

## CONTENTS

Opening Addresses	ix
<b>Part A Weak Decays</b>	
Physics from Nonleptonic Charm Decays <i>L.-L. Chau</i>	2
Electroweak Interactions and Chiral Symmetry <i>B. R. Holstein</i>	18
Nonmesonic Decays of Hypernuclei <i>B. R. Holstein</i>	35
Strong Interaction Effects in Weak Decays <i>T. Huang</i>	45
SU(6), Baryonic Decays of B-Mesons and CP <i>D.-D. Wu</i>	79
$D_s \rightarrow f_0(975)\pi$ Decay and the Puzzle of $O^{**}$ Mesons <i>C.-H. Chang, X.-Q. Li and J.-X. Wang</i>	97
The Universality of Leptonic Sector and Heavy Neutral Lepton(s) <i>C.-H. Chang, X.-Q. Li and Z.-J. Tao</i>	103
Decay Constants $f_D$ and $f_B$ in a Relativistic Quark Model <i>K.-T. Chao and J.-H. Liu</i>	109
Bounds on $f_B$ from QCD Sum Rules <i>K.-T. Chao and J.-H. Liu</i>	118
The Operator Expansion Method for Calculating the Double Beta-Decay and the Relation Between the $2\nu - 2\beta$ Decay and the Pion-Induced Double Charge Exchange Reaction <i>C.-R. Ching, T.-H. Ho, X.-R. Wu and B.-S. Zou</i>	129
Two-Higgs-Doublet Model and Splittings of $t\bar{t}$ P-States <i>Y.-B. Ding, D.-H. Qin and K.-T. Chao</i>	139

Comments on Two Higgs Multiplets Model <i>C.-S. Gao and Y.-N. Gao</i>	145
Lattice Calculations of Weak Matrix Elements: Current Status and Future Prospects <i>X.-Q. Luo and S.-H. Guo</i>	156
A BES Proposal, Searching for $D^0-\bar{D}^0$ Mixing <i>R.-S. Xu</i>	163
Nonperturbative Effects on the Wilson Coefficients and the $\Delta I = 1/2$ Rule <i>Z.-Q. Zhang</i>	166

### Part B CP Violation

Decay-Amplitude CP Noninvariance: A Charm Possibility <i>L.-L. Chau</i>	174
CP & T Noninvariance <i>P. K. Kabir</i>	185
CP Violation in the B System <i>R. D. Peccei</i>	198
Renormalization Group Analysis of CP Nonconservation Measures <i>C.-H. Jin</i>	220
Too Many Functions of the $\epsilon$ Parameter <i>D.-D. Wu</i>	225

### Part C Related Problems

Effective Action for Local Composite Operators and Dynamical Symmetry Breaking <i>H.-J. He, Y.-P. Kuang, Q. Wang and Y.-P. Yi</i>	230
Bosonic Condensates in Perturbation Theory and Beyond <i>V. I. Zakharov</i>	253
Two-Loop Chiral Anomaly as Infrared Phenomenon <i>V. I. Zakharov</i>	265

<b>Status and Physics Program of BEPC and BES</b>	277
<i>Z. -P. Zheng</i>	
<b>Derivation of Low Energy Effective Action for Mesons from QCD</b>	301
<i>Q. Wang and Y. -P. Kuang</i>	
<b>New Skyrmions and Possible Interpretation</b>	318
<i>T. -Z. Li</i>	
<b>Summary of the Beijing Workshop on Weak Interactions and CP Violation</b>	322
<i>R. D. Peccei</i>	
<b>List of Participants</b>	343
