Introduction to Terahertz Pulses

Kiyomi Sakai, Masahiko Tani	1
1 Historical Introduction	1
2 Principles of Terahertz-Pulse Generation	6
2.1 Terahertz-Pulse Emission from Photoconductive Antennas ...	6
2.2 Terahertz-Pulse Emission from Extended Photoconductive Sources	10
2.3 Terahertz-Pulse Emission other than Photoconductive Antennas	11
2.3.1 Optical Rectification in Nonlinear Media	11
2.3.2 Surge Current at the Semiconductor Surface	12
2.3.3 Terahertz-Pulse Emission from Semiconductor Quantum Structures	13
2.3.4 Terahertz-Pulse Emission from Coherent Longitudinal Optical Phonons	15
2.3.5 Terahertz-Pulse Emission from a High- T_c Superconducting Bridge	15
2.3.6 All-Electrical Terahertz-Pulse Emission and Detection ..	16
3 Principles of Terahertz-Pulse Detection	17
3.1 Terahertz-Pulse Detection with Photoconductive Antennas ...	17
3.2 Terahertz-Pulse Detection with Electro-Optic Crystals	18
3.3 Terahertz-Pulse Detection with Interferometers	19
3.4 Optical Setups for Terahertz-Pulse Emission and Detection ..	21
4 Some Experimental Results	22
5 Conclusions	26
References	27

Generation and Detection of Broadband Pulsed Terahertz Radiation

Shunsuke Kono, Masahiko Tani, Kiyomi Sakai	31
1 Ultra-Broadband Terahertz Radiations with Nonlinear Crystals ...	31
