PART I

Peter Havlik

The Transition Countries in 1999: a Further Weakening of Growth and Some Hopes for Later Recovery	1
More clouds on the international horizon.....	1
Only little catching-up in the first decade of transition	5
Disappointing growth performance in 1998.....	5
Reasons for stumbling growth.....	6
External factors partly responsible	6
Fiscal consolidation and lower inflation	9
Mixed progress in competitiveness and restructuring	9
Forecasts revised: more CEECs close to recession in early 1999.....	15
Growing unemployment, diminishing productivity gains	17
Single digit annual inflation in the CEECs	17
Stronger currencies, high real interest rates	18
Foreign demand loses steam.....	21
Growing external constraints	27
Main outlook highlights	30

Tables

Table 1	Gross domestic product (real change in % against preceding year).....	3
Table 2	Gross industrial production (real change in % against preceding year).....	7
Table 3	Consumer price inflation (change in % against preceding year)	10
Table 4	Registered unemployment, end of period (in 1000 persons and rate in %)	10
Table 5	Wages, productivity and unit labour costs (ULCs), annual changes in %.....	13
Table 6	Labour productivity in industry (change in % against preceding year)	15
Table 7	Foreign trade of Central and Eastern Europe and the main CIS states in USD mn (based on customs statistics).....	22
Table 8	Central and East European (CEEC) exports by regions, shares of regions in the total, in %	23
Table 9	Central and East European (CEEC) imports by regions shares of regions in the total, in %	24
Table 10	Gross fixed investment, real change in % against preceding year.....	25
Table 11	Total foreign direct investment stock, USD mn.....	25
Table 12	Foreign financial position, USD bn, end of period.....	27
Table 13	Overview developments 1997-1998 and outlook 1999-2000	29

Figures

Figure 1	Gross domestic product (real change in % against preceding year)	ii
Figure 2	Consumer price inflation (annual change in % against preceding year).....	ii
Figure 3a, 3b	Industrial production (annual change in %, 3 months moving average).....	4
Figure 4a, 4b	International comparison of unit labour costs (ULCs), PPP adjusted, (Austria = 100).....	8
Figure 5a, 5b	Consumer price inflation (monthly changes in %)	11
Figures 6a, 6b	Producer price inflation (monthly changes in %)	12
Figures 7a, 7b	Real exchange rates, (national currency per 1 DEM deflated with PPI, Jan 1995 = 100)	19
Figures 8a, 8b	Minimum real interest rates (NB leading rates deflated with annual PPI, in % p.a.).....	20

Annex: Indicators of competitiveness

Tables

Table A/1	GDP per capita at current PPPs (ECU), from 2000 constant PPPs	36
Table A/2	Prices, exchange rates and unit labour costs (ULC), 1990-1998	37

Figures

Figure A/1	Real per capita GDP in the CEECs, EU average = 100.....	35
Figure A/2	Manufacturing industry, unit labour costs, (ECU adjusted) annual growth rates in %.....	41
