

Contents

Preface of the Editors — V

S. Ghachem, K. Benothman and M. Benrejeb
Nonlinear Progressive Accommodation of Actuator Fault — 1

M. Bennehar, A. Chemori, F. Pierrot and S. Krut
Control of Redundantly Actuated PKMs for Closed-Shape Trajectories Tracking with Real-Time Experiments — 17

S. Ben Atia, A. Messaoud and R. Ben Abdennour
Decoupled Multimodel Predictive Control Based on Multi-observer for Discrete-time Uncertain Nonlinear Systems — 35

M. Allaoui, A. Messaoud and R. Ben Abdennour
Robustness Enhancement of Proportional Q -integral Multiobserver in the Case of Non-stationary Sinusoidal Unknown Inputs — 55

M. Bdiwi, J. Suchý, M. Jokesch and A. Winkler
Improved Peg-in-Hole (5-Pin Plug) Task: Intended for Charging Electric Vehicles by Robot System Automatically — 77

L. Sellami, S. Zidi and K. Abderrahim
Active Mode Estimation via Clustering Algorithm for Switched Linear Systems — 89

R. Zaier
Humanoid Locomotion Control and Reflex Using Van der Pol and Piecewise Linear Oscillators — 105

M. Chetoui, R. Malti, M. Aoun, M. Thomassin, M. N. Abdelkrim and A. Oustaloup
Continuous-Time System Identification with Fractional Models from Noisy Input and Output Data using Fourth-Order Cumulants — 125

M. Z. E.-A. Skhiri and M. Chtourou
Generalization Improvement of Wavelet Neural Networks Using Regularization Techniques — 145

N. Bahri, A. Atig, R. Ben Abdennour, F. Druaux and D. Lefebvre
Multivariable Adaptive Neural Control Based on Multimodel Emulator for Nonlinear Square MIMO Systems — 165

H. Huang, C. Gühmann and Y. Yu
Sliding Mode Based Engine Speed Control for an Automated Manual Transmission During Gear Shifting Process — 183

H. Ait-Abbas, M. Belkheiri and B. Zegnini
Adaptive Output Feedback Control For Highly Uncertain Nonlinear Systems Using Single Hidden Layer Neural Networks — 203

M. Taktak-Meziou, A. Chemori, J. Ghommam and N. Derbel
RISE Feedback with NN Feedforward Control of a Servo-Positioning System for Track Following in HDD — 219

I. Maalej, D. Ben Halima Abid, C. Rekik and N. Derbel
Single and Multiple Faults Detection in Nonlinear System Using Fuzzy Kalman Observer — 241
