

Acknowledgments	vii
Preface	xv
 <i>Part 1 A Remarkable Person in a Very Special Epoch</i>	
Chapter 1	
H. A. Kramers: Why a Biography?	3
Chapter 2	
The Classical Synthesis: Lorentz	8
Chapter 3	
The Unraveling of Classical Physics: Planck and Einstein	13
Chapter 4	
Conflicts and the Basic Incompatibility	17
Chapter 5	
Bohr: Success and Ambiguity in a Period of Transition	20
Chapter 6	
Bohr, the Photon, and Kramers	28
Chapter 7	
The Bohr Institute: Pauli and Heisenberg	34
Chapter 8	
From Virtual Oscillators to Quantum Mechanics	41
Chapter 9	
The Revolution in Progress	56
Notes for Part 1	79

## *Part 2 Living Through a Revolution*

### Chapter 10

A Hesitant Start with an Unusual Twist	87
I. Youth and General Background	87
II. The Leiden Years (1912–1916)	90
III. The Arnhem Interlude	94

### Chapter 11

The Early Copenhagen Years: From Student to Apostle	97
I. Summary: Between Leiden and Copenhagen	97
II. The Initial Contacts Between Kramers and Bohr	100
III. Elaboration and Extensions of the Bohr Theory	102
IV. Kramers' Contribution to the Bohr Theory: The Thesis	107
V. The Changing Status of Kramers	110
VI. How Parsimonious the Emotions?	114

### Chapter 12

From Apostle to Prophet: Hints of Trouble to Come	119
I. Helium: The First Failure	119
II. More Problems: What Is the Right Direction?	122
III. The "Virtual" Encounter of Kramers and Heisenberg	124
IV. The Gospel According to Kramers and Holst	132
V. The Great X-Ray Paper: The Last Success	134

### Chapter 13

The Multifarious Consequences of a Desperation Revolution	139
I. The Struggle About the Photon	139
II. The Kramers Dispersion Theory: Not a Consequence but a Success	144
A. The Unreliability of Chronology	144
B. Dispersion Theory: Background and Basic Ideas	146
C. The Kramers Derivation	150
III. The Bohr–Kramers–Slater Theory	159
A. Background: Slater's Ideas	159
B. Bohr–Kramers–Slater: The Interplay of Personalities	163
C. The Bohr–Kramers–Slater Theory: Basic Ideas	171
D. The BKS Theory: Reflections and Second Thoughts	178
E. The Compton Effect in the BKS Theory	185
F. The Intellectual Framework of Kramers' Physics	191
G. Kramers' Personal Elaborations	195
H. The Reception of the Theory	199
I. The Crash	207
IV. The Road to Quantum Mechanics: The Changing of the Guard	215
A. The Kramers–Heisenberg Dispersion Theory Paper: Background and Chronology	215
B. General Approach Between Virtual Oscillators and Matrices	223
C. Technical Matters: The Old Method and New Puzzles	230
D. From Virtual Oscillators to Matrices: Heisenberg Goes It Alone	242
E. The Personalities of Pauli, Heisenberg, and Kramers: The Strange Path from Deference to Ridicule to Doubt	252

F. The Changing Patterns	276
G. Why Didn't Kramers Discover Quantum Mechanics?	285
Chapter 14	
The Curious Copenhagen Interlude	289
I. The Events	289
II. Recollections and Some Documentation	291
III. Conclusions	295
Notes for Part 2	299
<i>Part 3 Waiting for a Revolution That Did Not Happen</i>	
Chapter 15	
The Search for Identity in Changing Times	311
I. The Move to Utrecht	311
II. The Change in Style and Mood	314
III. The Scope of Kramers' Activities	319
IV. Kramers' Contributions to Statistical Mechanics	321
Chapter 16	
The Recurrent Theme: Electrons and Radiation	325
I. Kramers' Approach: The Legacy of Lorentz and Bohr	325
A. Lorentz's Influence	325
B. Kramers' Uneasiness with the Dirac Radiation Theory	332
C. The Chronology of an Obsession	338
II. The Struggle Toward a Consistent Theory	344
A. The Construction of the "First" Kramers' Hamiltonian	344
B. Further Elaborations of Kramers' Ideas	357
III. The Story of Two Conferences: Shelter Island and Solvay	372
A. The Pre-Shelter Island Status: The April 1944 Lecture	372
B. The Shelter Island Conference: Kramers' Presentation	379
C. The Solvay Report: Culmination and Termination of Kramers' Program	391
D. Culmination or Oblivion: Van Kampen's Thesis	402
IV. Retrospect: The Postponed Recognition	410
A. The Lamb Shift: How High the Stakes	410
B. The Convoluted Recognition	421
C. What Went Wrong? Can One Be Too Principled?	426
Notes for Part 3	433
<i>Part 4 Kramers as a Person and a Scientist: Conflict or Harmony?</i>	
Chapter 17	
Personality and Style	441
I. The Assessments: Public and Personal	441
II. The Conundrum of the Near Misses	446
A. The Role of Near Misses	446
B. The Litany of Near Misses	449

C. Interlude: Near Miss Number 9—The S Matrix Incident	453
D. Near Misses Concluded: Omissions and Style	458
III. Elements of Kramers' Scientific Style	461
A. The Role of Fear and Courage	461
B. Characteristics of Kramers' Scientific Style	464
C. The Role of Mathematics, Structures, Abstractions	466
IV. Personal Matters	470
A. Some Personal Traits	470
B. The Surroundings	474
C. The Interpersonal Relations	477
D. Fear and Decency	484
 Chapter 18	
Obligation and Duty	488
I. The Equivocal Role of Religion	488
II. Obligation and Duty	490
III. The Special Role of Teaching	491
IV. Duty: The War and Its Aftermath	498
A. The Wartime	498
B. Kramers' Work in the United Nations	501
 Chapter 19	
Kramers' Self-Image	506
I. Kramers and the Psychology of Physicists	506
II. Kramers' Lecture on Debye: What Is an Ideal Scientific Biography?	512
III. Fragments from Notebooks and Diaries	516
A. From the Notebooks: Science and Scientists	516
B. From the Diaries: The Person and His Demons	520
C. From the Diaries: Personal Entanglements	523
D. The Story of Camilla	528
E. The Poems	532
 Chapter 20	
Epilogue: Does One Know Better—Understand More?	536
I. The Objective Recognition: Prizes and Awards	536
II. Finale	539
 Appendix: Poems	542
 Notes for Part 4	546
 Index	553
