INTEGRATION AND CO-ORDINATION OF SUBSTATION SYSTEMS

- 1 'Integration and co-ordination of power system control and protection'**
L L Lai
City University, UK
A T Johns
Bath University, UK
- 7 'Numerical control in HV/MV sub-stations - EDF considerations'**
O Grob and A M Germain
Electricité de France,
France
- 10 'Integrated substation control and protection - a co-ordinated protection approach'**
G H Topham
Eskom
Republic of South Africa
- 16 'Integrated substation measurement, data acquisition and communications'**
M Adams and L Woolner
Schlumberger Industries Electricity Management, UK

APPLICATIONS OF MICROPROCESSORS IN SUBSTATIONS

- 22 'Implementation of a low cost rural telecontrol and monitoring system'**
P V F Beardow and J A Barber
7E Communications Ltd, UK
J E Tame
SEEboard plc, UK
- 28 'Microprocessors in substation control'**
A S Bashford, M M Baum, J H French and S R Lamb
The National Grid Company, UK
- 34 'Extending SCADA systems to provide cost-effective distribution switchgear condition monitoring'**
P F Gale
Circuits and Systems Design Ltd, UK
G O Hensman,
Yorkshire Electricity Group plc, UK
- 38 'Calculational fault location for electrical distribution networks'**
M I Lehtonen
Technical Research Centre of Finland, Finland
S P Pettissalo
ABB Strömberg Power Co, Finland
J H Etula
Espoo Electricity Works Co, Finland

ALARM HANDLING EMERGENCIES

- 44** **'MORGAT: A tool for electric transient simulation. An application to the restoration of a power system after a major failure'**
E Mondon, P Erhard, J N Marquet, J C Grand and L Pierrat
Electricité de France, France
- 50** **'Development of optimal emergency control strategies for Abu Dhabi power system'**
M H El-Banhawy and D M K Al-Gobaisi
Water and Electricity Department, U.A.E.
- 56** **'A new alarm processing for the forthcoming national control system of Electricité de France'**
E Euxibie, P Jourdin, P Audousset and F Audrain
Electricité de France, France
- 62** **'Long term simulation of the Israel power system dynamic response. A case study'**
Y Malachi and D Kottick
Israel Electric Corp. Ltd, Israel
M Winokur
Israel Aircraft Industries, Israel

DISTRIBUTION CONTROL AND OPERATION

- 68** **'A fully integrated computer-based system for distribution control room operations'**
S G Hales
Eastern Electricity plc, UK
C I Johnston
SD-Scicon UK Ltd, UK
- 74** **Innovative aspects of ESB's distribution SCADA scheme'**
C Fitzgerald and P O'Doherty
Electricity Supply Board, Republic of Ireland
- 80** **'Distribution management system - implementation of an integrated approach'**
P J A Snowden
Southern Electric plc, UK
W D Wilson
Westinghouse Systems Ltd, UK
- 86** **'Specification of high resolution graphics man/machine interface for British Rail's electric traction power supply network SCADA systems'**
R G Fincham
British Railways Board, UK
- 92** **'Distribution control centers - extending system operational capabilities'**
J H McCaully and J E D Northcote-Green
ASEA Brown Boveri - Advanced Systems Technology, USA
- 98** **'Standard master for regional telecontrol (SMART) for distribution networks'**
M J Berelowitz
Eskom, Republic of South Africa
- 103** **'Distribution management systems'**
J W Townsend
London Electricity plc, UK
P W Cox
CEGELEC PIC Ltd, UK

Contents

Page No.

SIMULATORS AND TRAINING

- 109** **'Dynamic power system simulation for real time dispatcher training'**
F Wang and G Janka
Siemens AG Austria, Austria
G Schellstede
Siemens AG Germany, Federal Republic of Germany
- 115** **'Interactive power restoration simulator using a microcomputer'**
Cheng-Yu Teo and Tai Wai Chan
Nanyang Technological Institute, Singapore
- 118** **'System design aspects of an advanced dispatcher training simulator'**
B Barazesh and R Navarro-Perez
Westinghouse Systems Ltd, UK
- 122** **'Real time simulation of power system transient behaviour'**
T Berry, A R Daniels and R W Dunn
University of Bath, UK

VOLTAGE/REACTIVE CONTROL

- 128** **'Automatic control of voltage instability by an expert system utilising pattern recognition techniques'**
C S Chang
Hong Kong Polytechnic, Hong Kong
D Sutanto and W Lachs
University of New South Wales, Australia
- 134** **'On line algorithms for the avoidance of voltage collapse: reactive power management and voltage collapse margin assessment'**
N T Hawkins and G Shackshaft
The National Grid Company, UK
M J Short
Imperial College of Science, Technology and Medicine, UK
- 140** **'Integration of the optimal power flow into generation control and dispatch'**
R Eichler
Siemens AG Germany, Federal Republic of Germany
H Hafner and G Schwarz
Siemens AG Austria, Austria
- 146** **'A fuzzy logic based self-tuned power system stabilizer'**
M A M Hassan, O P Malik and G S Hope
University of Calgary, Canada

SECURITY ASSESSMENT/AGC

- 152** **'A review of automatic contingency selection algorithms for on-line security analysis'**
A O Ekwue
National Grid Research and Development Centre, UK
- 156** **'Secure automatic generation control. Principle, simulation models and results'**
J L Carpentier, A Candre, R C Girard, B A Heilbronn, L P Loevenbruck, G J Nerin
and P J Pruvot
Electricité de France, France

Contents

Page No.

162 **'Implementation of an AGC-Algorithm in different power systems and on different control levels'**
E Jaggy and A P Longley
ABB Network Control Ltd, Switzerland

168 **'Implementation of state estimator and security assessor software on the Scottish Hydro-Electric 275kV system'**
K L Lo and D S McMillan
University of Strathclyde, UK
A M Moffatt and J Murdoch
Scottish Hydro-Electric plc, UK

174 **'Fuzzy coordination of economy, security and quality in power system generation control'**
T Maekawa, K Yasuda, R Yokoyama
Tokyo Metropolitan University, Japan
H Ohtsuki and Y Mizukami
Kansai Electric Power Co, Inc. Japan

ENERGY MANAGEMENT SYSTEMS

180 **'Planning installation and operation of a hydro-generation control centre'**
E G Davidson, H R Joyce and R McGahie
Scottish Hydro-Electric plc, UK

186 **'An advanced system for energy management in Helsinki'**
B Nilsson
ABB Network Control, Sweden
K Lindholm
ABB Strömberg, Finland
K Autio and B Jokinen
Helsinki Energy Board, Finland

192 **'The design and implementation of Ontario Hydro's new energy management system'**
I G Pugh
Ontario Hydro, Canada

198 **'Upgrading Ireland's National Control Centre'**
M Power
Electricity Supply Board, Republic of Ireland
G Schaffer
Landis and Gyr, Switzerland

204 **'A new centre for national control - an evolutionary transition'**
R G Smith, B F Carr, W M Tabner and B W Vaughan
National Grid plc, UK

POSTER PAPERS

210 **'An advanced package for management of distribution system operations'**
B Barazesh and K N Mistry
Westinghouse Systems Ltd, UK

213 **'Some unusual application functions'**
R G Bruce and G D Clarke
Merz and McLellan, UK

Contents

Page No.

- 216 **'An expert system approach for "auscultation" of distribution systems'**
P Fauquembergue, O Taché, J M Parant, J Saint-Pé and D Griffel
Electricité de France, France
- 219 **'The evolution of distribution network management systems'**
S Gallagher
Graphic Information Systems Ltd, UK
- 222 **'Potential advantages of a diagnostic expert system for assisting operator response to system events'**
G M Burt and J R McDonald
University of Strathclyde, UK
- 225 **'Visual aids for substation monitoring and security control'**
E Murtoviita, J Keronen, J Suni and M Björk
Imatran Voima Oy, Finland
- 228 **'Distributed design for energy management systems'**
E Wolters
Siemens AG
Federal Republic of Germany
- 231 **'A standards based energy management system architecture providing open connectivity, open ended expansion, and incremental upgradability'**
D D Might and J T Eisenhauer
Harris Corporation, USA
- 234 **'Inter-substation data communications for the revitalising of network protection and control'**
M A Redfern, R F Ormondroyd, Z Bo, P McGuinness and H Skinner
University of Bath, UK
- 237 **'A real time expert system for fault diagnosis on a transmission network'**
D G Esp and E T Cahill
National Grid Research and Development Centre, UK
- 241 **'Dispatch of spinning reserve'**
F McNamara and R M Dunnett
National Grid Research and Development Centre, UK
- 244 **'A method to monitor transient security in optimal power dispatch'**
T S Chung and C S Chang
Hong Kong Polytechnic, Hong Kong
K L Lo
University of Strathclyde, UK
- 247 **'Requirements for a load forecasting system in the privatised supply industry'**
M Irving
Brunel University, UK
R Thurlby
ICL (UK) Ltd, UK
