Private telecommunications systems in Poland and the Soviet Union — <i>Gregory J. Dunn (Rutter-Dunn Commun. Inc., Dublin, OH, USA)</i> .....	844
Moving to a free market economy: The approach implemented within the Krasnodar region, USSR — <i>Arnold Reisman (Dept. of Oper. Res., Case Western Reserve Univ., Cleveland, OH, USA)</i> .....	845
Problems of innovation management in Galician firms — <i>Manuel Ruiz-Gonzalez (Dept. of Manage., Univ. of Vigo, Spain)</i> .....	845
Technology management: A cross-cultural (national) comparison of high technology start-ups — <i>L. N. Goslin (Portland State Univ., OR, USA), J. Doutriaux (Univ. of Ottawa, Ont., Canada), and F. M. Sisavic (Portland State Univ., OR, USA)</i> .....	846
Cultural context for capitalism in the Pacific Rim — <i>Kris K. Murthy (Oakland, CA, USA)</i> .....	846
Research about the method of multiobjective evaluation for import technology and equipment — <i>Zheng Bingnan (Dept. of Manage. Eng., South China Univ. of Technol., Guangzhou, China)</i> .....	847
Impact of economic structure adjustment on technology management and strategy in China's coastal area — <i>Bao Xiaoxing (Zhejiang, China)</i> .....	847
Engineering and technology management in developing countries — <i>Satria Darsa (Ind. Coll., Bandung, Indonesia)</i> ...	848
Reasons behind the technological gap between advanced and developing countries—Case study — <i>Stanley N. Ihekweazu (South Carolina State Coll., Orangeburg, SC, USA)</i> .....	848

## SECTION 9: Panel Discussions

R&D synergy for innovation — <i>Yasutsugu Takeda and Yutaka Kuwahara, Moderators (Hitachi, Ltd., Japan)</i> .....	851
The technology management initiative at the National Science Foundation — <i>Louis A. Martin-Vega and Frederick W. Betz, Moderators (National Science Foundation, USA)</i> .....	851

European technology collaborations — <i>Ronald L. Schill, Moderator (Brigham Young Univ., Provo, UT, USA)</i> .....	852
Managing reliability engineering for electronic industries — <i>Pah Chen, Moderator (Portland State Univ., OR, USA)</i> ..	852
Management of automation — <i>William S. Ward, Moderator (Management Engineering Associates, USA)</i> .....	853
Issues on the localization of introduced technology — <i>Guo Yi, Moderator (East China Univ. of Chemical Technol., China)</i> .....	853
Intellectual property protection for technology — <i>David Fanning, Moderator (Kolisch, Hartwell, Dickinson, McCormack &amp; Heuser, USA)</i> .....	854
IEEE video conference on quality management approaches to the Malcolm Baldrige Award — <i>Charles R. Rubenstein, Moderator (Pratt Inst., New York, NY, USA)</i> .....	854
<hr/>
