

# CONTENTS

<b>Foreword</b> .....	ix
-----------------------	----

## **1. SPACE AND TIME SCALES**

Space and Time Scales during the Development of Microstructures in the Solide State by Bréchet Y. J. M. and Kubin L. P.....	3
Balance and Flow Laws at Different Scales by Goryachev S. B.....	17
Length and Time Scales in Materials Science: Interfacial Pattern Formation by Müller-Krumbhaar H.....	43

## **2. SIMULATION TECHNIQUES AT DIFFERENT SCALES**

Atomistic Simulations by Hardouin Duparc O. B. M.....	63
Cellular Automata and Mesoscale Simulations by Mareschal M. and Lemarchand A.....	85
Meso-Macro Modelling using the Finite Element Method by Kruch S.....	103
Parallelism: Overview of an Evolution by Brochard L., Hess O., Thomas F., Fevre P.P. and Delbourgo D. E...	113

## **3. MODELLING AND APPLICATIONS: ATOMIC SCALE**

The Microscopic World of Atomic Diffusion: Dynamical Simulations as a Tool to probe the Temporal Evolution of Complex Systems by Massobrio C. ....	131
Structure and Morphology of Solid Surfaces by Salanon B., Barbier L. and Hecquet P.....	149
Simulation of Interfaces at the Atomic Scale by Sutton A. P. ....	163

Defect Production in Irradiated Metals: Insight from Computer Simulation by Bacon D J.....	189
A Parallel Molecular Dynamics Investigation of Fracture by Abraham F. F.....	211
Atomistic Modeling of Failure Mechanisms by Gumbsch P.....	227

#### 4. MODELLING AND APPLICATIONS: MESOSCOPIC SCALE

Application of Cellular Automata in Materials Science by Lépinoux J.....	247
A Lattice-Gas Model for a Reaction-Diffusion System by Lemarchand A. and Mareschal M.....	259
Dislocation Patterns by Kubin L. P.....	273
Dislocations and the Meso-Macro Connection by Kratochvil J.....	291
Meso-Scale Simulation of the Dislocation Dynamics by Devincere B.....	309
Modeling of Dynamical Evolution of Micro/Mesosopic Morphological Patterns in Coherent Phase Transformations by Wang Yunzhi, Chen L. Q. and Khatchaturyan A. G.....	325
Mesosopic Simulations of Recrystallization by Holm E. A., Rollett A. D. and Srolovitz D. J.....	373
Simulation of TEM Dislocation Contrasts by Douin J.....	391

#### 5. MODELLING AND APPLICATIONS: MACROSCOPIC SCALE

Modelling the Brittle to Ductile Transition in Single Crystals by Roberts S. G.....	409
Trends for Numerical Modellings in Stress Corrosion Cracking and Corrosion Fatigue Damage by Magnin T.....	435
Micro-Macro Modeling by Canova G. R. and Lebensohn R.....	449

The Meso-Macro Connection in Polycrystals by Teodosiu C. ....	483
Meso-Macro Connection based on Morphological Analysis: Foundations, Merits and Drawbacks by Zaoui A. ....	517
The Analysis of Localized Plastic Flow by Needleman A. ....	537
Modelling of Manufacturing Processes: A Material Science Perspective by Marchese M. ....	563
<b>List of Participants</b> .....	<b>587</b>
<b>Author Index</b> .....	<b>599</b>
<b>Subject Index</b> .....	<b>601</b>
