Table of Contents

Getting Started	1
---------------------------	---

Advanced Setup

Lesson 1	Speeding Up Your Workflow	9
	Using Project Templates	10
	Creating Your Own Template	13
	Customizing the Interface	17
	Using Key Commands	26
	Accessing the Tool Menu	32
	Saving a Project Template	37
	Opening and Creating Projects Automatically	38
	Backing Up and Transporting Your Setup	39
	Lesson Review	46

Advanced Production

Lesson 2	Managing Projects and Takes	49
	Using Project Folders	50
	Working with Assets	54
	Quickly Accessing Additional Tracks	62
	Recording Multiple Tracks Simultaneously	66
	Deleting Unused Tracks	75
	Lesson Review	76
Lesson 3	Matching Tempo and Pitch	79
	Working with Apple Loops	80
	Using the Time and Pitch Machine	89
	Performing Time Stretching and Compression in the Arrange Area	95

	Working with Rubato Passages	99
	Lesson Review	108
Lesson 4	Working with Software Instruments	111
	Getting Familiar with the Instruments	112
	Understanding the User Interface	113
	Using Ultrabeat	117
	Using the EXS24 mkII Software Sampler	139
	Using the EVP88 Vintage Electric Piano	145
	Using the EVD6 Vintage Clavinet	147
	Using the EFM 1 FM Synthesizer	148
	Using the ES1 Virtual Analog Synthesizer	149
	Using the ES2 Synthesizer	151
	Using Global Tracks to Create a Quick Arrangement	153
	Sound Design with Sculpture	156
	Treating Your MIDI Hardware as Software	169
	Lesson Review	171
 Advanced Editing		
Lesson 5	Working with the Arrangement	175
	Creating and Using Markers	176
	Navigating the Arrangement	185
	Navigating with Markers	188
	Isolating Material with Cycle Mode	190
	Using Zooming	195
	Editing the Arrangement	205
	Lesson Review	208
Lesson 6	Advanced Audio Editing	211
	Using Edits to Create Parts	212
	Comping Tracks	222
	Fixing Problems Using the Sample Editor	232
	Lesson Review	238
Cameo	Taking a Leap of Logic—J. F. Brissette	240

Lesson 7	Advanced MIDI Editing	243
	Using Loops, Copies, and Aliases.	244
	Demixing MIDI Regions	253
	Working with Region Parameters	256
	Working with MIDI Note Events.	267
	Using Transform Functions	274
	Lesson Review	283

Advanced Mixing

Lesson 8	Working with Mixer Channels	287
	Using the Mixer	288
	Using Insert Effects	295
	Using Send Effects.	307
	Panning Stereo Tracks.	312
	Switching the Contents of the Plug-in Window.	315
	Changing Plug-in Locations.	318
	Using Channel Strip Settings	320
	Lesson Review	320
Lesson 9	Controlling Signal Flow.	323
	Using Aux Channels as Submixes	324
	Applying Send Effects to Submixes	327
	Using Mixer Groups	328
	Incorporating External Effects Processors	333
	Lesson Review	336
Lesson 10	Automating the Mix.	339
	Working with Offline Automation	340
	Performing Real-Time Automation.	356
	Lesson Review	365

Advanced Topics

Lesson 11	MIDI Processing in the Environment	369
	Navigating Within the Environment.	370
	Creating Environment Objects	373
	Creating Signal Chains	384

	Using Touch Tracks Objects	397
	Lesson Review	404
Lesson 12	Working with Notation	407
	Creating Notation	408
	Entering Notes Using Graphic Input	409
	Entering Notes Using Step Input	419
	Using Staff Styles	421
	Working with Text	429
	Transcribing a Performance	434
	Working with Drum Notation	439
	Creating Scores and Parts	445
	Lesson Review	454
Cameo	Cusp of Magic—Terry Riley	456
Lesson 13	Working with Surround	459
	Configuring Logic for Surround	460
	Mixing in Surround	462
	Using Surround Effects	471
	Checking the Surround Mix	477
	Down Mixing	481
	Encoding Surround Projects	482
	Lesson Review	487
Lesson 14	Scoring to Picture	489
	Setting Up Synchronization	490
	Importing Media	496
	Spotting the Movie	503
	Positioning Events on the Timeline	509
	Lesson Review	515
Cameo	Scoring with Logic—Jeff Rona	517
Appendix	Keyboard Shortcuts	519
	Glossary on DVD	
	Index	525
