

Contents

1	Introduction	1
1.1	Equality and Welfare	1
1.1.1	We Have a Problem.	1
1.1.2	Measuring Inequality and Poverty	4
1.1.3	Purpose	5
1.2	Equality of What?	6
1.2.1	Income Distributions	6
1.2.2	Wealth, Income and Expenditures	7
1.2.3	The Units of Reference: Equality Among Whom?	9
1.2.4	Needs and Deserts	10
1.2.5	Multidimensionality	11
1.3	Plan of the Book	11
	References	13
 Part I Inequality		
2	Inequality Indices	19
2.1	Introduction	19
2.2	Properties of Inequality Indices	20
2.3	Inequality and Dispersion	24
2.3.1	The Variance (σ^2)	25
2.3.2	The Coefficient of Variation (CV)	29
	References	29
3	Positive Inequality Indices	31
3.1	The Lorenz Curve	31
3.2	The Gini Index	34
3.2.1	From Lorenz to Gini	34
3.2.2	The Generalised Gini Index	37
3.3	Theil's Inequality Indices	39

3.3.1	The First Index of Theil: From Information Theory to Inequality Measurement	39
3.3.2	The Second Index of Theil (Mean Logarithmic Deviation)	42
3.3.3	The Generalised Indices of Theil (T_θ)	44
3.4	Quantile Measures: The Palma Ratio	48
	Appendix: Decomposability of the Generalised Indices of Theil	53
	References	55
4	Normative Inequality Indices	57
4.1	Introduction	57
4.1.1	The Arrowian Approach to Normative Inequality Indices	57
4.1.2	The Social Evaluation Function Approach	60
4.2	Dalton's Approach to Inequality Measurement	60
4.3	Atkinson Inequality Measures	62
4.3.1	Preliminaries	62
4.3.2	The Atkinson Family of Inequality Indices	64
4.3.3	The Atkinson and the Entropy Families of Inequality Indices	68
	References	70
5	Inequality of Opportunity	73
5.1	Introduction	73
5.2	Measuring Inequality of Opportunity by Theil's Inequality Index	76
5.2.1	Motivation	76
5.2.2	The Model	77
5.2.3	The Second Index of Theil	80
5.3	Equality of Opportunity With Categorical Data	81
5.3.1	Motivation	81
5.3.2	The Model	82
5.3.3	Empirical Illustration: Inequality of Opportunity in Compulsory Education in the OECD, According to PISA (2012)	84
	Appendix	87
	References	91
6	Inequality and Welfare	93
6.1	Introduction	93
6.2	Social Evaluation Functions	94
6.3	Multidimensional Inequality and Welfare	101
6.3.1	Multidimensional Welfare Indicators	103
6.3.2	Multidimensional Inequality	105
6.3.3	Weights and Units	107
6.4	The Human Development Index	109
	References	110

Part II Poverty

7 Poverty Measurement	115
7.1 Introduction	115
7.2 Poverty Indices	117
7.2.1 Head Count Ratio	118
7.2.2 Poverty Gap Measures	119
7.2.3 The Sen's Family of Poverty Measures	120
7.2.4 Decomposable Poverty Measures	121
7.3 Multidimensional Poverty Indices	122
7.4 Deprivation and Non-monetary Poverty Measures	125
7.4.1 At Risk of Poverty or Social Exclusion (AROPE)	125
7.4.2 The United Nations Multidimensional Poverty Index	127
References	133
8 Multidimensional Poverty and Welfare	135
8.1 Introduction	135
8.2 The Setting	136
8.3 Adding Structure	139
8.3.1 Quasi-concavity, Scale and Factor Decomposability	139
8.3.2 Multiplicative Factor Decomposability	141
8.4 Closing the Formula	142
8.4.1 Anonymity, Inequality and Welfare	142
8.4.2 Subgroup Decomposability	143
8.5 Measuring Educational Poverty from PISA	145
8.5.1 The Model	145
8.5.2 The Results	147
8.5.3 Final Comments	151
References	151
9 The Evaluation of Relative Achievements	155
9.1 Introduction	155
9.2 The Basic Model	156
9.2.1 Measuring the Achievements	157
9.2.2 Application to the Example of the Hypothetical University	161
9.3 Extensions	162
9.3.1 Weighted Symmetry and Weighted Neutrality	162
9.3.2 Generalised Means	164
9.3.3 A Graphical Illustration	165
9.4 An Application: The Green Economy Progress Index	166
9.4.1 The Setting	166
9.4.2 The Index	168
9.4.3 Results	171
References	171
