

LIST OF CONTENTS

Foreword	vii
Preface	viii
List of contents	ix
List of authors	xiii
The development of organic agriculture and agroecology in Latin America <i>R. Ugás</i>	1
Organic agriculture in Uzbekistan <i>A. Nurbekov, U. Aksoy, H. Muminjanov, A. Khujabekov, R. Nurbekova and A. Shukurov</i>	11
Scandinavian heirlooms for wellbeing <i>S. Friis Pedersen</i>	17
The effects of different sowing dates on organic broccoli (<i>Brassica oleracea</i> var. <i>italica</i> L.) seed yield and quality <i>G. Beşirli, İ. Sönmez, B. Albayrak, Z. Polat and İ. Tatar</i>	23
The effects of different pre-crops on organic cucumber (<i>Cucumis sativum</i> L.) seed yield and quality in crop rotation <i>İ. Sönmez, G. Beşirli, B. Albayrak, Z. Polat, İ. Tatar and B.B. Dumlupınar</i>	29
The effects of different compost applications on organic strawberry seedling production <i>A. Burgut, H. Saygı, N.F. Türemiş, Ş. Büyükyel, B. Aktaş and K. Ekinci</i>	33
Sustainability and resilience in organic greenhouse horticulture: examples from Italy and the UK <i>L. Foresi, U. Schmutz, A. Evans and L. Trenchard</i>	39
Production of organic potted herbs with LED supplementary lighting: effect on plant biomass and phenols <i>M. Dorais, A. Brégard, C. Ménard, B. Dansereau, N. Zyromski and S. Pepin</i>	47
Assessing soil chemical properties and soil respiration amended with <i>Sesbania grandiflora</i> <i>Y.A. Othman and D.I. Leskovar</i>	55
Effect of organic amendments on soil fertility and quality of organic zucchini under greenhouse condition <i>H. Ramli, K. Azim, S. Daoud and M.C. Harouni</i>	61
The effect of different compost applications under organic management of tomato (<i>Lycopersicon esculentum</i> L.) production in Turkey <i>A. Kir and M. Tepecik</i>	73
Assessing the possibility to use legume plants as cover crops or intercrops in organic tomato production to optimize NUE <i>A. Gatsios, G. Ntatsi, A. Tampakaki, L. Celi and D. Savvas</i>	83

Effects of hairy vetch and livestock compost on soil properties and quality of fresh-market tomato fruit <i>R.A. Muchanga, T. Hirata and H. Araki</i>	91
A two-year tomato production under different fertilizer treatments <i>E. Yavuzaslanoglu, Y. Coskuner and F. Ulusu</i>	99
Effects of microorganisms on the growth and the development of tomato Crops <i>M.N. Terzo, M.C. Di Bella, S. Nigro, V. Lefebvre du Prey, S. Toscano and F. Branca</i>	105
Improvements of soil biological properties with hairy vetch (<i>Vicia villosa</i> Roth) and rye (<i>Secale cereale</i> L.) and the contributions to lettuce (<i>Lactuca sativa</i> L.) production <i>Y.D. Chinta, Y. Uchida and H. Araki</i>	111
Effects of beneficial microorganisms on organic lettuce growing <i>N. Unal, G.B. Oztekin, S. Sevinc, T. Uludag, O. Saley, Y. Tuzel and I.H. Tuzel</i>	119
Nitrogen balance in organic horticultural rotations <i>R. Pinto, L.M. Brito, I. Mourão and J. Coutinho</i>	127
Effects of crop rotation on yield and quality parameters of grafted watermelon (<i>Citrullus lanatus</i> L. (Thumb.) Matsum. & Nakai.) under organic management conditions <i>K.S. Tulukoğlu Kunt and İ. Duman</i>	135
Grafting green beans for improved yield and fruit quality <i>I. Mourão, L. Moura, L.M. Brito, J. Coutinho and S.R. Costa</i>	141
Organic fertilizers in cauliflower: effects on growth and ascorbic acid Content <i>S. Öztekin, N. Mutlu, T. Öztekin, N. Geboloğlu, M. Elmastaş, M. Aydın, G. Altıntaş and Ö.F. Noyan</i>	149
Effect of organic amendments on soil fertility of organic potato crop <i>H. Ramli, S. Daoud, M.C. Harouni, F. Elame and K. Azim</i>	155
The effect of pre-plants on some soil chemical properties in organic onion (<i>Allium cepa</i> L.) and cucumber (<i>Cucumis sativum</i> L.) seed production <i>B. Albayrak, G. Beşirli and İ. Sönmez</i>	163
Energy flux analysis in fruit agroecosystems <i>M.C. Dussi, C. Fernández and L.B. Flores</i>	171
Effect of organic manures on growth, yield and economics of Pomegranate (<i>Punica granatum</i> L.) 'Super Bhagwa' under northern dry zone of Karnataka <i>B.S. Kurer and D.R. Patil</i>	179
Study of two Romanian autochthonous cultivars for wine grapes, 'Columna' and 'Feteasca neagra', cultivated in the organic system <i>A. Ranca, V. Artem and I. Dina</i>	185

Effects of different floor management methods applied for five years in an organic olive orchard <i>E. Bilen, B.O. Das Kilic, M. Biyikli and G. Misir</i>	193
The effect of organic fertilizer applied with mineral fertilizer on pistachio productivity <i>N. Aslan, N. Kalkançi, A. Yilmaz and K. Sarpkaya</i>	199
Impact of the use of photosensitive nets on two apple cultivars in a Mediterranean orchard <i>M. Aoun and K. Manja</i>	205
Phasing out contentious inputs in organic and non-organic horticulture – Organic-PLUS <i>U. Schmutz, F. Rayns, N. Katsoulas, A.K. Løes, M. De Marchi, C.G. Sørensen and A. Evans</i>	211
Mass trapping with Decis™ Trap to manage fly control of <i>Rhagoletis cerasi</i> and <i>Drosophila suzukii</i> in IPM cherry orchards <i>L. De Maeyer, V. Companys, M. Ricci, N. Hyzy, J. Izquierdo Casas, W. Abts, C. Engel, T. Belien, R. Clymans and A. Shirring</i>	219
Optimization of phenolic compounds extraction from 'Cabernet Sauvignon' cultivar through applying different technological options of maceration and fermentation <i>V. Artem, A. Ranca, A. Nechita, E.I. Geana and A.O. Antoce</i>	227
Consumer preference modelling for organic round tomatoes in Switzerland according to fruit quality and texture <i>C. Camps, Y. Fleury and C. Gilli</i>	235
Impact of organic agriculture training in urban context <i>C. Parente, C. Ferreira and I. Mourão</i>	245
Economic analysis of organic apricot farms in Malatya region of Turkey <i>M. Paksoy and A. Aslan</i>	253
Organic mango: an analysis in contrast of organic farming in Bangladesh <i>S. Islam, A.F. Jamal Uddin, Z.K. Roni, S. Sadia, S. Mustafiz and K. Shimasaki</i>	259
Calculating carbon emissions in Turkish organic and conventional dried fig production <i>E. Okan Arıkan and U. Aksoy</i>	269
