LIST OF FIGURES	xii
LIST OF TABLES	xvii
PREFACE	xxi
ABSTRACT	xxii
CHAPTER 1. INTRODUCTION	
1.1. Background.....	1
1.2. Aims and objective	2
1.3. Hypothesis to be tested and questions to be answered	3
1.4. Significance of research.....	3
1.5. Structure of the book	3
CHAPTER 2. BIOARCHAEOLOGY	
2.1. Introduction	5
2.2. The concept of bioarchaeology.....	5
2.3. Mortuary analysis and the implications for bioarchaeology: brief summary of the theoretical background	5
2.4. The history and global development of bioarchaeology.....	7
2.5. Bioarchaeology in Spain.....	9
2.5.1. Introduction	9
2.5.2. Its beginnings and relevant institutions	9
2.5.3. Education in bioarchaeology in Spain	10
2.5.4. Training and research in bioarchaeology in Spain.....	11
2.5.5. Documented and archaeological skeletal collections in Spain	12
2.5.6. New directions for bioarchaeology in Spain.....	13
CHAPTER 3. THE 3rd MILLENNIUM BC IN SOUTH-WEST SPAIN	
3.1. The context: the 3 rd millennium BC in south-west Spain (Copper Age period)	15
3.1.1. Introduction	15
3.1.2. Investigations in the south of Spain.....	15
3.2. History of study	15
3.2.1. Spain.....	15
3.3. Funerary patterns in south-west Spain.....	19
3.3.1. Megalithic structures	19
3.3.2. Non-megalithic structures	20
3.3.3. Mortuary practices.....	21
3.4. General aspects of funerary practices during the 3 rd millennium BC in south-west Spain..	23
3.4.1. Sites with human remains (MNI)	23
3.4.2. Taphonomic factors and skeletal remains in south-west Spain	23
3.4.2.i. Extrinsic factors.....	24
3.4.2.i.1. Environmental and natural factors	24
3.4.2.i.2. Human induced factors	25
3.5. The sites.....	26
3.5.1. La Pijotilla	26
3.5.2. Valencina-Castilleja	29
3.5.3. La Orden-El Seminario.....	35

CHAPTER 4. METHODS

4.1.	Methods: the analysis of the human remains	37
4.2.	Identification, classification and recording.....	37
4.3.	Preservation, conservation and taphonomy	37
4.4.	Sex estimation	37
4.5.	Age estimation.....	38
4.5.1.	Adult age estimation.....	38
4.5.2.	Subadult age estimation.....	38
4.6.	Normal variation: metrical data	39
4.6.1.	Introduction to metrical data.....	39
4.6.2.	Adult measurements	40
4.6.3.	Indices	40
4.6.4.	Subadult measurements.....	40
4.6.5.	Dental measurements.....	40
4.7.	Stature estimation	40
4.8.	Normal variation: non-metric traits	41
4.8.1.	Introduction to non-metrical data	41
4.8.1.i.	Cranial non-metric traits	41
4.8.1.ii.	Dental non-metric traits	41
4.8.1.iii.	Postcranial non-metric traits	41
4.9.	Abnormal variation.....	42
4.9.1.	Enthesophytes.....	42
4.9.2.	Paleopathology	42
4.9.2.i.	Preliminary evaluation.....	42
4.9.2.ii.	Categories of disease	42
4.9.2.ii.a.	Infectious disease	42
4.9.2.ii.b.	Trauma	43
4.9.2.ii.c.	Joint disease	43
4.9.2.ii.d.	Metabolic disease.....	44
4.9.2.ii.e.	Dental disease	44
4.10.	Isotope analysis	45
4.10.1.	Sampling strategy	45
4.10.2.	Introduction to paleodiet.....	45
4.10.2.i.	Carbon isotope analysis	46
4.10.2.ii.	Nitrogen isotope analysis.....	46
4.10.2.iii.	Analysis of prehistoric diet in the Iberian Peninsula	47
4.10.2.iv.	Laboratory sample procedure	48
4.10.3.	Introduction to mobility and change of residence in the past	48
4.10.3.i.	Strontium isotope analysis	49
4.10.3.ii.	How to interpret the values and to define the local range	49
4.10.3.iii.	Strontium isotopes studies in the Iberian Peninsula	50
4.10.3.iv.	Laboratory sample procedures.....	50
4.10.3.iv.a.	Arizona State University	50
4.10.3.iv.b.	The University of Iowa and University of Illinois	50
4.11.	Radiocarbon analysis (AMS).....	51
4.12.	Statistical analysis	51

CHAPTER 5. RESULTS

5.1.	Number of bones and teeth/fragments	53
5.2.	The MNI (minimum number of individuals)	53
5.2.1.	La Pijotilla	53
5.2.2.	Valencina-Castilleja	53
5.3.	Distribution of age and sex	53

5.3.1.	La Pijotilla	53
5.3.1.i.	Age distribution	53
5.3.1.ii.	Sex distribution.....	56
5.3.2.	Valencina-Castilleja	56
5.3.2.i.	Age distribution	56
5.3.2.ii.	Sex distribution.....	59
5.4.	Normal variation.....	62
5.4.1.	Metrical analyses	62
5.4.1.i.	Calculation of stature.....	62
5.4.1.i.a.	La Pijotilla.....	62
5.4.1.i.b.	Valencina-Castilleja.....	62
5.4.2.	Intraobserver error.....	62
5.5.	Normal variation: non-metric analyses.....	63
5.5.1.	La Pijotilla	63
5.5.1.i.	Cranial and postcranial non-metric traits.....	63
5.5.1.ii.	Non-metric dental traits	65
5.5.2.	Valencina-Castilleja	65
5.5.2.i.	Cranial and postcranial non-metric traits.....	65
5.5.2.ii.	Non-metric dental traits	65
5.6.	Abnormal variation.....	65
5.6.1.	Enthesophytes.....	65
5.6.1.i.	La Pijotilla	66
5.6.1.ii	Valencina-Castilleja	68
5.6.2.	Other examples of normal variation	68
5.6.3.	Abnormal variation: paleopathology	68
5.6.3.i.	Joint disease.....	68
5.6.3.i.a.	La Pijotilla.....	68
5.6.3.i.b.	Valencina-Castilleja.....	71
5.6.3.ii.	Metabolic disease	71
5.6.3.ii.a.	La Pijotilla.....	71
5.6.3.ii.b.	Valencina-Castilleja.....	72
5.6.3.iii.	Trauma.....	72
5.6.3.iii.a	La Pijotilla	72
5.6.3.iv.	Dental pathology.....	77
5.6.3.iv.a.	La Pijotilla.....	77
5.6.3.iv.b.	Miscellaneous	80
5.6.3.iv.c.	Valencina-Castilleja.....	81
5.6.3.v.	Miscellaneous	82
5.6.3.v.a.	La Pijotilla.....	82
5.7.	The exceptional burial of individual 10,049/667.1 (PP4-Montelirio, Valencina-Castilleja) 83	83
5.8.	Diet: carbon ($\delta^{13}\text{C}$) and nitrogen ($\delta^{15}\text{N}$) stable isotope analyses	83
5.8.1.	La Pijotilla	83
5.8.2.	Valencina-Castilleja	83
5.8.3.	La Orden-El Seminario.....	84
5.9.	Mobility: strontium ($^{87}\text{Sr}/^{86}\text{Sr}$).....	86
5.9.1.	La Pijotilla	86
5.9.2.	Valencina-Castilleja	89
5.10.	Radiocarbon dating.....	92

CHAPTER 6. DISCUSSION

6.1.	Understanding the Copper Age period in south-west Spain from a multidisciplinary overview	93
6.1.1.	Comparative analysis.....	93

6.1.1.i.	Age and sex distribution	95
6.1.2.	Normal variation.....	98
6.1.2.i.	Metrical analyses	98
6.1.2.ii.	Stature	98
6.1.2.iii.	Non-metric analyses	99
6.1.3.	Abnormal variation.....	100
6.1.3.i.	Enthesophytes	100
6.1.3.ii.	Paleopathology	101
6.1.3.ii.a.	Joint disease	101
6.1.3.ii.b.	Metabolic disease.....	101
6.1.3.ii.c.	Trauma	101
6.1.3.ii.d.	Dental pathology.....	101
6.1.3.ii.d.1.	Calculus.....	101
6.1.3.ii.d.2.	Linear enamel hypoplasia (LEH)	104
6.1.3.ii.d.3.	Caries.....	105
6.1.3.ii.d.4.	Dental wear	105
6.1.3.ii.d.5.	Antemortem tooth loss (AMTL)	105
6.1.3.ii.d.6.	Miscellaneous.....	106
6.1.4.	Summary of the osteological data	106
6.2.	Funerary practices in south-west Copper Age Spain and the implications for social differentiation	107
6.2.1.	Type of funerary structures.....	107
6.2.2.	Burial positions.....	109
6.2.3.	Health status	110
6.3.	Diet as an indicator of social inequality in Copper Age communities.....	111
6.3.1.	Valencina-Castilleja (coastal).....	112
6.3.1.i.	Valencina-Castilleja and Montelirio (both coastal)	112
6.4.	Exchange of goods, trade and mobility in the south-west Spanish Copper Age	115
6.4.1.	Comparisons of Valencina-Castilleja and La Pijotilla.....	115
6.4.2.	Paleodiet vs. locality.....	116
6.4.3.	Non-local demographic distribution.....	116
6.4.4.	Non-local individuals and sex	116
6.4.5.	Non-local individuals and age	117
6.4.6.	Non-local and local individuals and funerary structure.....	118
6.4.6.i.	Valencina-Castilleja.....	118
6.4.6.i.a.	Intra-site analysis at Valencina-Castilleja	118
6.4.6.i.b.	Non-local individuals and sex	118
6.4.7.	The European context: inter-area comparison	119
6.5.	Summary	121

CHAPTER 7. CONCLUSIONS

7.1.	Summary of the study	123
7.1.1.	Summary of results.....	123
7.1.1.i.	Age, sex and stature.....	123
7.1.1.ii.	Health	124
7.1.1.iii.	Diet	124
7.1.1.iv.	Mobility	124
7.1.1.v.	Settlement and funerary context	124
7.1.2.	Addressing the aims, objectives, hypothesis and questions.....	125
7.1.3.	Limitations.....	126
7.1.4.	Future work	127

REFERENCES	129
APPENDICES	
APPENDIX 1. METRICAL DATA	177
A.1.1. Skull and long bone measurements	177
A.1.2. Dental measurements.....	194
A.1.3. Results of indices from long bones from La Pijotilla	245
APPENDIX 2. DATA FROM SOUTH-WEST SPANISH COPPER AGE SITES USED FOR COMPARATIVE ANALYSIS.....	247
A.2.1. Osteological data from south-west Spanish Copper Age sites used for comparative analysis	247
A.2.2. Osteological data from south-west Spanish Copper Age sites used for comparative analysis: paleopathology	250
APPENDIX 3. ABNORMAL VARIATION	255
A.3.1. Abnormal variation: paleopathology: joint disease	255
A.3.2. Abnormal variation: dental paleopathology	260
A.3.3. Abnormal variation: miscellaneous	262
APPENDIX 4. MULTIPLE OBSERVATIONS.....	263
A.4.1. Multiple observations	263
