About the book xxiii

1 Anatomy and imaging

What is anatomy? 2
How can gross anatomy be studied? 2
Important anatomical terms 2
 The anatomical position 2
 Anatomical planes 4
 Terms to describe location 4
Imaging 5
Diagnostic imaging techniques 5
Plain radiography 5
Ultrasound 6
 Doppler ultrasound 6
Computed tomography 7
Magnetic resonance imaging 8
Nuclear medicine imaging 8
Positron emission tomography 9
Image interpretation 9
Plain radiography 9
 Chest radiograph 9
 Abdominal radiograph 9
 Gastrointestinal contrast examinations 10
 Urological contrast studies 10
Computed tomography 10
Magnetic resonance imaging 10
Nuclear medicine imaging 10
Safety in imaging 11

2 Back

Conceptual overview 14
General description 14
Functions 15
 Support 15
 Movement 15
 Protection of the central and peripheral nervous systems 16
Component parts 17
 Bones 17
 A typical vertebra 17
 Muscles 18
 Vertebral canal 20
 Spinal nerves 21
 Dermatomes and myotomes 21
Relationship to other regions 22
 Head 22
 Thorax, abdomen, and pelvis 22
 Limbs 22
Key features 24
 Long vertebral column and short spinal cord 24
 Intervertebral foramina and spinal nerves 24
 Innervation of the back 24
Regional anatomy 26
Skeletal framework 26
 Vertebrae 26
 Typical vertebra 27
 Cervical vertebrae 31
 Thoracic vertebrae 33
 Lumbar vertebrae 33
 Sacrum 33
 Coccyx 34
 Intervertebral foramina 34
 Posterior spaces between vertebral arches 34
Joints 38
 Synovial joints 38
 Descriptions of synovial joints based on shape and movement 39

Contents

Solid joints	39
Joints between vertebrae in the back	41
Symphyses between vertebral bodies (intervertebral discs)	41
Joints between vertebral arches (zygapophysial joints)	
Ligaments	43
Anterior and posterior longitudinal ligaments	44
Ligamenta flava	44
Supraspinous ligament and ligamentum nuchae	45
Interspinous ligaments	45
Back musculature	47
Superficial group of back muscles	47
Trapezius	50
Latissimus dorsi	51
Levator scapulae	51
Rhomboid minor and rhomboid major	52
Intermediate group of back muscles	53
Deep group of back muscles	54
Thoracolumbar fascia	55
Spinotransversales muscles	55
Erector spinae muscles	56
Transversospinales muscles	58
Segmental muscles	60
Suboccipital muscles	60
Introduction to the nervous system	62
Central nervous system	62
Brain	62
Spinal cord	62
Arrangement of structures in the vertebral canal	68
Peripheral nervous system	69
Spinal nerves	69
Nomenclature of spinal nerves	70
Functional subdivisions of the CNS	72
Somatic part of the nervous system	72
Dermatomes	75
Myotomes	76
Visceral part of the nervous system	76
Sympathetic system	78
Parasympathetic system	84
Visceral sensory innervation (visceral afferents)	85
The enteric system	85
Nerve plexuses	87
Somatic plexuses	87
Visceral plexuses	88
Referred pain	88
Surface anatomy	89
Back surface anatomy	89
Absence of lateral curvatures	89

Primary and secondary curvatures in the sagittal plane	89
Useful nonvertebral skeletal landmarks	89
How to identify specific vertebral spinous processes	91
Visualizing the inferior ends of the spinal cord and subarachnoid space	92
Identifying major muscles	93

Clinical cases 95

10 short questions 98

3 Thorax

Conceptual overview 102

General description 102

Functions 103

Breathing	103
Protection of vital organs	103
Conduit	103

Component parts 103

Thoracic wall	103
Superior thoracic aperture	104
Inferior thoracic aperture	104
Diaphragm	105
Mediastinum	106
Pleural cavities	106

Relationship to other regions 107

Neck	107
Upper limb	108
Abdomen	108
Breast	108

Key features 108

Vertebral level TIV/V	108
Venous shunts from left to right	110
Segmental neurovascular supply of thoracic wall	110
Sympathetic system	112
Flexible wall and inferior thoracic aperture	112
Innervation of the diaphragm	112

Regional anatomy 115

Pectoral region 115

Breast	115
Arterial supply	115
Venous drainage	115

Innervation	115	Right and left brachiocephalic veins	183
Lymphatic drainage	116	Left superior intercostal vein	184
Breast in men	116	Superior vena cava	184
Muscles of the pectoral region	117	Arch of aorta and its branches	186
Pectoralis major	117	Ligamentum arteriosum	187
Subclavius and pectoralis minor	117	Trachea and esophagus	188
Thoracic wall	118	Nerves of the superior mediastinum	188
Skeletal framework	119	Thoracic duct in the superior mediastinum	190
Thoracic vertebrae	119	Posterior mediastinum	192
Ribs	120	Esophagus	192
Sternum	122	Thoracic aorta	194
Joints	123	Azygos system of veins	194
Intercostal spaces	125	Thoracic duct in the posterior mediastinum	196
Muscles	127	Sympathetic trunks	197
Arterial supply	129	Anterior mediastinum	199
Venous drainage	131	Surface anatomy	200
Lymphatic drainage	132	Thorax surface anatomy	200
Innervation	132	How to count ribs	200
Diaphragm	134	Surface anatomy of the breast in women	201
Arterial supply	135	Visualizing structures at the TIV/V vertebral level	202
Venous drainage	135	Visualizing structures in the superior	
Innervation	135	mediastinum	203
Movements of the thoracic wall		Visualizing the margins of the heart	203
and diaphragm during breathing	135	Where to listen for heart sounds	204
Pleural cavities	136	Visualizing the pleural cavities and lungs, pleural	
Pleura	136	recesses, and lung lobes and fissures	204
Parietal pleura	137	Where to listen for lung sounds	205
Visceral pleura	138	Clinical cases	209
Pleural recesses	139	10 short questions	216
Lungs	140		
Root and hilum	140		
Right lung	140		
Left lung	143		
Bronchial tree	145		
Bronchopulmonary segments	146		
Pulmonary arteries	146		
Pulmonary veins	146		
Bronchial arteries and veins	146		
Innervation	149		
Lymphatic drainage	149		
Mediastinum	153		
Middle mediastinum	154		
Pericardium	154		
Heart	157		
Pulmonary trunk	180		
Ascending aorta	181		
Other vasculature	181		
Superior mediastinum	181		
Thymus	183		

4 Abdomen

Conceptual overview	220
General description	220
Functions	221
Houses and protects major viscera	221
Breathing	223
Changes in intra-abdominal pressure	223
Component parts	224
Wall	224
Abdominal cavity	225
Inferior thoracic aperture	227
Diaphragm	227
Pelvic inlet	228

Contents

Relationship to other regions 228

- Thorax 228
- Pelvis 228
- Lower limb 229

Key features 230

- Arrangement of abdominal viscera in the adult 230
 - Development of the foregut 230
 - Development of the midgut 233
 - Development of the hindgut 233
- Skin and muscles of the anterior and lateral abdominal wall and thoracic intercostal nerves 233
- The groin is a weak area in the anterior abdominal wall 234
- Vertebral level LI 236
- The gastrointestinal system and its derivatives are supplied by three major arteries 236
- Venous shunts from left to right 238
- All venous drainage from the gastrointestinal system passes through the liver 239
 - Portacaval anastomoses 240
 - Blockage of the hepatic portal vein or vascular channels in the liver 240
- Abdominal viscera are supplied by a large prevertebral plexus 240

Regional anatomy 242

Surface topography 242

- Four-quadrant pattern 242
- Nine-region organizational pattern 243

Abdominal wall 244

- Superficial fascia 244
 - Superficial layer 244
 - Deeper layer 245
- Anterolateral muscles 246
 - Flat muscles 246
 - Transversalis fascia 249
 - Vertical muscles 250

Extraperitoneal fascia 252

Peritoneum 252

Innervation 253

- Arterial supply and venous drainage 254
- Lymphatic drainage 256

Groin 256

- Inguinal canal 258
 - Deep inguinal ring 258
 - Superficial inguinal ring 258
 - Anterior wall 259
 - Posterior wall 259

Roof 260

Floor 260

Contents 260

Inguinal hernias 262

Abdominal viscera 266

- Peritoneum and the peritoneal cavity 266
 - Omenta, mesenteries, and ligaments 269

Organs 272

- Abdominal esophagus 272
- Stomach 272
- Small intestine 273
- Large intestine 279
- Liver 285
- Gallbladder 287
- Pancreas 288
- Duct system for bile 290
- Spleen 291

Arterial supply 293

- Anterior branches of the abdominal aorta 293

Venous drainage 303

- Portal vein 303

Lymphatics 307

Innervation 307

- Sympathetic trunks 308
- Splanchnic nerves 308
- Abdominal prevertebral plexus and ganglia 310
- Parasympathetic innervation 311
- Enteric system 311
- Sympathetic innervation of the stomach 311

Posterior abdominal region 314

Posterior abdominal wall 315

- Bones 315
- Muscles 315

Viscera 320

- Kidneys 320
- Ureters 324
- Suprarenal glands 327

Vasculature 328

- Abdominal aorta 328
- Inferior vena cava 331

Lymphatic system 333

- Lymphatic vessels 333
- Lymph nodes 334
- Lymphatic trunks and ducts 334
- Pre-aortic nodes 335

Nervous system in the posterior abdominal region 336

- Sympathetic trunks and splanchnic nerves 336
- Abdominal prevertebral plexus and ganglia 336
- Lumbar plexus 340

Surface anatomy 344

- Abdomen surface anatomy 344
- Defining the surface projection of the abdomen 345
- How to find the superficial inguinal ring 346
- How to determine lumbar vertebral levels 347
- Visualizing structures at the L1 vertebral level 348
- Visualizing the position of major blood vessels 349
- Using abdominal quadrants to locate major viscera 350
- Defining surface regions to which pain from the gut is referred 351
- Where to find the kidneys 352
- Where to find the spleen 352

Clinical cases 353

10 short questions 361

5 Pelvis and perineum

Conceptual overview 364

General description 364

Functions 364

- Contain and support bladder, rectum, anal canal, and reproductive tracts 364
- Anchors the roots of the external genitalia 364

Component parts 366

- Pelvic inlet 366
- Pelvic walls 367
- Pelvic outlet 367
- Pelvic floor 369
- Pelvic cavity 369
- Perineum 372

Relationship to other regions 372

- Abdomen 372
- Lower limb 372

Key features 373

- The pelvic cavity projects posteriorly 373
- Important structures cross the ureters in the pelvic cavity 373
- The prostate is anterior to rectum 373
- The perineum is innervated by sacral spinal cord segments 375
- Nerves are related to bone 375
- Parasympathetic nerve from spinal cord levels S2 to S4 control erection 376
- Muscles and fascia of the pelvic floor and perineum intersect at the perineal body 377
- Gender determines the course of the urethra 378

Regional anatomy 379

- Bones** 379
 - Pelvic bone 379
 - Sacrum 383
 - Coccyx 384
- Joints** 384
 - Lumbosacral joints 384
 - Sacro-iliac joints 384
 - Pubic symphysis joint 385
- Orientation** 386
- Gender differences** 386
- True pelvis** 387
 - Pelvic inlet 387
 - Pelvic wall 387
 - Pelvic outlet 390
 - Pelvic floor 391
 - Perineal body 396
- Viscera** 397
 - Gastrointestinal system 397
 - Urinary system 397
 - Reproductive system 406
- Fascia** 416
 - In women 416
 - In men 416
- Peritoneum** 416
 - In women 417
 - In men 419
- Nerves** 420
 - Somatic plexuses 420
 - Visceral plexuses 425
- Blood vessels** 428
 - Arteries 428
 - Veins 431
- Lymphatics** 432
- Perineum** 434
 - Borders and ceiling** 434
 - Perineal membrane and deep perineal pouch 436
 - Ischio-anal fossae and their anterior recesses** 436
 - Anal triangle** 436
 - Urogenital triangle** 439
 - Structures in the superficial perineal pouch 440
 - Superficial features of the external genitalia 443
 - Superficial fascia of the urogenital triangle 445
 - Somatic nerves** 446
 - Pudendal nerve 446
 - Other somatic nerves 446
 - Visceral nerves** 448
 - Blood vessels** 448
 - Arteries 448

Contents

Veins 450
Lymphatics 452

Surface anatomy 453

Surface anatomy of the pelvis and perineum 453
Orientation of the pelvis and perineum in the anatomic position 453
How to define the margins of the perineum 453
Identification of structures in the anal triangle 455
Identification of structures in the urogenital triangle of women 456
Identification of structures in the urogenital triangle of men 457

Clinical cases 460

10 short questions 465

6

Lower limb

Conceptual overview 468

General introduction 468

Function 469

Support the body weight 469
Locomotion 471

Component parts 473

Bones and joints 473
Muscles 474

Relationship to other regions 476

Abdomen 476
Pelvis 477
Perineum 477

Key points 477

Innervation is by lumbar and sacral spinal nerves 477
Nerves related to bone 481
Superficial veins 481

Regional Anatomy 482

Transition from abdomen and pelvis to lower limb 482

Bony pelvis 483
Ilium 483
Ischial tuberosity 484
Ischiopubic ramus and pubic bone 485
Acetabulum 485
Proximal femur 486
Greater and lesser trochanters 486

Hip joint 489

Ligaments 491

Gateways to the lower limb 492

Obturator canal 493
Greater sciatic foramen 493
Lesser sciatic foramen 494
Gap between the inguinal ligament and pelvic bone 494

Nerves 494

Femoral nerve 494
Obturator nerve 494
Sciatic nerve 494
Gluteal nerves 495
Ilio-inguinal and genitofemoral nerves 496
Lateral cutaneous nerve of the thigh 496
Nerve to quadratus femoris and nerve to obturator internus 497
Posterior cutaneous nerve of the thigh 497
Perforating cutaneous nerve 497

Arteries 497

Femoral artery 497
Superior and inferior gluteal arteries and the obturator artery 497

Veins 498

Lymphatics 500

Superficial inguinal nodes 500
Deep inguinal nodes 500
Popliteal nodes 500

Deep fascia and the saphenous opening 501

Fascia lata 501
Iliotibial tract 501
Saphenous opening 502

Femoral triangle 502

Femoral sheath 504

Gluteal region 504

Muscles 505

Deep group 506
Superficial group 507

Nerves 508

Superior gluteal nerve 508
Sciatic nerve 509
Nerve to quadratus femoris 510
Nerve to obturator internus 510
Posterior cutaneous nerve of the thigh 510
Pudendal nerve 511
Inferior gluteal nerve 511
Perforating cutaneous nerve 511

Arteries 511

Inferior gluteal artery 511
Superior gluteal artery 511

- Veins 512
- Lymphatics 512
- Thigh 512**
 - Bones 513
 - Shaft and distal end of femur 513
 - Patella 515
 - Proximal end of tibia 515
 - Proximal end of the fibula 517
 - Muscles 518
 - Anterior compartment 518
 - Medial compartment 521
 - Posterior compartment 525
 - Arteries 526
 - Femoral artery 526
 - Obturator artery 529
 - Veins 530
 - Great saphenous vein 530
 - Nerves 530
 - Femoral nerve 530
 - Obturator nerve 531
 - Sciatic nerve 531
 - Knee joint 532**
 - Articular surfaces 532
 - Menisci 533
 - Synovial membrane 534
 - Fibrous membrane 535
 - Ligaments 535
 - Locking mechanism 538
 - Vascular supply and innervation 538
 - Tibiofibular joint 541**
 - Popliteal fossa 541**
 - Contents 542
 - Roof of popliteal fossa 542
- Leg 542**
 - Bones 543
 - Shaft and distal end of tibia 543
 - Shaft and distal end of the fibula 544
 - Joints 545
 - Interosseous membrane of leg 545
 - Posterior compartment of leg 545**
 - Muscles 545
 - Arteries 550
 - Veins 551
 - Nerves 551
 - Lateral compartment of leg 552**
 - Muscles 552
 - Arteries 553
 - Veins 553
 - Nerves 553
 - Anterior compartment of leg 553**
 - Muscles 553
 - Arteries 555
 - Veins 556
 - Nerves 556
 - Foot 557**
 - Bones 557
 - Tarsal bones 557
 - Metatarsals 561
 - Phalanges 561
 - Joints 562
 - Ankle joint 562
 - Intertarsal joints 564
 - Tarsometatarsal joints 568
 - Metatarsophalangeal joints 568
 - Interphalangeal joints 569
 - Tarsal tunnel, retinacula and arrangement of major structures at the ankle 569**
 - Flexor retinaculum 569
 - Extensor retinacula 570
 - Fibular retinacula 570
 - Arches of the foot 571**
 - Longitudinal arch 571
 - Transverse arch 571
 - Ligament and muscle support 571**
 - Plantar aponeurosis 572**
 - Fibrous sheaths of toes 572**
 - Extensor hoods 573**
 - Intrinsic muscles 573**
 - On the dorsal aspect 574
 - In the sole 574
 - Arteries 579**
 - Posterior tibial artery and plantar arch 579
 - Dorsalis pedis artery 580
 - Veins 581**
 - Nerves 581**
 - Tibial nerve 582
 - Deep fibular nerve 582
 - Superficial fibular nerve 584
 - Sural nerve 584
 - Saphenous nerve 584
 - Surface anatomy 585**
 - Lower limb surface anatomy 585
 - Avoiding the sciatic nerve 586
 - Finding the femoral artery in the femoral triangle 587
 - Identifying structures around the knee 587
 - Visualizing the contents of the popliteal fossa 589
 - Finding the tarsal tunnel—the gateway to the foot 589

Contents

- Identifying tendons around the ankle and in the foot 590
- Finding the *dorsalis pedis* artery 592
- Approximating the position of the plantar arterial arch 592
- Major superficial veins 593
- Pulse points 594
- Clinical cases** 595
- 10 short questions** 604

7

Upper limb

- Conceptual overview** 608
- General description** 608
- Functions** 609
 - Positioning the hand 609
 - The hand as a mechanical tool 612
 - The hand as a sensory tool 612
- Component parts** 612
 - Bones and joints 612
 - Muscles 613
- Relationship to other regions** 615
 - Neck 615
 - Back and thoracic wall 616
- Key points** 617
 - Innervation by cervical and upper thoracic nerves 617
 - Nerves related to bone 621
 - Superficial veins 621
 - Orientation of the thumb 622
- Regional anatomy** 623
- Shoulder** 623
 - Bones 623
 - Clavicle 623
 - Scapula 623
 - Proximal humerus 625
- Joints** 626
 - Sternoclavicular joint 626
 - Acromioclavicular joint 627
 - Glenohumeral joint 628
- Muscles** 633
 - Trapezius 634
 - Deltoid 634
 - Levator scapulae 635

- Rhomboid minor and major 635
- Posterior scapular region** 636
- Muscles** 637
 - Supraspinatus and infraspinatus 637
 - Teres minor and teres major 637
 - Long head of triceps brachii 637
- Gateways to the posterior scapular region** 638
 - Suprascapular foramen 638
 - Quadrangular space (from posterior) 639
 - Triangular space 639
 - Triangular interval 639
- Nerves** 639
 - Suprascapular nerve 639
 - Axillary nerve 639

Head and neck

Conceptual overview 748

General description 748

Head 748

Major compartments 748

Other anatomically defined regions 749

Neck 750

Compartments 750

Larynx and pharynx 751

Functions 751

Protection 751

Contains upper parts of respiratory and digestive tracts 751

Communication 752

Positioning the head 752

Connects the upper and lower respiratory and digestive tracts 752

Component parts 752

Skull 752

Cervical vertebrae 754

Hyoid bone 755

Soft palate 756

Muscles 756

In the head 756

In the neck 756

Relationship to other regions 757

Thorax 757

Upper limbs 757

Key features 758

Vertebral levels CIII/IV and CV/VI 758

Airway in the neck 758

Cranial nerves 759

Cervical nerves 760

Functional separation of the digestive and respiratory passages 760

Triangles of the neck 762

Regional anatomy 763

Skull 763

Anterior view 763

Frontal bone 763

Zygomatic and nasal bones 764

Maxillae 765

Mandible 765

Lateral view 765

Lateral portion of the calvaria 765

Visible part of the facial skeleton 767

Mandible 767

Posterior view 767

Occipital bone 767

Temporal bones 768

Superior view 769

Inferior view 770

Anterior part 771

Middle part 771

Posterior part 772

Cranial cavity 773

Roof 773

Floor 774

Anterior cranial fossa 774

Middle cranial fossa 775

Posterior cranial fossa 777

Meninges 782

Cranial dura mater 782

Dural partitions 783

Arterial supply 784

Innervation 785

Arachnoid mater 785

Pia mater 785

Arrangement of meninges and spaces 786

Epidural space 786

Subarachnoid space 786

Brain and its blood supply 787

Brain 787

Blood supply 789

Vertebral arteries 789

Internal carotid arteries 789

Arterial circle 789

Venous drainage 794

Dural venous sinuses 794

Cranial nerves 800

Olfactory nerve [I] 801

Optic nerve [II] 802

Oculomotor nerve [III] 802

Trochlear nerve [IV] 802

Trigeminal nerve [V] 803

Ophthalmic nerve [V₁] 804

Maxillary nerve [V₂] 804

Mandibular nerve [V₃] 804

Abducent nerve [VI] 804

Facial nerve [VII] 804

Vestibulocochlear nerve [VIII] 805

Glossopharyngeal nerve [IX] 805

Tympanic nerve 805

- Vagus nerve [X] 805
- Accessory nerve [XI] 806
 - Cranial root of the accessory nerve 806
- Hypoglossal nerve [XII] 806
- Face 806**
 - Muscles 806**
 - Orbital group 806
 - Nasal group 811
 - Oral group 812
 - Other muscles or muscle groups 814
 - Parotid gland 815**
 - Important relationships 816
 - Arterial supply 816
 - Innervation 816
 - Innervation 817**
 - Vessels 821**
 - Arteries 821
 - Veins 823
 - Lymphatic drainage 824
- Scalp 825**
 - Layers 825**
 - Innervation 826**
 - Anterior to the ears and the vertex 826
 - Posterior to the ears and the vertex 827
 - Vessels 828**
 - Arteries 828
 - Veins 829
 - Lymphatic drainage 829
- Orbit 830**
 - Bony orbit 830**
 - Roof 830
 - Medial wall 830
 - Floor 831
 - Lateral wall 831
 - Eyelids 831**
 - Skin and subcutaneous tissue 831
 - Orbicularis oculi 831
 - Orbital septum 832
 - Tarsus and levator palpebrae superioris 832
 - Conjunctiva 833
 - Glands 833
 - Vessels 833
 - Innervation 833
 - Lacrimal apparatus 834**
 - Innervation 835
 - Vessels 836
 - Fissures and foramina 836**
 - Fascial specializations 837**
 - Periorbita 837
 - Fascial sheath of the eyeball 838
 - Check ligaments 839
 - Muscles 839**
 - Extrinsic muscles 839
 - Vessels 844**
 - Arteries 844
 - Veins 845
 - Innervation 845**
 - Optic nerve 846
 - Oculomotor nerve 846
 - Trochlear nerve 846
 - Abducent nerve 847
 - Postganglionic sympathetic fibers 847
 - Ophthalmic nerve [V₁] 847
 - Ciliary ganglion 849
 - Eyeball 850**
 - Anterior and posterior chambers 850
 - Lens and vitreous humor 851
 - Walls of the eyeball 851
 - Vessels 851
 - Fibrous layer of the eyeball 852
 - Vascular layer of the eyeball 852
 - Inner layer of the eyeball 853
 - Ear 854**
 - External ear 855**
 - Auricle 855
 - External acoustic meatus 856
 - Tympanic membrane 856
 - Middle ear 858**
 - Boundaries 859
 - Mastoid area 861
 - Pharyngotympanic tube 861
 - Auditory ossicles 862
 - Vessels 863
 - Innervation 864
 - Internal ear 865**
 - Bony labyrinth 866
 - Membranous labyrinth 867
 - Vessels 869
 - Innervation 869
 - Transmission of sound 871
 - Temporal and infratemporal fossae 872**
 - Bony framework 872**
 - Temporal bone 872
 - Sphenoid bone 872
 - Maxilla 873
 - Zygomatic bone 873
 - Ramus of the mandible 873
 - Temporomandibular joints 874**
 - Joint capsule 875

Contents

- Extracapsular ligaments 875
- Movements of the mandible 875
- Masseter muscle 876**
- Temporal fossa 877**
 - Contents 877
- Infratemporal fossa 880**
 - Contents 880
- Pterygopalatine fossa 891**
 - Skeletal framework 891**
 - Sphenoid bone 891
 - Gateways 892**
 - Contents 893**
- Neck 898**
 - Fascia 899**
 - Investing layer 899
 - Prevertebral layer 899
 - Pretracheal layer 901
 - Carotid sheath 901
 - Fascial compartments 901
 - Fascial spaces 901
 - Superficial venous drainage 901**
 - External jugular veins 903
 - Anterior jugular veins 903
 - Anterior triangle of the neck 905**
 - Muscles 905
 - Vessels 909
 - Nerves 912
 - Thyroid and parathyroid glands 915
 - Location of structures in different regions of anterior triangle 919
 - Posterior triangle of the neck 919**
 - Muscles 920
 - Vessels 923
 - Nerves 925
 - Root of the neck 928**
 - Vessels 928
 - Nerves 930
 - Lymphatics 933
 - Lymphatics of the neck 935
- Pharynx 937**
 - Skeletal framework 938**
 - Anterior vertical line of attachment for the lateral pharyngeal walls 939
 - Pharyngeal wall 939**
 - Muscles 939
 - Fascia 942**
 - Gaps between muscles in the pharyngeal wall 942**
 - Structures passing through the gaps 943
 - Nasopharynx 943**
 - Oropharynx 945**
 - Laryngopharynx 945**
 - Tonsils 945**
 - Vessels 946**
 - Arteries 946
 - Veins 947
 - Lymphatics 947
 - Nerves 948**
 - Glossopharyngeal nerve [IX] 948
- Larynx 949**
 - Laryngeal cartilages 950**
 - Cricoid cartilage 950
 - Thyroid cartilage 950
 - Epiglottis 951
 - Arytenoid cartilages 951
 - Corniculate 952
 - Cuneiform 952
 - Extrinsic ligaments 952**
 - Thyrohyoid membrane 952
 - Hyo-epiglottic ligament 953
 - Cricotracheal ligament 953
 - Intrinsic ligaments 953**
 - Fibro-elastic membrane of larynx 953
 - Laryngeal joints 954**
 - Cricothyroid joints 954
 - Crico-arytenoid joints 955
 - Cavity of the larynx 955**
 - Division into three major regions 955
 - Laryngeal ventricles and saccules 957
 - Rima vestibuli and rima glottidis 957
 - Intrinsic muscles 957**
 - Cricothyroid muscles 957
 - Posterior crico-arytenoid muscles 958
 - Lateral crico-arytenoid muscles 959
 - Transverse arytenoid muscle 959
 - Oblique arytenoid muscles 959
 - Vocalis 959
 - Thyro-arytenoid muscles 959
 - Function of the larynx 960**
 - Respiration 960
 - Phonation 961
 - Effort closure 961
 - Swallowing 961
 - Vessels 962**
 - Arteries 962
 - Veins 963
 - Lymphatics 963
 - Nerves 964**
 - Superior laryngeal nerves 964
 - Recurrent laryngeal nerves 965
