

LIST OF CONTENTS

Foreword	vi
Preface	vii
List of contents	ix
List of authors	xiii
List of participants	xv
Seed vigor and germination at different temperatures of near-isogenic lines for the ripening inhibitor (<i>rin</i>) gene <i>W.M. Nascimento, P.P. Silva, L.S. Boiteux and M.E.N. Fonseca</i>	1
Effects of electric conductivity and plant density on lettuce baby leaf production in NFT hydroponic system <i>A.H. Calori, L.F.V. Purquerio, T.L. Factor, S.L. Júnior and L.A.S. Moraes</i>	5
Substrate with coffee powder residue and its influence on tomato germination and seedling growth <i>A.D. Brito, C.C. Figueiredo and C.R. Spehar</i>	11
Grafting eggplant as a control method of soilborne pathogens and nematodes <i>M. Bogoescu</i>	17
Table beet baby leaf production and postharvest in trays with different cell volumes <i>L.F.V. Purquerio, J. Sanches, A.H. Calori, S.W. Tivelli and T.L. Factor</i>	23
Progeny selection from natural hybrids of 'BRS Alegria' <i>Amaranthus cruentus</i> <i>C.R. Spehar and E.C. Santos</i>	31
Yield and quality of table beet in function of plant establishment method and production system <i>T.L. Factor, L.F.V. Purquerio, J.M. de C. Silveira, S. Lima Jr. and A.H. Calori</i>	37
Cell size effect on lettuce transplant growth and establishment in relation to physiological age at transplanting <i>M. Garbi, M.A. Sangiacomo and H. Martí</i>	43
Effects of light, temperature and mesocarp on germination of juçara-palm (<i>Euterpe edulis</i>) seeds <i>S. Kanashiro, F.F.A. Aguiar, P. Giampaoli, R.C.S. Ribeiro and A.R. Tavares</i>	47
Seed quality and establishment of carrots (<i>Daucus carota</i>) in Brazil from imported cultivars <i>E.H.B. Gois, A.F. Antunes, D.R. Siqueira, R.C. Pereira and C.B. Lima</i>	51
Characterization and determination of phenotypic similarity among <i>Cucurbita moschata</i> accessions from northeastern Brazil <i>R.M.E. Borges, G.M. Resende, N.P.S. Gonçalves, E.S.A. Loura and C.S. Landim</i>	57
Effect of pre-germinal treatment and temperature on the germination of achenes of <i>Baccharis dracunculifolia</i> DC <i>R.F. Santos, A.C.E. Amaro, E.L. Carmo, A.R.P. Ramo and D.R. Buso</i>	63

Decomposed <i>Attalea phalerata</i> Mart. ex Spreng wood trunk as an alternative of substrate for basilicum transplant production <i>P.N.L. Silva, M.H.A. Jorge, W.B. Almeida and E. Costa</i>	69
Germination of broccoli organic seeds treated with thermotherapy <i>F. Soriano, M.T.R. Claudio and A.I.I. Cardoso</i>	73
Reaction of sweet potato cultivars to foot-rot (<i>Plenodomus destruens</i>) by three inoculation methods in greenhouse <i>R.B. Pereira, G.B. Amaro, G.C. Lucas, L.S. Mendes and J.B. Pinheiro</i>	79
Influence of biostimulants on the physiological quality of pepper and cucumber seeds <i>M. Fagioli, M.L.A. Barreto, E.R. Andrade and N.O.S. Souza</i>	83
Effect of fertilizers and compounds resistance inducers in the agronomic performance of cultivars of processing tomato <i>K.G. Coimbra, J.R. Peixoto, M.R. Santim and M.S. Nunes</i>	91
Reaction of sweet potato clones to the genre root knot nematodes <i>Meloidogyne</i> spp. <i>D.S. Nóbrega, J.R. Peixoto, J.K.A. Mattos, P. Schrammel and C.E. Souza</i>	97
"Thief" shoots on rootstocks grafted with net melons <i>L.A. Ito, L.A. Gaion, F.S. Galatti and L.T. Braz</i>	103
The use of three commercial rootstocks and their influence on yield of 'Bily' a blocky pepper cultivar <i>F. Doñas, M.M. Jiménez, J.A. Góngora, D. Pérez, D. Verde and F. Camacho</i>	107
Physicochemical evaluation in accessions of sweet potato cultivated in Distrito Federal <i>D.C. Kalkmann, J.R. Peixoto and S.M.L. Greco</i>	113
Lettuce transplant production in different substrates and shadings <i>L.M. Donato, W.F. Mota, I. Aspiazú, F.Q.G. Alves and M.M. Silva</i>	119
Establishment of carrot populations (<i>Daucus carota</i> L.) in areas naturally infested by root-knot nematodes <i>J.B. Pinheiro, A.D.F. Carvalho, C.S. Rodrigues, E.M. Cruz, R.B. Pereira and J.V. Vieira</i>	125
Tomato transplant growth and leaf nutrient uptake using different nutrient solutions in the tropics <i>H.O. Ramírez-Guerrero and C.A. Meza-Figueroa</i>	131
Using compost and vermicompost for enrichment of alternative local substrate medium in bell pepper transplant production <i>C.A. Meza-Figueroa, D.G. Gualdron-Linares and H.O. Ramírez-Guerrero</i>	135
The effects on growth, earliness and yield of transplant in comparison with direct-seeded in sweet corn (<i>Zea mays</i> L.) <i>C.A. Bouzo and J.C. Favaro</i>	141
Lettuce and table beet baby leaf production in function of nitrogen doses <i>L.A.S. Moraes, L.F.V. Purquerio, A.H. Calori, T.L. Factor and T.R. Doratioto</i>	147

Seed germination and mucilage production in chia (<i>Salvia hispanica</i>) <i>R. Geneve, D. Hildebrand, T. Phillips, J. Kirk and M. Al-Amery</i>	153
Photosynthetic response curve of grafted and non-grafted Japanese cucumber plants in relation to irradiance <i>A.C.E. Amaro, A.C. Macedo, R. Goto, E.O. Ono and J.D. Rodrigues</i>	157
Seed physiological quality of sweet corn <i>N.O.S. Souza, M. Fagioli, M.C. Pereira and D.A. Farias</i>	161
Assessment of effective factors on breaking seed dormancy in <i>Prunus dulcis</i> (Mill.) D.A. Webb <i>Z. Rafiei, V. Rouhi, S. Houshmand and A. Mohamadkhani</i>	167
Evaluation of processing tomato seed quality using different vigor tests <i>P.P. Silva, R.A. Freitas and W.M. Nascimento</i>	175
Selection of carrot progenies for seed germination at high temperatures <i>A.D.F. Carvalho, P.P. Silva, G.O. Silva, W.M. Nascimento and C.V.A. Souza</i>	181
Growth analysis of sweet potato cultivars using the float system greenhouse <i>J.M. Souza, A.F. Valente, R.A. Cassimiro, T.P. Campos, F.R. Fernandes, G.B. Amaro, D.B. Zandonadi and A.W. Moita</i>	185
Chemical and genetic control of the <i>Fusarium</i> species complex in chickpea and their effects on stand establishment under highland subtropical conditions <i>O.P. Artiaga, C.R. Spehar, P.P. Silva, W.M. Nascimento and L.S. Boiteux</i>	189
Vegetable seed production under conventional and organic farming systems <i>D.A.A. Teles, P.P. Silva and W.M. Nascimento</i>	193
Physiological and phytosanitary potential of cucumber seeds <i>J.F. Vieira, F.A. Villela, C.A. Rufino, L.M. Oliveira and A.C.S.A. Barros</i>	195
Tomato hybrid seed production using stored pollen grains: temperature and storage time interactions and their effects on pollen viability <i>J.G.S. Filho, A.C. Torres, W.M. Nascimento and L.S. Boiteux</i>	201
Physiological seed quality of 'BRS Mari' hot pepper during seed development and maturation <i>E.V. Justino, A.C. Amaral-Lopes, P.P. Silva and W.M. Nascimento</i>	205
Physiological and sanitary quality of kale seeds <i>J.F. Vieira, J.S. Abreu Júnior, F.R. Castanho, T.L. Almeida, F.A. Villela and C.A. Rufino</i>	209
Evaluation of physiological and health quality of lettuce seeds <i>J.F. Vieira, F.A. Villela, C.A. Rufino, V.N. Soares, F.R. Castanho and A.C.S.A. Barros</i>	215
Apical pruning on cucumber seed yield and quality <i>P.G. Nakada, M.T.R. Claudio, A.E.B. Tavares, E.M. Bardivieso and A.I.I. Cardoso</i>	221
Biostimulant action on quality of tomato seedlings produced in different types of trays <i>E.G. Silva, W.H.S. Takata, A.G. Frias, R. Goto and N. Nobuyoshi</i>	227
