

# Contents

<b>1</b>	<b>Introduction</b>	<b>1</b>
1.1	A Call to the Digital Humanities	1
1.2	Brief Overview of Digital Humanities	2
1.3	How This Book Is Arranged	3
1.4	Only the Beginning	3
	References	4
<b>2</b>	<b>Introductory Programming—Common Topics</b>	<b>5</b>
2.1	The Introductory Programming Curriculum	5
2.2	The Topics, as Suggested by the Curricula 2013 Report	6
2.3	Topics of a Typical Introductory Programming Course in Python	7
2.3.1	Introduction to Computer Basics and Programming	7
2.3.2	Accessing the IDE and Basic Python Syntax	8
2.3.3	Variables, Numbers, and Expressions	8
2.3.4	Instantiating Objects and Introduction to Graphics in Python	9
2.3.5	Working with Strings and Other Sequence Structures	9
2.3.6	Using Pre-Defined Functions and Creating User-Defined Functions	10
2.3.7	Creating and Testing Branching Structures	10
2.3.8	Creating and Managing Looping Structures	11
2.3.9	Working with Lists and Arrays	11
2.3.10	Program Algorithms and the Design Process	12
2.3.11	Brief Introduction to Object-Oriented Programming in Python	12
2.4	Basic Approaches to Teaching the Topics	12
	References	13

<b>3</b>	<b>Digital Humanities—Special Considerations for the Programmer</b> . . . . .	15
3.1	Digital Humanities Programming . . . . .	15
3.2	Popular Analytical Approaches to Digital Humanities . . . . .	16
3.3	Special Considerations in Digital Humanities . . . . .	17
	References . . . . .	19
<b>4</b>	<b>Introduction to the Digital Humanities Assignments</b> . . . . .	21
4.1	Finding the Balance Between CS and DH . . . . .	21
4.2	General Assignment Management Tips . . . . .	22
4.3	Assignment Chapter Features . . . . .	23
	Reference . . . . .	26
<b>5</b>	<b>Change Over Time: Burials in an Historic Cemetery</b> . . . . .	27
5.1	The Phenomenon of Change . . . . .	27
5.2	The Change Over Time Assignment . . . . .	29
5.3	Assignment Files and External Resources . . . . .	31
5.4	Skills Utilized in This Assignment . . . . .	31
5.5	Assignment Management Techniques and Issues . . . . .	31
5.6	Atomic Code for This Assignment . . . . .	32
5.7	Expected Output from Student Work . . . . .	34
5.8	Assignment Variations . . . . .	34
5.8.1	For Novice Students (Taking an Introductory Programming Course) . . . . .	34
5.8.2	For Intermediate Students (Taking a Python Programming Course) . . . . .	34
5.8.3	For Advanced Students (Taking a Software Engineering or Capstone Course) . . . . .	35
5.8.4	For Secondary School (Grades 7–12) Students . . . . .	35
5.8.5	For Digital Humanities Students . . . . .	36
<b>6</b>	<b>Visualizing Change Over Time: Simple Visualization of the Burials in an Historic Cemetery</b> . . . . .	37
6.1	A Language of Lines, Colors, and Textures . . . . .	37
6.2	The Visualizing Change Over Time Assignment . . . . .	39
6.3	Assignment Files and External Resources . . . . .	42
6.4	Skills Utilized in This Assignment . . . . .	42
6.5	Assignment Management Techniques and Issues . . . . .	42
6.6	Atomic Code for This Assignment . . . . .	43
6.7	Expected Output from Student Work . . . . .	44
6.8	Assignment Variations . . . . .	44
6.8.1	For Novice Students (Taking an Introductory Programming Course) . . . . .	44
6.8.2	For Intermediate Students (Taking a Python Programming Course) . . . . .	45

- 6.8.3 For Advanced Students (Taking a Software Engineering or Capstone Course) . . . . . 45
- 6.8.4 For Secondary School Students . . . . . 45
- 6.8.5 For Digital Humanities Students . . . . . 46
- 7 Textual Analysis: Frequencies and Stop Words in Dirty Text . . . . . 47**
  - 7.1 Writers Make Decisions . . . . . 47
  - 7.2 The Frequencies and Stop Words Assignment . . . . . 49
  - 7.3 Assignment Files and External Resources . . . . . 51
  - 7.4 Skills Utilized in This Assignment . . . . . 52
  - 7.5 Assignment Management Techniques and Issues . . . . . 52
  - 7.6 Atomic Code for This Assignment . . . . . 53
  - 7.7 Expected Output from Student Work . . . . . 55
  - 7.8 Assignment Variations . . . . . 56
    - 7.8.1 For Novice Students (Taking an Introductory Programming Course) . . . . . 56
    - 7.8.2 For Intermediate Students (Taking a Python Programming Course) . . . . . 56
    - 7.8.3 For Advanced Students (Taking a Software Engineering or Capstone Course) . . . . . 56
    - 7.8.4 For Secondary School Students . . . . . 56
    - 7.8.5 For Digital Humanities Students . . . . . 57
  - References . . . . . 57
- 8 Code Transformation: From XML to Stylized HTML . . . . . 59**
  - 8.1 The Magical Aura Around Computers . . . . . 59
  - 8.2 The Code Transformation Assignment . . . . . 60
  - 8.3 Assignment Files and External Resources . . . . . 63
  - 8.4 Skills Utilized in This Assignment . . . . . 63
  - 8.5 Assignment Management Techniques and Issues . . . . . 64
  - 8.6 Atomic Code for This Assignment . . . . . 65
  - 8.7 Expected Output from Student Work . . . . . 66
  - 8.8 Assignment Variations . . . . . 66
    - 8.8.1 For Novice Students (Taking an Introductory Programming Course) . . . . . 66
    - 8.8.2 For Intermediate Students (Taking a Python Programming Course) . . . . . 67
    - 8.8.3 For Advanced Students (Taking a Software Engineering or Capstone Course) . . . . . 67
    - 8.8.4 For Secondary School Students . . . . . 67
    - 8.8.5 For Digital Humanities Students . . . . . 68
  - References . . . . . 68

<b>9</b>	<b>Art Stylometry: Recognizing Regional Differences in Great Works of Art</b> . . . . .	69
9.1	Comparing Features in Artifacts . . . . .	69
9.2	The Art Stylometry Assignment . . . . .	70
9.3	Assignment Files and External Resources . . . . .	73
9.4	Skills Utilized in This Assignment . . . . .	73
9.5	Assignment Management Techniques and Issues . . . . .	73
9.6	Atomic Code for This Assignment . . . . .	75
9.7	Expected Output from Student Work . . . . .	75
9.8	Assignment Variations . . . . .	77
9.8.1	For Novice Students (Taking an Introductory Programming Course) . . . . .	77
9.8.2	For Intermediate Students (Taking a Python Programming Course) . . . . .	77
9.8.3	For Advanced Students (Taking a Software Engineering or Capstone Course) . . . . .	77
9.8.4	For Secondary School Students . . . . .	78
9.8.5	For Digital Humanities Students . . . . .	78
	References . . . . .	78
<b>10</b>	<b>Social Network Analysis: Historic Circles of Friends and Acquaintances</b> . . . . .	79
10.1	Code Reuse and Python Libraries . . . . .	79
10.2	The Social Network Analysis Assignment . . . . .	81
10.3	Assignment Files and External Resources . . . . .	84
10.4	Skills Utilized in This Assignment . . . . .	84
10.5	Assignment Management Techniques and Issues . . . . .	85
10.6	Atomic Code for This Assignment . . . . .	87
10.7	Expected Output from Student Work . . . . .	87
10.8	Assignment Variations . . . . .	88
10.8.1	For Novice Students (Taking an Introductory Programming Course) . . . . .	88
10.8.2	For Intermediate Students (Taking a Python Programming Course) . . . . .	88
10.8.3	For Advanced Students (Taking a Software Engineering or Capstone Course) . . . . .	88
10.8.4	For Secondary School Students . . . . .	88
10.8.5	For Digital Humanities Students . . . . .	89
	Reference . . . . .	89
<b>11</b>	<b>Conclusion</b> . . . . .	91
