---

Preface.....	xiii
Acknowledgments .....	xvii
<b>1. Introduction .....</b>	<b>1</b>
1.1 What Is the Value of Statistics?.....	4
1.2 Brief Introduction to the History of Statistics .....	5
1.3 General Statistical Definitions .....	6
1.4 Types of Variables .....	9
1.5 Scales of Measurement .....	10
1.6 Additional Resources .....	17
Problems.....	17
<b>2. Data Representation .....</b>	<b>25</b>
2.1 Tabular Display of Distributions.....	26
2.2 Graphical Display of Distributions.....	32
2.3 Percentiles .....	38
2.4 Recommendations Based on Measurement Scale .....	43
2.5 Computing Tables, Graphs, and More Using SPSS.....	44
2.6 Computing Tables, Graphs, and More Using R.....	56
2.7 Research Question Template and Example Write-Up .....	66
2.8 Additional Resources .....	67
Problems.....	68
<b>3. Univariate Population Parameters and Sample Statistics .....</b>	<b>81</b>
3.1 Summation Notation .....	82
3.2 Measures of Central Tendency .....	84
3.3 Measures of Dispersion.....	89
3.4 Computing Sample Statistics Using SPSS .....	98
3.5 Computing Sample Statistics Using R .....	103
3.6 Research Question Template and Example Write-Up .....	105
3.7 Additional Resources .....	106
Problems.....	106
<b>4. The Normal Distribution and Standard Scores .....</b>	<b>115</b>
4.1 The Normal Distribution and How It Works.....	116
4.2 Standard Scores and How They Work .....	123
4.3 Skewness and Kurtosis Statistics .....	126
4.4 Computing Graphs and Standard Scores Using SPSS.....	130
4.5 Computing Graphs and Standard Scores Using R.....	138
4.6 Research Question Template and Example Write-Up .....	141
4.7 Additional Resources .....	142
Problems.....	142

<b>5. Introduction to Probability and Sample Statistics.....</b>	<b>149</b>
5.1 Brief Introduction to Probability.....	150
5.2 Sampling and Estimation.....	153
5.3 Additional Resources .....	161
Problems.....	162
<b>6. Introduction to Hypothesis Testing: Inferences About a Single Mean.....</b>	<b>169</b>
6.1 Inferences About a Single Mean and How They Work .....	170
6.2 Computing Inferences About a Single Mean Using SPSS.....	198
6.3 Computing Inferences About a Single Mean Using R.....	201
6.4 Data Screening.....	203
6.5 Power Using G*Power.....	210
6.6 Research Question Template and Example Write-Up .....	216
6.7 Additional Resources .....	218
Problems.....	218
<b>7. Inferences About the Difference Between Two Means.....</b>	<b>225</b>
7.1 Inferences About Two Independent Means and How They Work .....	226
7.2 Inferences About Two Dependent Means and How They Work .....	244
7.3 Computing Inferences About Two Independent Means Using SPSS.....	250
7.4 Computing Inferences About Two Dependent Means Using SPSS.....	255
7.5 Computing Inferences About Two Independent Means Using R.....	257
7.6 Computing Inferences About Two Dependent Means Using R.....	261
7.7 Data Screening.....	263
7.8 G*Power.....	277
7.9 Research Question Template and Example Write-Up .....	280
7.10 Additional Resources .....	283
Problems.....	283
<b>8. Inferences About Proportions .....</b>	<b>291</b>
8.1 Inferences About Proportions Involving the Normal Distribution and How They Work .....	293
8.2 Inferences About Proportions Involving the Chi-Square Distribution and How They Work .....	305
8.3 Computing Inferences About Proportions Involving the Chi-Square Distribution Using SPSS.....	313
8.4 Computing Inferences About Proportions Involving the Chi-Square Distribution Using R.....	322
8.5 Data Screening.....	327
8.6 Power Using G*Power.....	327
8.7 Recommendations.....	329
8.8 Research Question Template and Example Write-Up .....	330
8.9 Additional Resources .....	331
Problems.....	332
<b>9. Inferences About Variances .....</b>	<b>339</b>
9.1 Inferences About Variances and How They Work .....	340
9.2 Assumptions .....	350
9.3 Sample Size, Power, and Effect Size .....	351

9.4	Computing Inferences About Variances Using SPSS.....	351
9.5	Computing Inferences About Variances Using R.....	351
9.6	Research Question Template and Example Write-Up .....	355
9.7	Additional Resources .....	356
	Problems.....	356
<b>10.</b>	<b>Bivariate Measures of Association .....</b>	<b>363</b>
10.1	What Bivariate Measures of Association Are and How They Work.....	364
10.2	Computing Bivariate Measures of Association Using SPSS.....	382
10.3	Computing Bivariate Measures of Association Using R.....	390
10.4	Data Screening.....	392
10.5	Power Using G*Power.....	398
10.6	Research Question Template and Example Write-Up .....	401
10.7	Additional Resources .....	402
	Problems.....	402
<b>11.</b>	<b>One-Factor Analysis of Variance—Fixed-Effects Model.....</b>	<b>409</b>
11.1	What One-Factor ANOVA Is and How It Works.....	410
11.2	Computing Parametric and Nonparametric Models Using SPSS.....	438
11.3	Computing Parametric and Nonparametric Models Using R.....	452
11.4	Data Screening.....	458
11.5	Power Using G*Power.....	476
11.6	Research Question Template and Example Write-Up .....	479
11.7	Additional Resources .....	481
	Problems.....	481
<b>12.</b>	<b>Multiple Comparison Procedures .....</b>	<b>489</b>
12.1	What Multiple Comparison Procedures Are and How They Work .....	490
12.2	Computing Multiple Comparison Procedures Using SPSS.....	516
12.3	Computing Multiple Comparison Procedures Using R.....	520
12.4	Research Question Template and Example Write-Up .....	524
	Problems.....	525
<b>13.</b>	<b>Factorial Analysis of Variance—Fixed-Effects Model .....</b>	<b>533</b>
13.1	What Two-Factor ANOVA Is and How It Works .....	534
13.2	What Three-Factor and Higher-Order ANOVA Models Are and How They Work.....	558
13.3	What the Factorial ANOVA with Unequal $n$ 's Is and How It Works .....	561
13.4	Computing Factorial ANOVA Using SPSS.....	562
13.5	Computing Factorial ANOVA Using R.....	575
13.6	Data Screening.....	582
13.7	Power Using G*Power.....	598
13.8	Research Question Template and Example Write-Up .....	603
13.9	Additional Resources .....	605
	Problems.....	605
<b>14.</b>	<b>Introduction to Analysis of Covariance: The One-Factor Fixed-Effects Model with a Single Covariate.....</b>	<b>615</b>
14.1	What ANCOVA Is and How It Works.....	616

14.2	Computing ANCOVA Using SPSS .....	635
14.3	Computing ANCOVA Using R .....	645
14.4	Data Screening .....	648
14.5	Power Using G*Power .....	669
14.6	Research Question Template and Example Write-Up .....	674
14.7	Additional Resources .....	676
	Problems .....	677
<b>15.</b>	<b>Random- and Mixed-Effects Analysis of Variance Models .....</b>	<b>685</b>
15.1	The One-Factor Random-Effects Model .....	687
15.2	The Two-Factor Random-Effects Model .....	691
15.3	The two-Factor Mixed-Effects Model .....	695
15.4	The one-Factor Repeated Measures Design .....	700
15.5	The Two-Factor Split-Plot or Mixed Design .....	708
15.6	Computing ANOVA Models Using SPSS .....	716
15.7	Computing ANOVA Models Using R .....	747
15.8	Data Screening for the Two-Factor Split-Plot ANOVA .....	756
15.9	Power Using G*Power .....	761
15.10	Research Question Template and Example Write-Up .....	766
15.11	Additional Resources .....	768
	Problems .....	768
<b>16.</b>	<b>Hierarchical and Randomized Block Analysis of Variance Models .....</b>	<b>777</b>
16.1	What Hierarchical and Randomized Block ANOVA Models Are and How They Work .....	779
16.2	Mathematical Introduction Snapshot .....	803
16.3	Computing Hierarchical and Randomized Block ANOVA Models Using SPSS .....	803
16.4	Computing Hierarchical and Randomized Block Analysis of Variance Models Using R .....	828
16.5	Data Screening .....	832
16.6	Power Using G*Power .....	848
16.7	Research Question Template and Example Write-Up .....	848
16.8	Additional Resources .....	850
	Problems .....	850
<b>17.</b>	<b>Simple Linear Regression .....</b>	<b>859</b>
17.1	What Simple Linear Regression Is and How It Works .....	860
17.2	Mathematical Introduction Snapshot .....	885
17.3	Computing Simple Linear Regression Using SPSS .....	887
17.4	Computing Simple Linear Regression Using R .....	894
17.5	Data Screening .....	896
17.6	Power Using G*Power .....	911
17.7	Research Question Template and Example Write-Up .....	915
17.8	Additional Resources .....	916
	Problems .....	916
<b>18.</b>	<b>Multiple Linear Regression .....</b>	<b>923</b>
18.1	What Multiple Linear Regression Is and How It Works .....	924
18.2	Mathematical Introduction Snapshot .....	952

18.3	Computing Multiple Linear Regression Using SPSS.....	955
18.4	Computing Multiple Linear Regression Using R.....	966
18.5	Data Screening.....	970
18.6	Power Using G*Power.....	983
18.7	Research Question Template and Example Write-Up .....	987
18.8	Additional Resources .....	989
	Problems.....	989
<b>19.</b>	<b>Logistic Regression.....</b>	<b>997</b>
19.1	What Logistic Regression Is and How It Works .....	998
19.2	Mathematical Introduction Snapshot.....	1020
19.3	Computing Logistic Regression Using SPSS.....	1021
19.4	Computing Logistic Regression Using R.....	1032
19.5	Data Screening.....	1037
19.6	Power Using G*Power.....	1052
19.7	Research Question Template and Example Write-Up .....	1055
19.8	Additional Resources .....	1057
	Problems.....	1057
<b>20.</b>	<b>Mediation and Moderation.....</b>	<b>1065</b>
20.1	What Mediation Is and How It Works .....	1066
20.2	What Moderation Is and How It Works .....	1074
20.3	Computing Mediation and Moderation Using SPSS.....	1080
20.4	Computing Mediation and Moderation Using R.....	1094
20.5	Additional Resources .....	1104
	Problems.....	1105
	<b>Appendix: Tables.....</b>	<b>1109</b>
	<b>References.....</b>	<b>1133</b>
	<b>Name Index .....</b>	<b>1151</b>
	<b>Subject Index .....</b>	<b>1157</b>
