CHAPTER 1

Introduction to Cognitive Psychology 2

WHAT IS THE MIND? THE SEARCH FOR ANSWERS 5

What Is the Mind? 5

Studying the Mind: Early Work in Cognitive Psychology 6

THE MIND IN THE 1950S AND 1960S 9

Watson Founds Behaviorism 9

Skinner's Operant Conditioning 10

Setting the Stage for the Reemergence of the Mind in Psychology 11

THE IMPACT OF THE STUDY OF THE MIND 12

Introduction of the Digital Computer 12

Conferences on Artificial Intelligence and Information Theory 13

RESEARCHING THE MIND 15

Memory Consolidation From a Behavioral Perspective 15

Memory Consolidation From a Physiological Perspective 16

Models of the Mind 17

SOMETHING TO CONSIDER: LEARNING FROM THIS BOOK 17

TEST YOURSELF 1.1 18

CHAPTER SUMMARY 19

THINK ABOUT IT 19

IF YOU WANT TO KNOW MORE 20

KEY TERMS 20

MEDIA RESOURCES 21

CHAPTER 2

Brain and Cognition 22

THE MICROSTRUCTURE OF THE BRAIN: NEURONS 25

The Microstructure of the Brain: Neurons 25

The Signals That Travel in Neurons 27

• **METHOD:** Recording From a Neuron 28

LOCALIZATION OF FUNCTION 30

Localization for Perception 30

• **METHOD:** Brain Imaging 30

Localization for Language 33

• **METHOD:** Event-Related Potential 34

TEST YOURSELF 2.1	36
DISTRIBUTED PROCESSING IN THE BRAIN	36
REPRESENTATION IN THE BRAIN	37
Representing a Tree: Feature Detectors	38
The Neural Code for Faces	39
The Neural Code for Memory	41
SOMETHING TO CONSIDER: “MIND READING”	41
TEST YOURSELF 2.2	43
CHAPTER SUMMARY	43
THINK ABOUT IT	44
IF YOU WANT TO KNOW MORE	44
KEY TERMS	45
MEDIA RESOURCES	45

CHAPTER 3

Perception 46

THE NATURE OF PERCEPTION	49
PERCEPTION STARTS AT THE RECEPTORS: BOTTOM-UP PROCESSING	50
Bottom-Up Processing: Physiological	50
Bottom-Up Processing: Behavioral	51
BEYOND BOTTOM-UP PROCESSING	52
Perception Depends on Additional Information	52
Perceiving Size: Taking Distance Into Account	53
• DEMONSTRATION: Two Quarters	54
Perceiving Odor Intensity: Taking Sniffing Into Account	56
TEST YOURSELF 3.1	56
USING KNOWLEDGE: TOP-DOWN PROCESSING	57
Helmholtz’s Theory of Unconscious Inference	57
The Gestalt Laws of Organization	58
• DEMONSTRATION: Finding Faces in a Landscape	60
The Gestalt “Laws” Are “Heuristics”	62
Taking Regularities in the Environment Into Account	63
• DEMONSTRATION: Shape From Shading	63
• DEMONSTRATION: Visualizing Scenes and Objects	65
TEST YOURSELF 3.2	66
PERCEPTION AND ACTION: PERCEPTUAL ORGANIZATION	67
Designing a Perceiving Machine	67
The Human “Perceiving Machine”	67
Experience-Dependent Plasticity	68
SEARCHING FOR A CORE PERCEPTUAL ORGANIZATION AND TAKING ACTION	70
Movement Facilitates Perception	70
The Interaction of Perception and Action	70
The Physiology of Perception and Action	71
• METHOD: Brain Ablation	71

- **METHOD:** Dissociations in Neuropsychology 73
- Picking Up a Coffee Cup and Other Behaviors 74
- SOMETHING TO CONSIDER: MIRROR NEURONS** 75
- TEST YOURSELF 3.3** 76
- CHAPTER SUMMARY** 77
- THINK ABOUT IT** 77
- IF YOU WANT TO KNOW MORE** 78
- KEY TERMS** 79
- MEDIA RESOURCES** 79

CHAPTER 4

Attention 80

SELECTIVE ATTENTION 83

- Selective Attention as Filtering 83
- **DEMONSTRATION:** Focusing on One Message 84
- **METHOD:** Dichotic Listening 84
- Cognitive Resources, Cognitive Load, and Task-Irrelevant Stimuli 87
- **METHOD:** Flanker Compatibility Task 88
- **DEMONSTRATION:** The Stroop Effect 89

TEST YOURSELF 4.1 90

DIVIDED ATTENTION 91

- Divided Attention Can Be Achieved With Practice: Automatic Processing 91
- Divided Attention When Tasks Are Harder: Controlled Processing 92
- **DEMONSTRATION:** Detecting a Target 93
- Distractions While Driving 94

ATTENTION AND PERCEPTION 95

- Inattentional Blindness 95
- Change Detection 96
- **DEMONSTRATION:** Change Detection 96

ATTENTIONAL BIAS 97

ATTENTIONAL BIAS AND PERCEPTION 98

- Eye Movements, Attention, and Perception 98
- **DEMONSTRATION:** Looking for a Face in the Crowd 99
- Bottom-Up Determinants of Eye Movements 100
- Top-Down Determinants of Eye Movements 100

HOW DOES THE ATTENTIONAL SYSTEM WORK? 101

- Location-Based Attention 102
- **METHOD:** Precueing 102
- Object-Based Attention 103

PERCEPTION AND ATTENTION 104

THE NEUROBIOLOGY OF ATTENTION 105

- Covert Attention Enhances Neural Responding 106
- Attentional Processing Is Distributed Across the Cortex 107

SOMETHING TO CONSIDER: ATTENTION IN SOCIAL SITUATIONS—
THE CASE OF AUTISM 109

TEST YOURSELF 4.3 110

CHAPTER SUMMARY 111

THINK ABOUT IT 111

IF YOU WANT TO KNOW MORE 112

KEY TERMS 112

MEDIA RESOURCES 113

CHAPTER 5

Introduction to Memory 114

THE IMPORTANCE OF MEMORY RECALL 117

STUDYING MEMORY 117

SENSORY MEMORY 119

The Sparkler's Trail and the Projector's Shutter 120

Sperling's Experiment: Measuring the Capacity and Duration
of the Sensory Store 121

SHORT-TERM MEMORY 122

• **METHOD:** Recall 123

What Is the Duration of Short-Term Memory? 124

• **DEMONSTRATION:** Remembering Three Letters 124

What Is the Capacity of Short-Term Memory? 125

• **DEMONSTRATION:** Digit Span 125

• **DEMONSTRATION:** Remembering Letters 126

How Is Information Coded in Short-Term Memory? 128

• **DEMONSTRATION:** Recalling Visual Patterns 128

TEST YOURSELF 5.1 129

WORKING MEMORY 130

• **DEMONSTRATION:** Reading Text and Remembering Numbers 131

The Phonological Loop 133

• **DEMONSTRATION:** Word Length Effect 133

• **DEMONSTRATION:** Articulatory Suppression 133

The Visuospatial Sketch Pad 134

• **DEMONSTRATION:** Comparing Objects 134

• **DEMONSTRATION:** Holding a Spatial Stimulus in the Mind 135

The Central Executive 136

The Episodic Buffer 136

TEST YOURSELF 5.2 137

WORKING MEMORY AND THE BRAIN 137

The Effect of Damage to the Prefrontal Cortex 138

Prefrontal Neurons That Hold Information 139

Brain Activation in Humans 140

SOMETHING TO CONSIDER: THE ADVANTAGES OF HAVING
A MORE EFFICIENT WORKING MEMORY 141

• **METHOD:** Reading Span 142

TEST YOURSELF 5.3 142
 CHAPTER SUMMARY 143
 THINK ABOUT IT 144
 IF YOU WANT TO KNOW MORE 144
 KEY TERMS 144
 MEDIA RESOURCES 145

CHAPTER 6

Structure of Long-Term Memory 146

TEST YOURSELF 6.1: THE EFFECTS OF REHEARSAL ON REPRODUCTION OF A

Long-Term and Short-Term Processes 149
 • **DEMONSTRATION:** Serial Position 151
 Serial Position Curve 151
 Coding in Long-Term Memory 153
 • **METHOD:** Recognition Memory 154
 • **DEMONSTRATION:** Reading a Passage 154
 Locating Short- and Long-Term Memory in the Brain 155
 Types of Long-Term Memory 156

TEST YOURSELF 6.1 157

EPISODIC AND SEMANTIC MEMORY (EXPLICIT) 157

Distinguishing Between Episodic and Semantic Memory 157
 The Separation of Episodic and Semantic Memories 158
 Connections Between Episodic and Semantic Memories 159

PRIMING, PROCEDURAL MEMORY, AND CONDITIONING (IMPLICIT) 160

Priming 161
 • **METHOD:** Avoiding Explicit Remembering in a Priming Experiment 161
 Procedural Memory 164
 • **DEMONSTRATION:** Mirror Drawing 164
 Classical Conditioning 165

THE EFFECTS OF REHEARSAL ON REPRODUCTION OF A

TEST YOURSELF 6.2 165

CHAPTER SUMMARY 167

THINK ABOUT IT 168
 IF YOU WANT TO KNOW MORE 168
 KEY TERMS 169
 MEDIA RESOURCES 169

CHAPTER 7

Encoding and Retrieval 170

EXPERIMENT: EFFECTS OF REHEARSAL FROM LONG-TERM MEMORY 170

Maintenance Rehearsal and Elaborative Rehearsal 173

- Levels-of-Processing Theory 174
- **DEMONSTRATION:** Remembering Lists 174
- **METHOD:** Varying Depth of Processing 175
- Research Showing That Encoding Influences Retrieval 176
- **DEMONSTRATION:** Reading a List 178

TEST YOURSELF 7.1 181

RETRIEVAL: GETTING INFORMATION OUT OF MEMORY 181

- Retrieval Cues 182
- **METHOD:** Cued Recall 182
- Matching Conditions of Encoding and Retrieval 183

TEST YOURSELF 7.2 186

HOW TO STUDY MORE EFFECTIVELY 186

- Elaborate 187
- Generate and Test 188
- Organize 188
- Take Breaks 188
- Match Learning and Testing Conditions 189
- Avoid “Illusions of Learning” 189

MEMORY AND THE BRAIN 190

- Experiences Cause Changes at the Synapse 190
- Where Does Memory Occur in the Brain? 191
- Forming Memories in the Brain: The Process of Consolidation 193

SOMETHING TO CONSIDER: ARE MEMORIES EVER “PERMANENT”? 195

TEST YOURSELF 7.3 198

CHAPTER SUMMARY 198

- THINK ABOUT IT 199
- IF YOU WANT TO KNOW MORE 200
- KEY TERMS 200
- MEDIA RESOURCES 201

CHAPTER 8

Everyday Memory 202

ADAPTIVE AND MALADAPTIVE EFFECTS OF EVERYDAY MEMORY 202

- The Multidimensional Nature of AM 205
- Memory Over the Life Span 206

EMOTION AND “EMOTIONAL” MEMORIES 207

- Memory and Emotion 208
- Flashbulb Memories 208
- **METHOD:** Repeated Recall 209

TEST YOURSELF 8.1 213

THE CONSTRUCTIVE NATURE OF MEMORY 213

- Bartlett’s “War of the Ghosts” Experiment 213
- Source Monitoring and Source Monitoring Errors 214
- **METHOD:** Testing for Source Monitoring 216

How Real-World Knowledge Affects Memory 217

- **DEMONSTRATION:** Reading Sentences 217
- **DEMONSTRATION:** Memory for a List 220

Taking Stock: The Pluses and Minuses of Construction 221

TEST YOURSELF 8.2 222

MEMORY CAN BE MODIFIED OR CREATED BY SUGGESTION 222

The Misinformation Effect 222

- **METHOD:** Presenting Misleading Postevent Information 223

Creating False Memories for Early Events in People’s Lives 225

WHY DO PEOPLE MAKE ERRORS IN EYEWITNESS TESTIMONY? 226

Errors of Eyewitness Identification 227

The Crime Scene and Afterward 227

What Is Being Done? 231

THE CRIME SCENE: HOW DOES POSTEVENT INFORMATION AFFECT EYEWITNESS TESTIMONY? 231

TEST YOURSELF 8.3 234

CHAPTER SUMMARY 234

THINK ABOUT IT 235

IF YOU WANT TO KNOW MORE 236

KEY TERMS 236

MEDIA RESOURCES 237

- **DEMONSTRATION:** Reading Sentences (continued) 237

CHAPTER 9 Knowledge 238

HOW ARE OBJECTS PLACED INTO CATEGORIES? 241

Why Definitions Don’t Work for Categories 241

The Prototype Approach: Finding the Average Case 243

- **DEMONSTRATION:** Family Resemblance 244
- **METHOD:** Sentence Verification Technique 244

The Exemplar Approach: Thinking About Examples 246

Which Approach Works Better: Prototypes or Exemplars? 246

HOW DOES KNOWLEDGE AFFECT CATEGORIZATION? 247

Rosch’s Approach: What’s Special About Basic Level Categories? 247

- **DEMONSTRATION:** Listing Common Features 248
- **DEMONSTRATION:** Naming Things 248

How Knowledge Can Affect Categorization 249

TEST YOURSELF 9.1 249

THE COLLINS AND QUILLIAN MODEL OF SEMANTIC NETWORKS 250

HOW DOES KNOWLEDGE AFFECT 250

Introduction to Semantic Networks: Collins and Quillian’s Hierarchical Model 250

- **METHOD:** Lexical Decision Task 252

Criticism of the Collins and Quillian Model 253

The Collins and Loftus Model: Personal Experience Affects Networks 253

Assessment of Semantic Network Theories 254

REPRESENTING CONCEPTS IN NETWORKS:
THE CONNECTIONIST APPROACH 255

What Is a Connectionist Model? 255

How Are Concepts Represented in a Connectionist Network? 257

• **DEMONSTRATION:** Activation of Property Units in a Connectionist Network 257

CATEGORIES AND THE BRAIN 260

Specific or Distributed Activity? 260

Category Information in Single Neurons 260

Neuropsychology of Categories 262

Brain Scanning and Categories 262

SOMETHING TO CONSIDER: CATEGORIES FROM DAVIDSON'S 262

• **METHOD:** Familiarization/Novelty Preference Procedure 263

TEST YOURSELF 9.2 265

CHAPTER SUMMARY 265

THINK ABOUT IT 266

IF YOU WANT TO KNOW MORE 266

KEY TERMS 267

MEDIA RESOURCES 267

CHAPTER 10

Imagery 268

• **DEMONSTRATION:** Experiencing Imagery 270

IMAGERY IN THE HISTORY OF PSYCHOLOGY 270

Early Ideas About Imagery 271

Imagery and the Cognitive Revolution 271

• **METHOD:** Paired-Associate Learning 272

IMAGERY AND PERCEPTION: DO THEY SHARE
THE SAME MECHANISMS? 272

Kosslyn's Mental Scanning Experiments 273

• **DEMONSTRATION:** Mental Scanning 273

The Imagery Debate: Is Imagery Spatial or Propositional? 274

Comparing Imagery and Perception 276

Is There a Way to Resolve the Imagery Debate? 278

TEST YOURSELF 10.1 279

IMAGERY AND THE BRAIN 279

Imagery Neurons in the Brain 279

Brain Imaging 280

Transcranial Magnetic Stimulation 281

• **METHOD:** Transcranial Magnetic Stimulation (TMS) 282

Neuropsychological Case Studies 282

Conclusions From the Imagery Debate 285

USING IMAGERY TO IMPROVE MEMORY 286

Placing Images at Locations 286

• **DEMONSTRATION:** Method of Loci 286

Associating Images With Words 287

SOMETHING TO CONSIDER: MENTAL REPRESENTATION
OF MECHANICAL SYSTEMS 287

• **DEMONSTRATION:** Mechanical Problems 287

TEST YOURSELF 10.2 289

CHAPTER SUMMARY 289

THINK ABOUT IT 290

IF YOU WANT TO KNOW MORE 290

KEY TERMS 291

MEDIA RESOURCES 291

CHAPTER 11

Language 292

THE CREATIVITY OF HUMAN LANGUAGE

The Creativity of Human Language 295

The Universality of Language 295

Studying Language 295

THE BUILDING BLOCKS OF LANGUAGE

Components of Words 297

Perceiving Spoken Phonemes and Words, and Written Letters 297

• **METHOD:** Word Superiority Effect 300

UNDERSTANDING WORDS

The Word Frequency Effect 301

• **DEMONSTRATION:** Lexical Decision Task 301

Lexical Ambiguity 301

• **METHOD:** Lexical Priming 302

TEST YOURSELF 11.1 303

THE MECHANISMS OF LANGUAGE

Parsing and a Trip Down the Garden Path 304

The Syntax-First Approach to Parsing 305

• **DEMONSTRATION:** Late Closure 305

The Interactionist Approach to Parsing 306

THE MEANING OF LANGUAGE

Making Inferences 309

• **DEMONSTRATION:** Making Up a Story 309

Situation Models 311

THE COORDINATION OF LANGUAGE

Semantic Coordination 315

Syntactic Coordination 315

• **METHOD:** Syntactic Priming 316

THE LANGUAGE OF CULTURE

TEST YOURSELF 11.2 320

CHAPTER SUMMARY 320

THINK ABOUT IT 321

IF YOU WANT TO KNOW MORE 321

KEY TERMS 323

MEDIA RESOURCES 323

• **DEMONSTRATION:** Answers to Late Closure Demonstration 323

CHAPTER 12

Thinking: Problem Solving 324

WHY IS A PROBLEM? 325

THE GESTALT APPROACH: PERCEPTUAL ORGANIZATION, INSIGHT,
AND RESTRUCTURING 327

Representing a Problem in the Mind 327

Restructuring and Insight 327

• **DEMONSTRATION:** Two Insight Problems 328

Obstacles to Problem Solving 329

• **DEMONSTRATION:** The Candle Problem 329

MODERN RESEARCH ON PROBLEM SOLVING:
THE INFORMATION-PROCESSING APPROACH 331

Newell and Simon's Approach 332

• **DEMONSTRATION:** Tower of Hanoi Problem 332

The Importance of How a Problem Is Stated 335

• **DEMONSTRATION:** The Mutilated Checkerboard Problem 337

• **METHOD:** Think-Aloud Protocol 338

TEST YOURSELF 12.1 339

USING ANALOGIES TO SOLVE PROBLEMS 340

Analogical Transfer 340

Analogical Problem Solving and the Duncker Radiation Problem 340

• **DEMONSTRATION:** Duncker's Radiation Problem 340

Analogical Encoding 344

Analogy in the Real World 345

• **METHOD:** In Vivo Problem-Solving Research 345

HOW EXPERTS SOLVE PROBLEMS? 346

Differences Between How Experts and Novices Solve Problems 346

Expertise Is Only an Advantage in the Expert's Specialty 348

CREATING SOLUTIONS 349

• **DEMONSTRATION:** Creating an Object 350

SOARING HIGH TO SOLVE PROBLEMS: EXPERTS' CREATIVITY
RESULT IN BETTER PROBLEM-SOLVING PERFORMANCE 350

TEST YOURSELF 12.2 350

CHAPTER SUMMARY 354

THINK ABOUT IT 354

IF YOU WANT TO KNOW MORE 355

KEY TERMS 355

MEDIA RESOURCES 355

CHAPTER 13

Thinking: Reasoning and Decisions 358

DEDUCTIVE REASONING: SYLLOGISMS AND LOGIC 361

Validity and Truth in Syllogisms 361

Conditional Syllogisms 362

Conditional Reasoning: The Wason Four-Card Problem 364

• **DEMONSTRATION:** Wason Four-Card Problem 364

What Has the Wason Problem Taught Us? 367

TEST YOURSELF 13.1 368

INDUCTIVE REASONING: REACHING CONCLUSIONS FROM EVIDENCE 368

The Nature of Inductive Reasoning 368

The Availability Heuristic 369

• **DEMONSTRATION:** Which Is More Prevalent? 369

The Representativeness Heuristic 371

• **DEMONSTRATION:** Judging Occupations 371

• **DEMONSTRATION:** Description of a Person 372

• **DEMONSTRATION:** Male and Female Births 373

The Confirmation Bias 374

TEST YOURSELF 13.2 374

DECISION MAKING: CHOOSING AMONG ALTERNATIVES 375

The Utility Approach to Decisions 375

How Emotions Affect Decisions 377

People Inaccurately Predict Their Emotions 378

Incidental Emotions Affect Decisions 379

Decisions Can Depend on How Choices Are Presented 379

• **DEMONSTRATION:** What Would You Do? 380

Justification in Decision Making 381

THE PHYSIOLOGY OF THINKING 382

Effect of Damage to the Prefrontal Cortex 382

Neuroeconomics: The Neural Basis of Decision Making 384

THE PSYCHOLOGY OF PERSONAL DECISION MAKING 385

Personal Health Decisions 385

• **DEMONSTRATION:** A Personal Health Decision 385

CONCEPTS TO REMEMBER 387

CHAPTER SUMMARY 386

THINK ABOUT IT 387
