Summary.....

OVERVIEW

Leon Podkaminer

The Transition Economies: Externally Conditioned Improvements in 2000, Slowdowns and Adjustment Likely in 2001 and 2002 1

GDP is rising in all transition countries 1

Supply-side limitations not curbing growth in the advanced transition countries..... 5

Strong improvements in labour productivity 9

Strong rise in exports and imports – and of trade imbalances 11

Current accounts: high surpluses in Russia and Ukraine, rising deficits in the Czech Republic and Macedonia 18

Inflation: largely a non-issue 21

Unequal partners: transition countries and the EU..... 24

Outlook: slowdown in 2001, high uncertainty about 2002..... 27

Outlook for individual countries 28

Annex: Indicators of competitiveness 33

COUNTRY REPORTS..... 43

Tables and Figures in the Overview

Table 1	Gross domestic product (real change in % against preceding year).....	2
Table 2	Gross fixed investment (real exchange in % against preceding year)	4
Table 3	Registered unemployment, end of period (in 1000 persons and rate in %)	6
Table 4	Gross industrial production (real change in % against preceding year).....	6
Table 5	Labour productivity in industry (change in % against preceding year).....	10
Table 6	Foreign trade of Central and Eastern Europe and the main CIS States, in EUR million (based on customs statistics)	13
Table 7	EU(15) trade of Central and Eastern European countries, in current EUR million (based on customs statistics).....	15
Table 8	Foreign financial position, USD billion, end of period	19
Table 9	Consumer price inflation (change in % against preceding year)	23
Table 10	Overview developments 1999-2000 and outlook 2001-2002	31
Figure A	Gross domestic product (real change in % against preceding year)	ii
Figure B	Consumer price inflation (annual change in % against preceding year)	ii
Figures 1a, 1b	Real exchange rates (national currency per 1 DEM deflated with PPI, Jan 1998 = 100).....	17
Figures 2a, 2b	Minimum real interest rates (NB leading rate deflated with annual PPI, in % p.a.	20
Figures 3a, 3b	Consumer price inflation (monthly changes in %, 3-month moving average)....	22

Tables and Figures in the Annex

Table A/1	GDP per capita at current PPPs (ECU/EUR), from 2001 constant PPPs	34
