

CONTENTS

PART I BASIC CONCEPTS

- 1 Introduction, 3**
 - 1.1 Preliminary Remarks, 3
 - 1.2 U.S. Exchange Rates, 1947–1993, 4
 - 1.3 U.S. Current Account, 1947–1993, 6
 - 1.4 Alternative International Arrangements, 8
 - 1.5 A Look Ahead, 10
- 2 Exchange Rate Concepts, 14**
 - 2.1 Bilateral Rates: Spot and Forward, 14
 - 2.2 Interest Parity, 20
 - 2.3 Average Exchange Rates, 24
 - 2.4 Real Exchange Rates, 26
 - 2.5 Purchasing Power Parity, 27
 - 2.6 PPP and Nontraded Goods, 32
 - 2.7 U.S. Spot Rates, 1947–1993, 35
 - Appendix: Foreign Exchange Options, 35
- 3 Balance-of-Payments Accounts, 43**
 - 3.1 Basic Concepts, 43
 - 3.2 U.S. Accounts, 45
 - 3.3 BOP and National Income Accounts, 54
 - 3.4 Additional Statistical Material, 66
- 4 Historical Perspective, 68**
 - 4.1 Introduction, 69
 - 4.2 The Gold Standard, 70
 - 4.3 From 1800 to 1914, 78
 - 4.4 From 1918 to 1945, 80
 - 4.5 Bretton Woods, 1947–1971, 83
 - 4.6 Floating Exchange Rates, 1973–1994, 86

PART II ANALYTICAL CORE

- 5 A Basic Model: Building Blocks, 97**
 - 5.1 Preliminaries, 97
 - 5.2 The Open-Economy IS Relation, 98

- 5.3 Open-Economy LM Function, 102
 - 5.4 Two Identities, 105
 - 5.5 Uncovered Interest Parity, 107
 - 5.6 Completion of the Model, 108
- 6 Long-Run and Short-Run Analysis, 111**
- 6.1 Long-Run Analysis: Stationary States, 111
 - 6.2 Long-Run Analysis: Steady States, 115
 - 6.3 Short-Run Analysis, 121
 - 6.4 Discussion, 123
 - 6.5 Representation of Monetary Policy Actions, 124
 - 6.6 A Two-Country Framework, 126
Appendix, 129
- 7 Analysis with Fixed Exchange Rates, 135**
- 7.1 Loss of Monetary Autonomy, 135
 - 7.2 Impact and Stationary-State Analysis, 140
 - 7.3 Steady-State Analysis, 144
 - 7.4 Imperfect Capital Mobility, 145
 - 7.5 Current-Account Balance, 147
 - 7.6 The J-Curve Effect, 152
Appendix, 154
- 8 Expectations and Dynamic Analysis, 159**
- 8.1 Introduction, 159
 - 8.2 Preliminary Analysis, 160
 - 8.3 Expectations, 163
 - 8.4 Rational Expectations, 164
 - 8.5 Analysis with Rational Expectations, 167
 - 8.6 Solution Procedure, 169
 - 8.7 Properties of the Solution Process, 171
 - 8.8 More Realism in Specification, 173
 - 8.9 Model with Sticky Prices, 178
 - 8.10 Conclusion, 182
Appendix: Two Properties of Mathematical Expectations, 182
- 9 Empirical Evidence, 187**
- 9.1 Introduction, 187
 - 9.2 Money Demand and Saving-Investment Relations, 187
 - 9.3 Interest Parity, 189
 - 9.4 Apparent Failure of UIP, 192
 - 9.5 Price-Level Stickiness, 198
 - 9.6 Long-Run Purchasing Power Parity, 200

PART III APPLICATIONS

- 10 Fixed versus Floating Exchange Rates, 207**
 - 10.1 Introduction, 207
 - 10.2 Microeconomic Efficiency, 209
 - 10.3 Macroeconomic Flexibility, 211
 - 10.4 Rules versus Discretion in Monetary Policy, 215
 - 10.5 Rules, Discretion, Discipline, and Exchange Rates, 219
 - 10.6 Intermediate Arrangements, 223
 - 10.7 Conclusions, 224

- 11 The European Monetary System, 227** 
 - 11.1 Background, 227
 - 11.2 The EMS as of December 1991, 229
 - 11.3 The Maastricht Treaty, 234
 - 11.4 Post-Maastricht Developments, 239
 - 11.5 Alternative Forms of ECU, 242

- 12 International Policy Cooperation, 248**
 - 12.1 Introduction, 248
 - 12.2 The Case for Coordination, 249
 - 12.3 Macroeconomic Coordination, Continued, 250
 - 12.4 Qualifications, 253
 - 12.5 Attempts at Coordination, 1973–1993, 256
 - 12.6 Optimal Currency Areas, 258
 - 12.7 Concluding Remarks, 260

INDEX, 264
