

CONTENTS

- . *Preface*
- . *Program Committee*

SUBMITTED ARTICLES

LIBRARY AND REUSE

- . *Classification of Object-Oriented Components for Reuse* 21
E.A. Karlsson, S. Sorumgard, E. Tryggeseth (NTH) Norway
- . *Experiences from System Integration through an OO Software Bus* 33
A-J. Berre (SI Oslo) Norway
- . *Qualifying C++-Foundation Classes for Use in Industrial Applications* 47
U. Steinmüller (Siemens Nixdorf) Germany

SPECIFICATION LANGUAGES

- . *VDM++, A Formal Specification Language for OO Designs* 63
E. Dürr (Utrecht U. & Cap Gemini), J. Van Katwijk (Delft U.) The Netherlands
- . *C/O: A Tool Reusing OO Design for Temporal Constraints Satisfaction Problems* 79
L. Cervoni (Rouen U. & ITMI Paris), F. Rousseaux (Paris VI U. & Syseca) France
- . *Distribution: Another Milestone of Application Management Issues* 87
Ch. Zeidler, W. Gerteis (Karlsruhe U.) Germany

MODELING

- . *EROOS: An Entity-Relationship Based OO Specification Method* 103
S. Van Baelen, J. Lewi, E. Steegmans, H. Van Riel (K.U. Leuven) Belgium
- . *OO Materials Engineering Information Modelling and Management* 119
J. Zucker, A. Demaid, S. Ogden (The Open University) UK
- . *Tools and Materials: an Analysis and Design Metaphor* 135
R. Budde, M.L. Christ-Neumann, K.H. Sylla, H. Züllighoven (GMD St. Augustin) Germany

OPERATIONAL RESEARCH AND ENGINEERING

- . *Developing Re-Usable Software for Scheduling Applications: a Report of Experiences with OO Technology* 149
A. Stevens, F. Boonstra (Cap Gemini Innovation) The Netherlands
- . *A Generic Object Model for Engineering Design* 157
T.G. Syvertsen (NTH), F. Lillehagen (Metis A.S), M. Lovstad (Veritas) Norway
- . *Industrial Application of OO Mathematical Modeling and Computer Algebra in Mechanical Analysis* 167
P. Fritzson, L. Viklund, J. Herber (Linköping U.) Sweden & D. Fritzson (SKF) The Netherlands

CONCURRENCY

- *The OO Paradigm for Contingency-Based Development of Information Systems* 185
C.M Jones, B.M Brown (Wales U.) United Kingdom
- *Designing Fault-Tolerant Objects in Object-Oriented Programming* 199
A.B Romanovsky, I.V Shturtz (St. Petersburg U.) and V.R. Vassilyev
(Driver-Inter, St. Petersburg) USSR
- *Active Objects on Parallel Machines: a Case Study* 207
R. Capobianchi, R. Guerraoui, A. Lanusse, P. Roux (CE Saclay) France

LIBRARIES FOR SPECIAL APPLICATIONS

- *An Object-Oriented Framework for Multimedia and Multiterminal Videotex Applications* 219
F. Dupuy, S. Desnoyer (CNET Lannion) France
- *An Eiffel Class Library for Ship Design* 233
TW Camduff, W.A Gray (Wales U.) United Kingdom
- *Write-ing Applications: Design of an Extensible Text Editor as an Application Framework* 247
C.A Szyperski (ETH Zurich) Switzerland

PROGRAMMING LANGUAGES

- *A Runtime Type Information System for C++* 265
F. Buschmann, K. Kieffer, M. Stal (Siemens AG) Germany
- *Intercepting Fetch and Store Operations in C++* 275
D. McCue (Newcastle U.) United Kingdom
- *Part Objects and their Location* 283
O.L Madsen (Aarhus U.), Denmark, B.Moller-Pedersen (Norwegian Computing Center)

USER INTERFACE

- *Support for Open Tools and Systems* 301
L. Carriço, P. Antunes, N. Guimaraes, P. Pereira, M. Moreno (IST/INESC Lisboa) Portugal
- *Application of the Object Paradigm in Satellite Checkout and Payload Operations* 311
P. Assis-Arantes, E. Bernard, G. Leonis, T. Racaud, J. Reynolds, R. Smilie
(Spacebel) Belgium & N. Carn (Aramihs) France
- *Hierarchic Views - a Construction Set for Complex Graphical User Interfaces* 325
R. Breuning, W. Ameling (Rogowski-Institut Aachen) Germany

TELECOMMUNICATION APPLICATIONS

- *An Eiffel Program for Static Network Resource Allocation* 335
P. Johnson (GEC Marconi) UK
- *Tool for Object Oriented Formal Specification Technique* 349
G. Nilsson, P. Blysa (Telelogic Malmö AB) Sweden
- *OO Methods and Tools for Embedded Applications, The Mjolner BETA System* 359
L. Bak (Mjolner Informatics Aps) Denmark and J. Norgaard (Nokia Telecom) Finland

ARTIFICIAL INTELLIGENCE

- *On-line Geometry Recognition Using C++, an Object-Oriented Approach* 371
R. Zhao (Paderborn U. & Siemens Nixdorf) Germany
- *Representation of a Medical Expertise using the Smalltalk Environment: Putting a Prototype to Work* 379
M. Dojat (Inserm), F. Pachet (Paris VI U.) France
- *An Experimental Translation from Flavors to CLOS* 391
J. Boukachour, T. Galinho, M. Itmi, J.P. Pécuchet (Rouen U.) France

TUTORIALS

ANALYSIS AND SPECIFICATION TRACK

- . *Object-Oriented Specification Techniques* 403
Kevin Lano, Lloyd's Register of Shipping (United Kingdom)
- . *Object-Oriented Analysis and Design* 405
Jean-Marc Nerson, SOL (France)
- . *Object Behavior Analysis* 407
Kenneth S. Rubin, ParcPlace Systems (USA)

APPLICATIONS TRACK

- . *Object-Oriented Simulation* 411
Jean Bézivin, Université de Nantes (France)
- . *Object Oriented Operations Research* 413
Matthias Bücker, Ciba Geigy AG (Switzerland)
- . *Object-Oriented Database Management Systems* 415
Roberto Zicari, J.W. Goethe Universität (Germany)

CONCEPTS TRACK

- . *Concurrency* 419
Pierre America, Philips Research Labs. (The Netherlands)
- . *Manufacturing Real-Time Software with OOPS* 421
Brian M. Barry, Object Technology International Inc. (Canada)
- . *Rule-Based Object-Oriented Programming* 423
Jean-François Perrot, Laforia, Paris VI U. (France)

LANGUAGES TRACK

- . *Overview of Object-Oriented Programming Languages* 427
Raimund K. Ege, Florida Int. (USA)
- . *C++* 429
Philip Hucklesby, Consultant (Germany)
- . *Intermediate Eiffel* 431
Paul Johnson, GEC-Marconi (United Kingdom)
- . *Programming in Beta* 433
Ole-Lehrmann Madsen, Aarhus U. (Denmark)
- . *The Oberon System* 435
Hanspeter Mössenböck, ETH Zürich (Switzerland)
- . *Intermediate Smalltalk, Practical Design and Implementation* 437
Trygve Reenskaug, Taskon A/S (Norway)

MANAGEMENT TRACK

- . *The Economics of Software Reuse* 441
Brad Cox, Information Age Consulting (USA)
- . *Object-Oriented Technology for Managers* 443
Jeff McKenna, McKenna Consulting Group (USA)
