

Professional Windows® Embedded CE 6.0

Introduction	xxi
Chapter 1: Windows Embedded CE.....	1
Chapter 2: Development Environment and Tools.....	15
Chapter 3: Board Support Package	39
Chapter 4: Building a Customized CE 6.0 Runtime Image.....	61
Chapter 5: Connecting to Target Device	85
Chapter 6: Debugging and Debugging Tools	113
Chapter 7: Boot Loader Overview	149
Chapter 8: The Registry.....	163
Chapter 9: Testing with CETK	177
Chapter 10: Application Development	197
Chapter 11: Visual C# 2005 Applications	207
Chapter 12: VB 2005 Applications	223
Chapter 13: Native-Code Applications	251
Chapter 14: Autolaunch Applications	273
Chapter 15: Customizing the UI	291
Chapter 16: Thin-Client Applications	307
Chapter 17: Home Automation Applications	327
Chapter 18: RFID Security Access Control Applications	361
Chapter 19: Robotic Applications.....	371
Chapter 20: Deploying a CE 6.0 Device	397
Appendix A: Windows Embedded CE References	417
Appendix B: Installation and Software	423
Appendix C: Sample Applications and OS Design Projects.....	427
Index	435
