

Table of Contents

Redesigning Lattice QCD	
G. Peter Lepage	1
High-Energy Collisions and Nonperturbative QCD	
Otto Nachtmann	49
Perturbation Theory in a Nonperturbative QCD Background	
Yuri A. Simonov	139
Factorization and Resummation	
George Sterman	209
The Use of Computer Algebra in QCD	
Jos Vermaseren	255
The Analytical Value of the 6th-Order Electron ($g-2$) in QED	
Ettore Remiddi	299
Effective Field Theories	
Aneesh V. Manohar	311
Baryon Structure and the Chiral Symmetry of QCD	
Leonid Ya. Glozman	363
Effective Theory for Heavy Quarks	
Thomas Mannel	387
List of Seminars	
(given by participants of the school)	429
