

Contents

Preface	vii	
Acknowledgments	ix	
Chapter 1	The Logic of Opportunity	1
1.1	Strategy	2
1.2	Concomitants of Mobility	4
1.3	Delays between Mobility Events in a System of Fixed Jobs	7
1.4	Chains of Moves among 1-1 Jobs	10
1.5	Vacancy Chains and Organizations	17
 PART I MOVES BY VACANCIES IN ORGANIZATIONS 		
Chapter 2	Markov Models of Vacancy Chains	23
2.1	Moves in a Chain	23
2.2	Cohorts of Vacancies	25
2.3	Men and Jobs	26
2.4	Interpretation	28
2.5	Estimates and Tests	30
2.6	Turnover: Models for Men versus Models for Vacancies	35
2.7	Selection of Movers and Long-Term Turnover	39
Chapter 3	Tracing Vacancy Chains	48
3.1	Three American Churches	48
3.2	General Coding Rules	52
3.3	Examples of Vacancy Chains	62

Contents

Chapter 4	Specifying a Stratified Model	71
4.1	Length Distributions of Chains over Five Decades	71
4.2	Binomial Model	74
4.3	Job Strata and Types of Jobs	76
4.4	Official Surveys and Compound Pastorates	83
4.5	Estimates of Transition Probabilities and Tests of the Stratified Model	87
4.6	Interpretation of Transition Probabilities	91
4.7	Constant Transition Probabilities	93
Chapter 5	Tests over Five Decades	100
5.1	Tests of the Stratified Model	100
5.2	Predictions of Amounts of Movement	105
5.3	Types of Beginnings and Endings for Chains	109
5.4	Geographical Boundary versus Job Size as Strata	116
Chapter 6	Models for Three Organizations Compared	123
6.1	Tests for the Methodist Church	124
6.2	Methodist Strata with Salaries as Criterion	128
6.3	Search for Optimum Methodist Strata in Job Size	132
6.4	Tests for the Presbyterian Church	138
6.5	Three Churches Compared	141
PART II ALTERNATE MODELS		
Chapter 7	Vacancy Models and Systems Evolution	147
7.1	Differential Equations and Predictions for the Binomial Model	147
7.2	Bumper Chains and Vacancy Chains: Duality and Contingency	157
7.3	Retirement, Acceleration, and the Long Run	161
7.4	Basic Stratified Model in Continuous Time	166

7.5	Stratified Model with Retirement	168
7.6	Job Evolution and System Size in the Long Run	171
7.7	Stochastic Models for Individuals in Continuous Time	179
7.8	How to Define a System and Estimate Parameters	183
Chapter 8	Mobility Models with Interaction	193
8.1	Prices and Exchange	193
8.2	Real Labor Markets	197
8.3	Holt-David Model	199
8.4	Matchmaking Models	204
8.5	Epidemic, Predation, Exchange, Matching, and Vacancy Models	207
8.6	Mobility among Committees and Other Generalizations	211
Chapter 9	Single-Flows Models of Mobility	216
9.1	The Multiplier Equation in Leontief's Input-Output Model	217
9.2	Demographic Models	221
9.3	Attitude Turnover	223
9.4	Mobility of Men as Markov Chains	228
9.5	Queues, Blocking, and Vacancy Chains	232
9.6	Bartholomew's Model for Constant Marginals	242
9.7	Conclusions and Discussion	244

PART III FOUNDATIONS: DUALITY AND NETWORKS

Chapter 10	Careers, Attributes, and Replacements: Refining the Markov Chain	249
10.1	Career Lengths from Vacancy Chains: Random Selection	250
10.2	Substrata for Men's Attributes	255

Contents

10.3	Dualities in Chains and Strata	258
10.4	Job Turnover: A Second-Order Markov Chain	260
10.5	Replacements and Quotas	268
10.6	Seniority Differences in Vacancy Chains	271
10.7	Seniority in Replacements among Episcopal Clergy	277
10.8	Duncan's Interpretation of Careers	281
Chapter 11	Interaction among Vacancies	283
11.1	Random Selection	283
11.2	Overlapping Individual Candidacies	287
11.3	Systems of Distinct Representatives for Finite Projective Planes	289
11.4	Chains from Activated Permutations	292
11.5	Measures of Association: Levine's View of Matchmaking	295
Chapter 12	Localism, Elites, and Tenure Networks	298
12.1	Diocesan Samples of Vacancy Chains	299
12.2	Bishops versus Priests: Chains and Careers	305
12.3	Tenure Networks	310
12.4	Representations and Measures	313
Chapter 13	Use and Meaning of Vacancy Models	317
13.1	Fields for Application	318
13.2	Heuristics	320
13.3	Models of Mobility Compared	322
13.4	Higher Order Principles in Vacancy Models	327
13.5	Open Problems	328

Glossary of Major Symbols	331
Appendix A: Details of Coding Rules and Sources	334
Appendix B: Sampling Weights for Chains	355
Appendix C: Estimates of Moves	374
Notes	388
Name Index	411
Subject Index	413
