

CONTENTS

| | |
|---|----|
| Preface | ix |
| Introduction | 1 |
| ONE Some Facets of the Study of Change | 7 |
| Problems of Definition | 7 |
| Change, Persistence, and Equilibrium | 12 |
| Variables of Methodology in the Study of Change | 14 |
| <i>Time</i> | |
| <i>Change from Whose Perspective? "Emic" Versus</i> | |
| <i>"Etic" Analysis</i> | |
| <i>Degree or Magnitude of Change</i> | |
| <i>Boundaries</i> | |
| <i>Detection and Documentation</i> | |
| <i>Level of Abstraction</i> | |
| TWO Sociocultural Evolution: The Early | |
| Protagonists | 27 |
| The Intellectual Background | 27 |
| Marx and Engels on Sociocultural Change | 32 |
| <i>Their Historical-Evolutionary Model</i> | |
| <i>Marx and Engels on Dynamic Processes</i> | |
| <i>Detection and Documentation of Change:</i> | |
| <i>Materialism and Dialectics</i> | |
| Herbert Spencer | 43 |
| <i>Evolution: Biological and Cultural</i> | |

| | |
|--|-----|
| <i>Spencer on Evolutionary Process</i> | |
| <i>Materialism Versus Idealism</i> | |
| Lewis H. Morgan and Edward B. Tylor | 48 |
| <i>Progress or Degeneration?</i> | |
| <i>Morgan's Evolutionary Scheme</i> | |
| <i>Morgan and Tylor on Evolutionary Processes</i> | |
| <i>Biological and Cultural Evolutionary Processes</i> | |
| <i>Material and Ideal Factors in Process</i> | |
| <i>Detection and Documentation of Change Processes</i> | |
| Present Relevance of the Approaches | 64 |
| THREE The Historicist Approach | 67 |
| The Setting | 67 |
| The Approach to Change | 70 |
| Issues in the Detection and Documentation of Process | 73 |
| <i>Independent Invention Versus Diffusion</i> | |
| <i>Detection and Documentation of Diffusion: The Criteria of Proof</i> | |
| <i>Culture Area, Age Area, and Culture Climax</i> | |
| <i>Culture Wholes and Culture Traits</i> | |
| <i>On Processes: Invention, Integration, Diffusion</i> | |
| <i>Levels of Abstraction</i> | |
| <i>On "Prime Movers"</i> | |
| Present Relevance of the Approach | 92 |
| FOUR Acculturation | 94 |
| Objectives and Methodology | 95 |
| <i>Methodological Perspectives</i> | |
| Methodological Issues | 108 |
| <i>Historical Reconstruction: Is It Necessary?</i> | |
| <i>The "Cultures-as-Wholes" Issue Again</i> | |
| <i>Levels of Analysis</i> | |
| <i>The Bias Problem</i> | |
| <i>Documentation of Processes</i> | |
| Present Relevance of the Approach | 118 |

| | | |
|-------------|---|-----|
| FIVE | Of Evolutionism, Functionalism, and Historicism | 120 |
| | White's Evolutionism | 121 |
| | <i>White's Approach</i> | |
| | Issues in White's Scheme | 126 |
| | <i>The Individual as a Factor in Cultural Evolution</i> | |
| | <i>The Natural Environment as an Evolutionary Factor</i> | |
| | <i>Evolution Versus History and Functionalism</i> | |
| | <i>Levels of Abstraction</i> | |
| | <i>Documentation of Change Processes</i> | |
| | The Functionalist Approach | 133 |
| | <i>The "Static" Functionalism</i> | |
| | <i>The "Dynamic" Functionalism</i> | |
| | <i>Functionalism and the Role of History</i> | |
| | <i>Evolutionism and Functionalism: A General Summary</i> | |
| | | |
| SIX | Variations on an Evolutionary-Ecological Theme | 144 |
| | General and Specific Evolution | 145 |
| | The Adaptive Process: An Overview | 146 |
| | Factors in Processes of Specific Evolution | 148 |
| | <i>The Local Habitat: Cultural Ecology</i> | |
| | <i>The "Cultural" Habitat: Impinging Alien Influences</i> | |
| | <i>Ideology and Individual Behavior in Adaptive Process</i> | |
| | <i>Functional Interrelationships: Determinism and Process</i> | |
| | <i>Stages and Evolutionary Process</i> | |
| | Detection and Documentation of Processes | 162 |
| | <i>The Task of Reconstruction</i> | |
| | <i>Measuring Evolutionary Progress</i> | |
| | <i>Reconstruction and the Problem of Dominance</i> | |
| | Summary | 170 |

| | |
|---|-----|
| SEVEN Psychocultural Processes: Individual Behavior as a Level of Analysis | 172 |
| Innovation | 173 |
| <i>The Process of Innovation</i> | |
| <i>Acceptance of Innovations</i> | |
| <i>Detection and Documentation of the Innovation Process</i> | |
| <i>Contexts, Advocates, Acceptors</i> | |
| <i>Variations on an Innovation Theme: Mazeway Reformulation</i> | |
| Achievement Motivation | 187 |
| Psychological Factors in Sociocultural Processes | 193 |
| EIGHT Entrepreneurs, Brokers, and Decision-Making | 196 |
| Basic Assumptions of the Approaches | 197 |
| Constraints: A Pivotal Consideration | 201 |
| Detection and Documentation of Change | 206 |
| The Events of Change | 208 |
| Methodological Problems in the Event-Analysis Approach | 211 |
| The Fur of Darfur: Group Decisions About Resource Allocation | 214 |
| Is the Study of the Entrepreneur Really Necessary? | 216 |
| Limitations of the Approach | 217 |
| Relevance to Other Approaches | 220 |
| NINE Some Concluding Observations | 223 |
| Historical Continuity | 223 |
| Sources of Discontinuity Between Approaches | 224 |
| Methodological Similarities Among Approaches | 227 |
| "Practical" and "Academic" Applications | 233 |
| Bibliography | 235 |
| Index | 255 |
