<b>1. Agglomeration and Economic Theory</b>	<b>1</b>
1.1 Introduction	1
1.2 Cities: Past and Future	3
1.3 Why Do We Observe Agglomerations?	5
1.4 On the Relationship between Space and Economics	11
1.5 Plan of the Book	15
<b>PART I. FUNDAMENTALS OF GEOGRAPHICAL ECONOMICS</b>	
<b>2. The Breakdown of the Price Mechanism in a Spatial Economy</b>	<b>25</b>
2.1 Introduction	25
2.2 The Quadratic Assignment Problem	28
2.3 The Spatial Impossibility Theorem	30
2.4 The First Welfare Theorem in a Spatial Economy	47
2.5 Considerations on the Second Welfare Theorem in a Spatial Economy	49
2.6 Concluding Remarks	56
<b>3. The Thünen Model and Land Rent Formation</b>	<b>62</b>
3.1 Introduction	62
3.2 The Location of Divisible Activities	65
3.3 The Urban Land Rent	78
3.4 Concluding Remarks	90
<b>4. Increasing Returns and Transport Costs: The Fundamental Trade-Off of a Spatial Economy</b>	<b>93</b>
4.1 Introduction	93
4.2 Microfoundations of Increasing Returns at the City Level	98
4.3 City Size under Scale Economies	106
4.4 Trade in a System of Cities	115

4.5	Competition and the Spatial Organization of Markets	119
4.6	Concluding Remarks	128
<b>5.</b>	<b>Cities and the Public Sector</b>	<b>133</b>
5.1	Introduction	133
5.2	The City as a Public Good	136
5.3	The Number and Size of Cities under Politics	149
5.4	Concluding Remarks	159
	Appendix	160

## PART II. THE STRUCTURE OF METROPOLITAN AREAS

<b>6.</b>	<b>The Spatial Structure of Cities under Communications Externalities</b>	<b>169</b>
6.1	Introduction	169
6.2	Agglomeration as Spatial Interaction among Individuals or Firms	174
6.3	The City as Spatial Interdependence between Firms and Workers	185
6.4	The Monocentric City	191
6.5	The Polycentric City	201
6.6	Suburbanization and the Location of Multiunit Firms	209
6.7	Concluding Remarks	210
	Appendix	211
<b>7.</b>	<b>The Formation of Urban Centers under Imperfect Competition</b>	<b>217</b>
7.1	Introduction	217
7.2	Monopolistic Competition and the Formation of Shopping Districts	221
7.3	Oligopolistic Competition and the Agglomeration of Retailers	232
7.4	Consumers' Search and the Clustering of Shops	243
7.5	The Formation of Urban Employment Centers	248
7.6	Concluding Remarks	258
	Appendix	259

## PART III. FACTOR MOBILITY AND INDUSTRIAL LOCATION

<b>8.</b>	<b>Industrial Agglomeration under Marshallian Externalities</b>	<b>267</b>
8.1	Introduction	267
8.2	Factor Mobility and Agglomeration Economies	270
8.3	Oligopoly, Localization Economies, and Regional Advantage	278
8.4	The Formation of Industrial Clusters under Localization Economies	286

8.5 Concluding Remarks	298
Appendix	299
<b>9. Industrial Agglomeration under Monopolistic Competition</b>	<b>303</b>
9.1 Introduction	303
9.2 The Core–Periphery Model	307
9.3 Sticky Labor and Regional Specialization	321
9.4 A Linear Model of Core–Periphery: Discriminatory Pricing and Welfare	327
9.5 On the Impact of Forward-Looking Behavior	338
9.6 Concluding Remarks	343
Appendix	345
PART IV. URBAN SYSTEMS AND REGIONAL GROWTH	
<b>10. Back to Thünen: The Formation of Cities in a Spatial Economy</b>	<b>351</b>
10.1 Introduction	351
10.2 City Formation under Preference for Variety	355
10.3 City Formation with Intermediate Commodities	365
10.4 On the Emergence and Structure of Urban Systems	379
10.5 Concluding Remarks	384
Appendix	386
<b>11. On the Relationship between Agglomeration and Growth</b>	<b>388</b>
11.1 Introduction	388
11.2 A Model of Agglomeration and Growth	392
11.3 Agglomeration and Growth When Production is Footloose	401
11.4 Agglomeration and Growth in the Presence of Barriers that Prevent Innovation Transfer	412
11.5 Concluding Remarks	421
Appendix	422
