Contents

Preface to the English edition v

Introduction 1
1. Subject matter 1
2. The method 4

Chapter 1. A rough subcategorization of adverbials 7

Chapter 2. Subcategorization of adverbials 15
1. The method used for the subcategorization of adverbials 15
2. Subcategorization of sentence adverbials 19
3. The main differences between sentence adverbial constructions and their paraphrases without sentence adverbials 28
4. Is 'nicht' a sentence adverb of one of the types K_0–K_6? 33

Chapter 3. On the semantic characterization of sentence adverbial constructions 37
1. The functional–'inhaltsbezogene' characterization 37
2. The formal characterization 37
3. An attempt to characterize sentence adverbials as predicates 38
4. The model theoretical approach 43
5. The pragmatic approach 45
6. An attempt to understand sentence adverbials in their performative function 47
7. Adverbials with metacommunicative function 56

Chapter 4. Preliminary remarks on logical analysis 65
1. Definite and indefinite descriptions 65
2. Further individual variables and constants 72
3. Logical analysis of subject and object clauses 77

Chapter 5. Logical analysis of sentence adverbial constructions 83
1. K_0-constructions 83
2. K_1-constructions 84
3. Alternative analyses to the previous inadequate analyses of K_0 and K_1-adverbial constructions 85
4. Logical analysis of K_2-constructions 91
5. Logical analysis of K_3-adverbial constructions 95
6. Logical analysis of K_4-adverbial constructions 96
7. Logical analysis of K_5-adverbial constructions 99
8. Logical analysis of K_6-adverbial constructions 99
9. Summary of the analyses proposed for the K_i-adverbials 99

Chapter 6. Relational adverbial constructions 101
1. The difference between sentence adverbials and relational adverbials 101
2. The 'cause–consequence' relation 103
3. The 'means–purpose' relation 105
4. Temporal relations 107
5. Conditional, concessive, and adversative relations 108

Chapter 7. Logical analysis of relational adverbial constructions 115
1. General representation 115
2. Temporal adverbial constructions 116
3. 'Pure' temporal adverbials 117

Chapter 8. Locative adverbial constructions as a special class of relational adverbial constructions 121

Chapter 9. Logical analysis of locative and directional adverbial constructions 131
1. Prepositional phrases 131
2. The so-called 'pure' locative adverbs 137

Chapter 10. Adverbial attribution to the sentence subject or the direct object 141

Chapter 11. Manner adverbial constructions 149
1. Delimitation *vis-à-vis* the adverbials discussed so far 149
2. Subcategorization of manner adverbial constructions 152

Chapter 12. Logical analysis of manner adverbial constructions 165
1. The logical analysis 165
2. Coordinates for the determination or description of individuals 170
3. Lakoff's proposal for the representation of manner adverbs and his criticism of Parson's representations 172

Chapter 13. Adverbial constructions which admit paraphrases with the sentence connectives 'wobei' ('dabei') ('in doing so') and 'wozu' ('dazu') ('for which') 177
1. Instrumental adverbials 178
2. Cooperational adverbials 181
3. Manner adverbials of class Mod_2 182

Chapter 14. Comparative adverbial constructions 187

Chapter 15. Adverbials with quantifying or grading function 193
1. The use of cardinality quantifiers 193
2. Quantifying and grading adverbials 199
3. The logical analysis of grading adverbials 215

Chapter 16. Adverbials limiting predication 221

Chapter 17. Combinations of adverbials 227
1. A criticism of Steinitz's theory of adjunction 227
2. Adjunction and coordination of sentence adverbials 234
3. Combinations of sentence adverbials with other adverbials 248
4. Combinations of relational adverbials 257
5. Combinations of relational adverbials with locative and directional adverbials 268
6. Combinations of relational adverbials with attributive adverbials 271
7. Combinations of relational adverbials with cooperational adverbials 272
8. Combinations of relational adverbials with instrumental adverbials 274
9. Combinations of relational adverbials with manner adverbials 275
10. Combinations of relational adverbials with grading adverbials 276
11. Combinations of adverbials attributive to subject or object 278
12. Combinations of A_{att} with A_{loc} or A_{dir} 279
13. Combinations of A_{att} with A_{coop} 280
14. Combinations of A_{att} with A_{inst} 281
15. Combinations of A_{att} with A_{mod} 282
16. Combinations of A_{att} with A_{grad} 283
17. Combinations of locative and directional adverbials 283
18. Combinations of A_{loc} and A_{dir} with A_{coop} 285
19. Combinations of A_{loc} and A_{dir} with A_{inst} 287
20. Combinations of A_{loc} and A_{dir} with A_{mod} 288
21. Combinations of A_{loc} and A_{dir} with A_{grad} 289
22. Combinations of cooperational adverbials 291
23. Combinations of A_{coop} with A_{mod} 291
24. Combinations of A_{coop} with A_{inst} 292
25. Combinations of A_{coop} with grading adverbials 293
26. Combinations of instrumental adverbials 294
27. Combinations of A_{inst} with A_{mod} 294
28. Combinations of A_{inst} with A_{grad} 295
29. Combinations of manner adverbials 296

30. Combinations of A_{mod} with A_{grad} 309
31. Combinations of grading adverbials 309
32. Combinations of adverbials with adverbials that quantify the range of events 310

Chapter 18. Negation and adverbial constructions 317

Chapter 19. The 'Semantics of Adverbials' and the recent development in modal logic 323
1. Adverbs and quantifiers 325
2. Adverbials and opacity 340

Chapter 20. Linguistic works on adverbials 347
1. Recent American works 347
2. The 'Semantics of Adverbials' and Steinitz's 'Syntax of Adverbials' 359

Chapter 21. Constitution of adverbial schemes: a summary 367
1. Syntax of the multi-sorted predicate logic 369
2. Syntactic description of adverbial constructions 371
3. Translation rules between the syntax of multi-sorted predicate logic and categorial syntax 373
4. Examples for the generation and interpretation of adverbial constructions 377

Bibliography 387
