

Contents

PART ONE

Introduction

1

THE ROLE OF QUANTITATIVE TECHNIQUES 1

PART TWO

Types of Quantitative Techniques

2

BAYESIAN DECISION THEORY AND MARKETING ANALYSIS 6

The Domain of Decision Making, 6

The Bayesian Approach, 10

The Bayesian Model and the Economics of Information, 22

Applications of Bayesian Theory, 24

Limitations of Bayesian Methods, 27

Future Developments in Bayesian Theory and Practice, 29

3

EXPERIMENTAL STUDIES 31

Experimental versus Observational Studies, 31

Analysis of Variance, 33

Types of Experimentation, 39

Limitations of Experimentation, 51

4

OBSERVATIONAL STUDIES 54

- Introduction, 54
- Cross-Classification, 55
- Correlation and Regression, 60
- Discriminant Analysis, 70
- Factor Analysis, 75
- Concluding Comments, 81

5

SIMULATION STUDIES 82

- Introduction, 82
- Complexity: Analytical versus Simulation Models, 83
- Simulation: Pro and Con, 86
- Types of Simulation Models, 88
- Present Limitations and Future Trends, 103

PART THREE

A Look to the Future

6

FUTURE DEVELOPMENTS 107

- Present Limitations, 107
- Future Trends in Applying Quantitative Techniques, 108

SELECTED READINGS 112
