<i>Preface</i>	<i>page ix</i>
1 Introduction: the analytical framework	1
1 The concept of the industry	1
2 The structure–conduct–performance paradigm	3
3 The welfare basis in industrial economics	5
4 Alternative schools of thought	10
Notes on the literature	14
Guides to the book	15
2 Classical theories of oligopoly	17
1 Classical theories with undifferentiated products	18
2 Heterogeneous products	26
3 Reaction functions and the stability of solutions	32
4 Some welfare considerations	34
Notes on the literature	35
3 Oligopoly: the game-theoretic approach	37
1 Some simple examples	37
2 Further analysis of non-cooperative equilibria	41
3 Cooperative equilibria	47
4 Experimental gaming in oligopoly	52
Notes on the literature	55
4 A consideration of the effects of potential entry	56
1 Basic concepts	57
2 The formulation of limit price	58
3 Alternative equilibria under the Sylos postulate	61
4 Some extensions to the basic model	65
5 Alternative beliefs and first mover advantages	69
6 Long run profit maximisation	74
7 Some comments on welfare	79
Notes on the literature	81

5	Monopoly power in vertically related markets	82
1	Successive and mutually related market power	83
2	Vertical integration: concepts and motives	89
3	Vertical integration: some important considerations	92
4	Bilateral monopoly	99
	Notes on the literature	106
6	Models of product differentiation	107
1	Product quality	107
2	The demand for characteristics	110
3	The relevance of spatial competition	114
4	Predictions of the effects of product differentiation	118
5	Extensions and comparisons	121
6	Product differentiation and welfare	124
	Notes on the literature	127
7	Advertising	128
1	The Dorfman–Steiner condition and some extensions	128
2	Effects of market structure on advertising	131
3	The effects of advertising on market power	134
4	Advertising, information and welfare	136
	Notes on the literature	141
8	Technical change and market structure	142
1	Definitions and models	143
2	Discrete innovations, market structure and appropriability	146
3	The impact of uncertainty	151
4	Diffusion processes	152
5	Imitation and rivalry	156
6	Endogeneity of market structure	159
7	The economics of patents	161
	Notes on the literature	164
9	The determinants of market structure	166
1	Measurement of industry concentration	166
2	Determinants of the level of concentration	174
3	The dynamics of industry structure	181
4	Concentration and welfare	185
	Notes on the literature	188
10	A guide to the empirical work	189
1	The central hypothesis: structure influencing profitability	190
2	Further considerations and results	197
3	Relationships involving advertising	201

	<i>Contents</i>	vii
4	Other common hypotheses	205
5	Simultaneous equation systems	207
6	Profitability and public policy	209
	Notes on the literature	211
	<i>Notes</i>	213
	<i>References</i>	223
	<i>Index</i>	238
