

LIST OF CONTENTS

Foreword	viii
Preface	vii
List of contents	ix
List of authors	xiii
Comprehending and capitalising on market trends for fresh fruit and vegetables <i>P.J. Batt</i>	1
Exchange rate uncertainty and Egyptian exports of horticultural commodities into the EU <i>A. Abu Hatab and A. Nsabimana</i>	11
Social effects of climate change on smallholder farmers in Akinyele, Oyo State, Nigeria <i>O. Adebisi-Adelani, M. Akeredolu, O.M. Adewale and O.M. Adeogun</i>	19
Effect of capacity building on knowledge of farmers about improved citrus nursery practices in NIHORT adopted villages <i>O. Adebisi-Adelani, L.O. Olajide-Taiwo, F.B. Olajide-Taiwo, I.O. Amao and O.O. Oyedele</i>	27
Ensuring quality and safety of horticultural products through the implementation of good agricultural practices (GAP) in Indonesia <i>I.W. Arsanti and M.H. Böhme</i>	31
Impact of best practice hubs (BPHs) and vegetable technology immersion clusters (VTICs) on vegetable productivity and welfare of rural farm households in Mali <i>B.A. Awotide, T. Chagomoka, C.M. Sobgui, W. Bihon, V. Afari-Sefa, A. Tenkouano, K. Ndiaye and O. Diouf</i>	37
Happier in a home with plants? A study on the relationship between human wellbeing and ornamental plants in private households <i>G. Bermejo and K. Sparke</i>	47
Effect of transportation conditions and pre-storage treatments on the quality and shelf-life of fresh tomatoes in selected South African supply chains <i>K. Cherono and T.S. Workneh</i>	55
Transportation planning model for the supply of fresh tomatoes in South Africa <i>K. Cherono and T.S. Workneh</i>	63
Multi-criteria evaluation of sustainable land use in rural areas of Northern Vietnam <i>Q.M. Dao and M.H. Böhme</i>	73
Agroecology in higher education: a multidimensional vision as a resilience strategy to climate change <i>M.C. Dussi, L.B. Flores, M.E. Barrionuevo and S.E. Dussi</i>	79

Economic evaluation of aminoethoxyvinylglycine (AVG) applications in 'Williams' pear cultivar <i>M. Emre, S. Butar, M. Cetinbas and R.A. Emre</i>	87
Constraints in apple chains in Lebanon <i>M. Frem, N. El Hachem, M. Zgheib and D. Nandwani</i>	93
Household expenditure on fruit and vegetables: a case study of rural southwestern Nigeria <i>R.B. Ibe</i>	99
The current situation and problems with producing fruit nursery trees in Turkey <i>D. Karamürsel, F.P. Öztürk, E. Kaçal, A. Bayav, M. Emre, C. Oğuz, Ö.F. Karamürsel, S. Akol, A. Sarisu and M. Altındal</i>	107
Food chain partnership – a bridge to the world for Turkish horticultural produce <i>M. Kaya, C. Nadir, M. Hingant and İ. Ercan</i>	113
Strategic decisions and economic evaluation of horticulture farms in Finland <i>A.M. Koivisto, E.K. Liski, T.E.A. Mattila and M. Väre</i>	117
The difference in color profiles of green asparagus spears between spring open field production and winter Fusekomi forcing culture production <i>T. Kumano, H. Yu and H. Araki</i>	125
Producer organisations that add value: a case study in Papua New Guinea <i>N. Mwayawa, M. Lyne, N. Lees and S. Trafford</i>	133
Causes of decline in the Japanese tulip bulb industry <i>Y. Niisato and T. Takeda</i>	141
Potential of walnut (<i>Juglans regia</i> L.) nursery production and its economic importance in Turkey <i>H.I. Oğuz, O. Gökdoğan, M.F. Baran and I. Oğuz</i>	149
Analysis of market flow of tomatoes among smallholder farmers in Oyo State <i>O.O. Oyedele, I.B. Adeoye, I.O. Amao, K.M. Bamimore and A. Ogundeyi</i>	155
Sustainability and environmental management in the Mexican vegetable sector <i>L.E. Padilla-Bernal, A. Lara-Herrera, A. Vélez Rodríguez and M. Loureiro</i>	163
An integrated analysis of tomato supply networks in Nigeria to improve efficiency and quality <i>M. Sibomana, L. Clercx and J.W.H. van der Waal</i>	171
The adoption of good agricultural practices for chilli farming in Thailand <i>Y. Sriwaranun and W. Paku-Thai</i>	183
Strategic information flows within an Australian vegetable value chain <i>J. Teese, P. Currey and S. Somogyi</i>	189

What do intern horticultural engineers expect from the internship process? <i>Ş. Uysal</i>	195
Investigation of cyberloafing and job satisfaction levels of technical personnel within horticultural services <i>Ş. Uysal</i>	201
