

# TABLE OF CONTENTS

List of Tables	ix
List of Figures	xii
Preface	xv
1 Introduction	1
The Purpose of this Study	1
The Samples and Their Culture-Regional Context	2
The Da But Period	2
The Da But Period Site: Con Co Ngua	4
The Metal Period	5
The Metal Period Sites	9
The Environmental Context	10
Thesis Structure	11
2 The Samples: Descriptive Skeletal Biology	13
Sample Preservation	13
Sex Estimation	14
Non-Metric Morphological Traits and Sex Estimation	14
The Cranium and Mandible	14
The Pelvis	17
Morphometrics and Sex Estimation	18
Cranium	18
Mandible	18
Maxilla	19
Scapula	19
Humerus	19
Os Coxae	19
Femur	19
Tibia	19
Estimating the Sex of the Vietnamese Skeletal Material	20
Methods and Materials	20
Non-Metric Morphology and Sex Estimation	20
Morphometrics and Sex Estimation	21
Sex Estimation Results	23
Non-Metric Morphological Sex Estimation	23
Morphometric (Discriminant Function) Sex Estimation	23
Final Sex Distribution	26
Estimation of Age-at-Death	26
Estimating Age-at-Death from the Cranial Sutures	26
Estimating Age-at-Death from Epiphyseal Closure	32
Age and the Dentition	33
The Pelvis and Age Estimation	34
The Multi-Factorial Method	35
Summary of Age Estimators	35
Methods and Materials	35
Cranial Sutures	36
Tooth Wear	36
Results	36
(1) Cranial Sutures	36
(2) Tooth Wear	38

Age and Sex Estimation Summary	42
Stature	45
Methods and Materials	46
Results	46
Intra Sample Differences by Element	46
3 Oral Health and Behaviour	51
General Diet and Behaviour Related Traits	51
Dental Caries	51
Calculus	55
Abscesses and Periodontal Disease	55
Tooth Discolouration	57
Developmental and Occlusal Variation Related Traits	57
Non-Dietary Related Traits	58
Tooth Wear	58
Methods and Materials	59
Trait Definitions and Recording Protocols	60
General Diet and Behaviour Related Traits	60
Developmental and Occlusal Variation Related Traits	60
Non-Dietary Related Traits	61
Tooth Wear	61
Oral Trait Reporting Method	62
Results	62
Age and Sex Structure of the Gnathic Samples	62
Oral Traits by Sex and Sample: An Overview	63
Individual Count Analysis	64
Tooth Count Analysis	66
Oral Traits by Tooth Class, Jaw Type and Age	66
General Diet and Behaviour Related Traits	66
Developmental and Occlusal Variation Related Traits	72
Non-Dietary Related Traits	82
Tooth Wear	86
Prevalence of Dental Disease Across the Mouth	90
The Vietnamese Samples Compared with other Southeast Asian Samples	91
Discussion	92
Conclusions	104
Subsistence Strategies	104
Behaviour	105
4 Articular Change	107
A Review of the Literature	107
(1) Classification of Arthritis	107
(2) Pathogenesis of Osteoarthritis	107
Cartilage	107
Bone	108
(3) Risk Factors	110
Intrinsic Factors	110
Extrinsic Factors	113
(4) Identification of Osteoarthritis	114
(5) Common Sites for Osteoarthritis	115
(6) The Role of Bio-Archaeological Studies	115
Articular Change in the Vietnamese Samples	117
Methods and Materials	117
Results	118
Da But Period Sample	118
Metal Period Sample	136
Summary of the Distribution of Articular Change by Sex and Age for Each Sample	147
Discussion and Conclusions	156

Mandibular Condyle Depressions	156
Articular Change	164
5 Markers of Physiological Stress	173
Enamel Hypoplasia	173
Methods and Materials	176
Results	176
Mandibular Canines	176
Maxillary Canines	177
Maxillary and Mandibular Canines Combined	178
Discussion and Conclusions	179
Porotic Hyperostosis	183
Literature Review	184
Methods and Materials	187
Results	188
Cribrra Orbitalia	188
Ectocranial Porosity	191
Discussion and Conclusions	192
6 Case Studies in Vietnamese Palaeopathology	195
Traumatic Lesions	195
Healed Fractures	195
Healed Fracture Case Studies	196
Case Study One	196
Case Study Two	197
Case Study Three	197
Case Study Four	198
Case Study Five	198
Case Study Six	199
Case Study Seven	200
Other Pre-Mortem Trauma Case Studies	201
Case Study Eight	201
Case Study Nine	202
Peri-Mortem Trauma Case Studies	202
Case Study Ten	202
Case Study Eleven	202
Case Study Twelve	204
The Prevalence of Trauma	206
Da But Period and Metal Period Samples	206
Other East Asian Sites	206
Discussion and Conclusions	207
Non-Traumatic Lesions	207
Non-Traumatic Lesion Case Studies	208
Case Study Thirteen	208
Case Study Fourteen	209
Case Study Fifteen	211
Case Study Sixteen	213
Case Study Seventeen	214
Case Study Eighteen	215
Case Study Nineteen	215
Case Study Twenty	216
Case Study Twenty-One	220
Discussion and Conclusions	220
7 Conclusions	223
Health Conclusions and Implications	223
Oral Health	223
Articular Health	224
Physiological Stress in Childhood	224

## *Contents*

Trauma	225
Non-Traumatic Lesions	225
Stature	225
Behavioural Conclusions and Implications	225
Residential Mobility	225
Subsistence	226
Epilogue	227
Bibliography	229
Appendix	251
