<i>Preface to the third edition</i>	xi
<i>Preface to the second edition</i>	xiii
<i>Preface to the first edition</i>	xv
<i>Acknowledgements</i>	xvii
1 INTRODUCTION	1
1.1 <i>Introduction</i>	1
1.2 <i>Characteristics of the less-developed countries</i>	①
1.3 <i>Types of markets in less-developed countries</i>	③0
1.4 <i>Production conditions in less-developed countries</i>	30
1.5 <i>Growth and development</i>	③4
1.6 <i>Human development index</i>	③7
<i>Appendix 1A Measurement of income inequality</i>	40
<i>Appendix 1B A note on production functions</i>	42
 Part I The economic theory of growth and development	
2 GROWTH THEORIES AND THEIR RELEVANCE TO LESS-DEVELOPED COUNTRIES	49
2.1 <i>Introduction</i>	49
2.2 <i>Classical scenario</i>	49
2.3 <i>The Keynesian theory and less-developed countries</i>	⑤1
2.4 <i>The Harrod-Domar model and its applications</i>	54
2.5 <i>The neoclassical theory and less-developed countries</i>	⑤6
2.6 <i>Marx's theory and less-developed countries</i>	61
2.7 <i>The Kaldor-Mirrlees model</i>	67
2.8 <i>The neoclassical growth accounting formula and the new endogenous growth theory</i>	70
<i>Appendix 2 The basic equations of the neoclassical economic growth model</i>	75
3 DUAL ECONOMY MODELS	79
3.1 <i>Introduction</i>	79

CONTENTS

3.2	<i>The 'surplus' of labour and its contribution to development</i>	79
3.3	<i>The Fei-Ranis model</i>	84
3.4	<i>The Jorgenson model</i>	89
3.5	<i>Some extensions of the dual economy models: Dixit-Marglin model</i>	92
3.6	<i>The Kelly et al. model</i>	93
3.7	<i>Dual economy models: a critique</i>	93
Appendix 3		97

Part II Investment, saving and population in less-developed countries

4	ALLOCATION OF RESOURCES: INVESTMENT CRITERIA	101
4.1	<i>The need for investment criteria in less-developed countries</i>	101
4.2	<i>The capital turnover criterion</i>	102
4.3	<i>The social marginal productivity criterion</i>	103
4.4	<i>The maximization of the rate of creation of investible surplus principle</i>	104
4.5	<i>The reinvestible surplus criterion</i>	106
4.6	<i>Balanced and unbalanced growth</i>	113
Appendix 4 <i>The dichotomy between savings and output maximization and its solution</i>		117
5	DOMESTIC RESOURCES FOR DEVELOPMENT	119
5.1	<i>Introduction</i>	119
5.2	<i>The nature of money markets in less-developed countries</i>	119
5.3	<i>Money and economic growth</i>	120
5.4	<i>Inflation and economic growth</i>	122
5.5	<i>Objectives of fiscal policy in less-developed countries</i>	128
5.6	<i>Fiscal policy and growth</i>	128
5.7	<i>Deficit financing and less-developed countries</i>	133
5.8	<i>The tax structure in less-developed countries</i>	134
5.9	<i>Taxation and domestic resource mobilization in less-developed countries: the recent evidence</i>	141
5.10	<i>Tax reforms in less-developed countries in the 1980s</i>	143
6	FOREIGN RESOURCES AND ECONOMIC DEVELOPMENT	145
6.1	<i>Introduction</i>	145
6.2	<i>The concept of foreign resources</i>	145
6.3	<i>Criteria for distribution of foreign resources</i>	146

CONTENTS

6.4	<i>Different types of foreign resource: tied and untied; bilateral and multilateral; project and programme</i>	150
6.5	<i>Foreign resources for projects or plans</i>	151
6.6	<i>Bilateral and multilateral financing</i>	152
6.7	<i>Dual-gap analysis and its evaluation</i>	154
6.8	<i>Gains and losses of investment by the multinational corporations in less-developed countries: some theoretical issues</i>	158
6.9	<i>Private foreign investment and the transfer of technology to less-developed countries</i>	164
6.10	<i>Special drawing rights and the 'link'</i>	173
6.11	<i>Foreign aid and economic growth</i>	180
7	POPULATION, POVERTY AND INCOME DISTRIBUTION, EMPLOYMENT AND MIGRATION	231
	<i>with Leo Katzen</i>	
7.1	<i>Population and economic development</i>	231
7.2	<i>Population explosion in less-developed countries and the theory of demographic transition</i>	233
7.3	<i>Low-level equilibrium trap</i>	234
7.4	<i>Fertility and population growth in less-developed countries</i>	236
7.5	<i>Poverty and income distribution</i>	242
7.6	<i>Income inequality</i>	243
7.7	<i>Absolute poverty</i>	246
7.8	<i>Redistribution with growth</i>	250
7.9	<i>The employment problem</i>	252
7.10	<i>The Todaro model</i>	254
7.11	<i>Migration theory and evidence: an assessment</i>	260
7.12	<i>Stark's model</i>	263
7.13	<i>Employment policy</i>	263
Appendix 7A	<i>The definition of a poverty line</i>	265
Appendix 7B	<i>Schultz's model of the household production approach to fertility</i>	267

Part III Sectoral development and planning

8	SECTORAL ALLOCATION OF RESOURCES: AGRICULTURE	271
8.1	<i>Introduction</i>	271
8.2	<i>The role of agriculture in economic development</i>	271
8.3	<i>The concept of 'marketed surplus'</i>	273
8.4	<i>A model to mobilize agricultural surplus</i>	278

CONTENTS

8.5	<i>Acreage response to prices</i>	281
8.6	<i>Marketed surplus, size-holdings and output</i>	285
8.7	<i>Limitations of price policy and some alternatives</i>	288
8.8	<i>Conclusions</i>	289
9	GREEN REVOLUTION AND INCOME DISTRIBUTION	291
9.1	<i>Introduction</i>	291
9.2	<i>The nature of the Green Revolution</i>	291
9.3	<i>Causes of the Green Revolution</i>	297
9.4	<i>Effects of the Green Revolution on income: a simple theory</i>	302
9.5	<i>Effects of the Green Revolution on relative factor shares</i>	303
9.6	<i>Problems and prospects of the Green Revolution</i>	306
9.7	<i>The basic needs approach</i>	308
9.8	<i>Growth theory and basic needs</i>	310
9.9	<i>A note on famines</i>	314
10	INDUSTRIALIZATION, PROTECTION AND TRADE POLICIES	320
10.1	<i>Major reasons for industrialization in less-developed countries</i>	320
10.2	<i>The role of tariffs in economic development</i>	321
10.3	<i>The optimum tariff argument</i>	321
10.4	<i>The infant industry argument</i>	324
10.5	<i>Distortions in the factor markets</i>	327
10.6	<i>The balance of payments argument</i>	328
10.7	<i>The employment argument</i>	329
10.8	<i>'Nominal' and 'effective' rates of protection</i>	329
10.9	<i>The 'cost' of protection</i>	336
10.10	<i>Economic growth and trade</i>	338
10.11	<i>Terms of trade between developed countries and less-developed countries</i>	340
10.12	<i>Export instability and economic growth in less-developed countries</i>	342
10.13	<i>The role of the United Nations Conference on Trade and Development and some trade policies to help less-developed countries</i>	344
10.14	<i>Non-tariff barriers, generalized system of preferences and trading blocks</i>	347
10.15	<i>Regional co-operation among less-developed countries</i>	348
10.16	<i>Trade liberalization and industrialization</i>	349
10.17	<i>The north-south models and intra-industry trade</i>	356
10.18	<i>Conclusion</i>	357
Appendix 10	<i>Indices of instability of exports</i>	358

CONTENTS

11	DEVELOPMENT PLANNING	361
	11.1 <i>Concept of economic planning</i>	<u>361</u>
	11.2 <i>Types of planning</i>	<u>361</u>
	11.3 <i>Economic models and economic planning</i>	<u>362</u>
	11.4 <i>The case for and against planning</i>	<u>363</u>
	11.5 <i>Development planning models</i>	<u>365</u>
	11.6 <i>Application of the Harrod-Domar model in development planning: India's First Five Year Plan</i>	367
	11.7 <i>A two-sector Harrod-Domar model for planning: the Kenyan case</i>	368
	11.8 <i>Feldman-Mahalanobis sectoral planning and the Indian Second Five Year Plan</i>	368
	11.9 <i>Macroeconometric models in development planning</i>	<u>371</u>
	11.10 <i>Input-output analysis in development planning</i>	374
	11.11 <i>Linear programming and development planning</i>	378
	11.12 <i>Micro-planning: aims of cost-benefit analysis</i>	384
	11.13 <i>The Little and Mirrlees method of project evaluation in less-developed countries</i>	389
	11.14 <i>The United Nations Industrial Development Organization (1972) guidelines</i>	394
	11.15 <i>Social accounting and development planning (by Barbara M. Roberts)</i>	397
	<i>Appendix 11 The Feldman-Mahalanobis model</i>	402

Part IV A new deal in commodity trade?

12	THE NEW INTERNATIONAL ECONOMIC ORDER	409
	12.1 <i>Introduction</i>	409
	12.2 <i>The evolution of the new international economic order</i>	411
	12.3 <i>The main objectives of a new international economic order</i>	413
	12.4 <i>The theory of commodity price stabilization: demand/supply shifts</i>	414
	12.5 <i>Commodity price stabilization: gains and losses</i>	416
	12.6 <i>Implications of international commodity agreements, buffer stocks and compensatory finances</i>	419
	12.7 <i>Conclusion</i>	421
13	THE INTERNATIONAL DEBT CRISIS	424
	<i>by Nigel M. Healey</i>	
	13.1 <i>Introduction</i>	424
	13.2 <i>The evolving debt position of the developing world</i>	425
	13.3 <i>Why do developing countries become indebted?</i>	428

CONTENTS

13.4	<i>Sources of external finance</i>	430
13.5	<i>Why do debt servicing problems arise?</i>	432
13.6	<i>The external dimensions of the 1982 crisis</i>	433
13.7	<i>Phase one: 'muddling through' the debt crisis, 1982-9</i>	436
13.8	<i>Phase two: debt forgiveness and the Brady Plan</i>	443
13.9	<i>Conclusions</i>	448
14	ENVIRONMENT AND DEVELOPMENT	450
14.1	<i>Introduction</i>	450
14.2	<i>Deforestation and macroeconomic environment</i>	451
14.3	<i>'Tragedy of the commons'</i>	452
14.4	<i>Externalities, natural resource degradation and economic policies</i>	455
14.5	<i>A case study: the importance of fuelwoods in household energy consumption</i>	459
14.6	<i>An alternative farming system: alley cropping in humid West African agriculture</i>	466
	<i>Bibliography</i>	470
	<i>Index</i>	507
