PART 1 **INTRODUCTION TO ECONOMICS** 1

1 What is economics? 1

The economy and economic systems 1
How people make decisions 3
How people interact 6
How the economy as a whole works 9

2 Thinking like an economist 15

Introduction 15
Economic methodology 15
Schools of thought 25
The economist as policy advisor 26
Why economists disagree 27

PART 2 **THE THEORY OF COMPETITIVE** **MARKETS** 33

3 The market forces of supply and demand 33

The assumptions of the competitive market model 33
Demand 35
Shifts versus movements along the demand curve 37
Supply 40
Supply and demand together 44
Prices as signals 47
Analyzing changes in equilibrium 48
Elasticity 53
The price elasticity of demand 53
Other demand elasticities 61
Price elasticity of supply 62
Applications of supply and demand elasticity 67

4 Background to demand: Consumer choices 74

The standard economic model 74
The budget constraint: What the consumer can afford 76
Preferences: What the consumer wants 80
Optimization: What the consumer chooses 86
Conclusion: Do people really behave this way? 98
Behavioural approaches to consumer behaviour 98

5 Background to supply: Firms in competitive markets 105

The costs of production 105
Production and costs 106
The various measures of cost 109
Costs in the short run and in the long run 115
Summary 116
Returns to scale 117
What is a competitive market? 123
Profit maximization and the competitive firm's supply curve 125
The supply curve in a competitive market 132
Conclusion: Behind the supply curve 137

6 Consumers, producers and the efficiency of markets 141

Consumer surplus 141
Producer surplus 146
Market efficiency 150

PART 3 **INTERVENTIONS IN MARKETS** 159

7 Supply, demand and government policies 159

Controls on prices 159
Taxes 163
Subsidies 170
The tax system 171
The deadweight loss of taxation 172
Administrative burden 178
The design of the tax system 179
Taxes and equity 181

8 Public goods, common resources and merit goods 189

- The different kinds of goods 189
- Public goods 190
- Common resources 194
- Merit goods 197
- Conclusion 199

9 Market failure and externalities 204

- Market failure 204
- Externalities 204
- Externalities and market inefficiency 206
- Private solutions to externalities 210
- Public policies towards externalities 213
- Public/private policies towards externalities 216
- Government failure 220
- Conclusion 225

**PART 4
FIRM BEHAVIOUR AND MARKET
STRUCTURES** 231**10 Firms' production decisions** 231

- Isoquants and isocosts 231
- The least-cost input combination 236
- Conclusion 238

11 Market structures I: Monopoly 242

- Imperfect competition 242
- Why monopolies arise 243
- How monopolies make production and pricing decisions 247
- The welfare cost of monopoly 252
- Price discrimination 254
- Public policy towards monopolies 258
- Conclusion: The prevalence of monopoly 261

12 Market structures II: Monopolistic competition 267

- Competition with differentiated products 268
- Advertising and branding 272
- Conclusion 276

13 Market structures III: Oligopoly 280

- Characteristics of oligopoly 280
- Game theory and the economics of cooperation 284
- Entry barriers in oligopoly 296
- Public policy towards oligopolies 297
- Conclusion 299

14 Market structures IV: Contestable markets 304

- The nature of contestable markets 304
- The limitations of contestability 308
- Summary 310

**PART 5
FACTOR MARKETS** 315**15 The economics of factor markets** 315

- The marginal product theory of distribution 315
- The demand for labour 315
- The supply of labour 319
- Equilibrium in the labour market 323
- Other theories of the labour market 325
- Marxist labour theory 325
- Feminist economics and the labour market 326
- Monopsony 327
- Wage differentials 329
- The economics of discrimination 334
- The other factors of production: Land and capital 337
- Economic rent 340
- Conclusion 341

**PART 6
INEQUALITY** 347**16 Income inequality and poverty** 347

- The measurement of inequality 348
- The political philosophy of redistributing income 355
- Policies to reduce poverty 359
- Conclusion 362

**PART 7
TRADE** 367**17 Interdependence and the gains from trade** 367

- The production possibilities frontier 367
- International trade 372
- The principle of comparative advantage 376
- The determinants of trade 379

- The winners and losers from trade 380
- Restrictions on trade 384
- Criticisms of comparative advantage theory 391
- Other theories of international trade 392
- Conclusion 396

PART 8 **HETERODOX ECONOMICS** 401

18 Information and behavioural economics 401

- Principal and agent 401
- Asymmetric information 402
- Behavioural economics 408
- Conclusion 412

19 Heterodox theories in economics 416

- Introduction 416
- Institutional economics 419
- Feminist economics 422
- Complexity economics 425
- Conclusion 428

PART 9 **THE DATA OF MACROECONOMICS** 433

20 Measuring a nation's well-being and the price level 433

- Marxist economics 433
- The Austrian school 434
- Keynesianism 435
- Monetarism 435
- The nature of macroeconomics 436
- The economy's income and expenditure 436
- The measurement of gross domestic product 438
- The components of GDP 441
- Real versus nominal GDP 444
- The limitations of GDP as a measure of well-being 448
- International differences in GDP and the quality of life 450
- Measuring the cost of living 451
- The Consumer Prices Index 451
- Correcting economic variables for the effects of inflation 456
- Conclusion 458

PART 10 **THE REAL ECONOMY** **IN THE LONG RUN** 463

21 Production and growth 463

- Economic growth around the world 463
- Growth theory 465
- Productivity 465
- The determinants of economic growth 467
- Causes of growth 471
- Endogenous growth theory 475
- Economic growth and public policy 476
- Conclusion: The importance of long-run growth 481

22 Unemployment and the labour market 485

- Identifying unemployment 485
- The causes of unemployment 488
- The natural rate of unemployment 494
- Marx and the reserve army of the unemployed 501
- The cost of unemployment 501
- Conclusion 503

PART 11 **LONG-RUN MACROECONOMICS** 509

23 Saving, investment and the financial system 509

- Financial institutions in the economy 509
- Present value: Measuring the time value of money 515
- Managing risk 517
- Asset valuation 522
- Saving and investment in the national income accounts 523
- The market for loanable funds 526

24 The monetary system 535

- The meaning of money 535
- The role of central banks 541
- The European Central Bank and the Eurosystem 542
- The Bank of England 543
- Banks and the money supply 543
- The central bank's tools of monetary control 547
- Money growth and inflation 550
- What is inflation? 550

The costs of inflation 559
 Deflation 563
 Conclusion 564

25 Open-economy macroeconomics 569

The international flows of goods and capital 569
 The prices for international transactions:
 Real and nominal exchange rates 574
 A first theory of exchange rate determination:
 Purchasing power parity 577
 A macroeconomic theory of the open economy 580
 Supply and demand for loanable funds and for foreign currency exchange 581
 Equilibrium in the open economy 584
 How policies and events affect an open economy 586
 Conclusion 591

PART 12 SHORT-RUN ECONOMIC FLUCTUATIONS 595

26 Business cycles 595

Trend growth rates 596
 Causes of changes in the business cycle 602
 Business cycle models 604
 Macroeconomic models of the economy 608
 Conclusion 610

27 Keynesian economics and IS–LM analysis 614

The Keynesian cross 614
 The multiplier effect 618
 The IS and LM curves 623
 General equilibrium using the IS–LM model 626
 From IS–LM to aggregate demand 628
 Conclusion 634

28 Aggregate demand and aggregate supply 637

Three key facts about economic fluctuations 637
 Explaining short-run economic fluctuations 638
 The aggregate demand curve 640

The aggregate supply curve 642
 Two causes of economic fluctuations 648
 New Keynesian economics 652

29 The influence of monetary and fiscal policy on aggregate demand 657

How monetary policy influences aggregate demand 657
 How fiscal policy influences aggregate demand 664
 Using policy to stabilize the economy 667
 Conclusion 669

30 The short-run trade-off between inflation and unemployment 674

The relationship between inflation and unemployment 674
 The Phillips curve 675
 Shifts in the Phillips curve: The role of expectations 678
 The long-run vertical Phillips curve as an argument for central bank independence 684
 Shifts in the Phillips curve: The role of supply shocks 685
 The cost of reducing inflation 687
 Inflation targeting 692
 Reflecting on the Phillips curve 696
 Conclusion 698

31 Supply-side policies 703

Shifts in the aggregate supply curve 703
 Types of supply-side policies 707
 Conclusion 715

PART 13 INTERNATIONAL MACROECONOMICS 719

32 The causes and aftermath of the financial crisis 719

The causes of the crisis 719
 The efficient markets hypothesis 726
 The financial crisis and sovereign debt 734
 The sovereign debt crisis 739
 Austerity policies: Too far too quickly? 743
 The productivity puzzle 747

33 Common currency areas 755

The euro 755

The benefits and costs of a common
currency 757

The theory of optimum currency areas 760

Is Europe an optimum currency area? 763

Fiscal policy and common currency
areas 766

The fiscal compact 769

Conclusion 770

34 The future of the European Union 774

The euro 774

Italy 777

Brexit 777

Conclusion 785
