

PREFACE .....	iii
ACKNOWLEDGEMENTS .....	v
CONTENTS .....	vii
CHAPTER 1.....	1
Introduction.....	1
Why Do You Have A Data System? .....	1
Hardware Vs. Software.....	2
Hardware.....	2
Software .....	4
Sensor Configuration .....	5
Logging Rates .....	7
Downloading And Organizing Data Files .....	9
Engine/Safety.....	13
Channel Reports .....	13
CHAPTER 2.....	13
Data Analysis Basics.....	13
Speed Plot.....	16
Transition From Throttle To Brakes.....	16
Slope In Braking Area .....	16
Change In Slope In Braking Area.....	17
Throttle Application.....	18
Flat Spots/Dips At Upshift .....	19
Correct Gears? .....	20
Longitudinal G Plot .....	21
Braking Efficiency.....	21
Shift Points.....	22
Downshifts.....	23
Lateral G And Steering Plots .....	24
Early Turn-In.....	24
Late Apex.....	25
Grabbing More Wheel.....	25
Throttle Plot.....	26
On/Off/On = Understeer .....	26
Avoid The Hobby Horse .....	26
Upshifts .....	27
Big Lifts And Confidence Lifts .....	27
RPM Plot .....	28
Upshift At Correct RPM .....	28

Optimum Gears .....	29
Over Revs.....	30
Wheel Spin .....	31
Overlays .....	31
Track Maps.....	36
Segments.....	37
Use Of Linked Map And Data Plot .....	38
Channel Overlay .....	39
Split Reports.....	41
Filters And Smoothing.....	43
Offsets.....	44
Sensor Calibration And Zeroing.....	46
CHAPTER 3.....	51
The Next Level .....	51
X-Y (Scatter) Plots .....	51
Steering vs. Lateral G's.....	51
Pressure vs. Lateral And Longitudinal G's.....	56
RPM vs. Speed.....	58
Math Channels.....	59
Basics.....	59
Corner Radius .....	62
Calculated Steering.....	65
On Brakes .....	66
Constants.....	67
Multiple Wheel Speed Sensors .....	68
Tire Growth .....	69
Wheel Slip .....	70
Lifting Inside Wheel.....	72
Differential Lockup .....	72
CHAPTER 4.....	75
Damper Potentiometers.....	75
Resolution And Sample Rate.....	75
Installation And Calibration .....	76
Basic Damper Position Data .....	79
Math Channels For Low Speed/High Speed.....	80
Damper Velocity .....	82
Damper Velocity Histograms.....	84
Ride Frequency - Damper Velocity Frequency Plot.....	88
Suspension Position And Ride Height .....	90
Roll & Pitch.....	93

Downforce .....	97
Testing And Aero Maps.....	99
CHAPTER 5.....	103
Brake and Clutch Pressure Sensors.....	103
Brake Bias.....	103
Brake Technique.....	106
Downshifts .....	109
Sticking Master Cylinder/Riding The Brake Pedal .....	110
Riding The Clutch Pedal .....	111
CHAPTER 6.....	113
More Math Channels.....	113
Throttle Speed .....	113
Steering Speed .....	114
Average Understeer Per Lap .....	116
Total Brake Time Per Lap.....	118
Comparing Brake Pads And Rotors.....	119
CHAPTER 7.....	125
Putting It All Together.....	125
Process And Pages .....	125
Engine .....	131
Engine Report.....	131
Pressure Report.....	133
Track Report (Optional) .....	136
Driver .....	137
Driver Inputs.....	137
Time Report (Optional).....	139
Handling.....	140
Dampers.....	142
Damper Position/Velocity.....	142
Damper Histograms.....	147
Ride Frequency.....	148
Braking .....	150
Brakes .....	150
Brake Bias Consistency .....	151
Roll, Pitch & Ride Height .....	153
Roll, Pitch & Ride Height.....	153
Roll Gradients & Roll Ratio .....	154
Aero .....	156
Scratchpad .....	157
APPENDIX A .....	159

Math Channels from Chapters 3–6 .....	159
Creating Math Channels And Constants .....	159
AIM Race Studio Analysis® .....	159
MoTeC i2 Pro® .....	161
Pi Toolbox® .....	163
STACK DataPro® .....	166
Math Channels Used In The Guide .....	168
Chapter 3 Math Channels.....	169
AIM Race Studio Analysis® Versions .....	169
MoTec i2 Pro® Versions.....	169
Pi Toolbox® Versions .....	170
STACK DataPro® Versions .....	170
Chapter 4 Math Channels.....	171
AIM Race Studio Analysis® Versions .....	171
MoTeC i2 Pro® Versions .....	174
Pi Toolbox® Versions .....	176
STACK DataPro® Versions .....	179
Chapter 5 Math Channels.....	182
AIM Race Studio Analysis® Versions .....	182
MoTec i2 Pro® Versions.....	183
Pi Toolbox® Versions .....	183
STACK DataPro® Versions .....	183
Chapter 6 Math Channels.....	184
AIM Race Studio Analysis® Versions .....	184
MoTec i2 Pro® Versions.....	185
Pi Toolbox® Versions .....	185
STACK DataPro® Versions .....	186
APPENDIX B .....	189
Cumulative Lap Time Difference.....	189
AIM Race Studio Analysis® .....	189
MoTeC i2® and MoTeC i2 Pro® .....	189
Pi®.....	189
STACK DataPro® .....	190
APPENDIX C .....	191
Data System Checklists.....	191
Data Analysis Outline .....	191
Condensed Data Analysis Guide & Checklist.....	196
Morning Checklist .....	197
INDEX.....	199
ABOUT THE AUTHOR.....	207
