

CONTENTS

Preface	vii
Introduction	1
PART I: CONSERVATIVE APPROACHES	
Towards a Semantics of Precization <i>Manfred Pinkal</i>	13
Vagueness or Context-Dependence? Supervaluation Revisited in a Semantics Based on Scales <i>Joachim Ballweg</i>	59
Three-Valued Analysis of Precise, Vague and Presupposing Quantifiers <i>Ulrich Blau</i>	79
A Formal Theory of Context Dependence and Context Change <i>Hans-Jürgen Eikmeyer and Hannes Rieser</i>	131
'Vagueness' is Context-Dependence. A Solution to the Sorites Paradox <i>Peter Bosch</i>	189
PART II: ALTERNATIVE APPROACHES	
Fuzzy Logic and Modal Logic <i>Günter Todt</i>	213
Fuzzy Grammatical Categories <i>Thomas T. Ballmer</i>	261
A Door's Closing - A Contribution to the Vagueness Semantics of Tense and Aspect <i>Waltraud Brennenstuhl</i>	293

Modelling Vagueness in Catastrophe-Theoretic Semantics <i>Wolfgang Wildgen</i>	317
Two Approaches to Vagueness: Theory of Interaction and Topology <i>Walther Kindt</i>	361
A Nominalistic Approach to Ambiguity and Vagueness Considered from a Mildly Platonistic Point of View <i>Hans-Jürgen Eikmeyer and Hannes Rieser</i>	393
Subject Index	423
Name Index	427
