Preface XIII

List of Figures XVII

1 Historical Outline

A Brief Chronological Survey 1

1.0 Foreword 1

1.1 Al-Andalus (711–1085) 2

1.2 The Maghrib (700–1050) 4

1.3 Almoravids (ca. 1050–ca. 1147) and Almohads (ca. 1147–1276) 7

1.4 Al-Maghrib and al-Andalus between the Thirteenth and the
Fifteenth Centuries 10

1.4.1 *Introduction* 10

1.4.2 *Zījēs* 11

1.4.3 *Astrology* 12

1.4.4 *Mīqāt* 15

1.5 Astronomy in the Christian Kingdoms of the Iberian Peninsula 18

1.5.1 *The Transmission of Arabic Astronomy into Latin* 18

1.5.2 *The Kingdom of Castile in the Thirteenth Century: the Alfonsine
Astronomical Production* 33

1.5.3 *Astronomy in Aragon and Castile in the Fourteenth Century* 36

1.5.4 *The Fifteenth Century in Castile* 39

1.6 A Brief Conclusion 42

2 *Mīqāt*: Timekeeping and *Qibla* 44

2.0 Introduction 44

2.1 Calendars and Years 48

2.2 Eras 52

2.3 The Beginning of the Lunar Month 55

2.3.1 *Introduction* 55

2.3.2 *The Sources* 56

2.3.3 *The Astronomical Problem* 58

2.3.4 *The Computation* 60

2.4 The Hour 70

2.4.1 *Computational Methods for Telling the Time* 70

2.4.2 *Instruments for Telling the Time* 100

- 2.5 The *qibla* 128
 - 2.5.1 *The qibla between the Seventh and the Ninth Centuries* 128
 - 2.5.2 *The Astronomers' Solutions* 135
 - 2.5.3 *Folk Astronomy and Legal Scholars* 144
 - 2.5.4 *Qibla Indicators and the Actual Orientations of the Buildings* 147
- 3 Astrology 152
 - 3.0 Introduction 152
 - 3.1 Patronage and the Practice of Astrology 153
 - 3.1.1 *Al-Andalus and the Maghrib* 153
 - 3.1.2 *The Practice of Astrology in the Christian Kingdoms of the Iberian Peninsula* 180
 - 3.2 Thematic Surveys 214
 - 3.2.1 *Simple Systems of Astrological Prediction* 214
 - 3.2.2 *Standard Astrology Based on Classical and Eastern Arabic Sources: 'Alī ibn Abī l-Rijāl* 227
 - 3.2.3 *Mathematical Astrology in al-Andalus and the Maghrib* 257
 - 3.2.4 *The Animodar* 291
 - 3.2.5 *World Astrology: Planetary Conjunctions* 300
 - 3.2.6 *Meteorological Astrology: al-Baqqār's Kitāb al-amṭār wa l-as'ār* 319
- 4 Astronomical Instruments 324
 - 4.0 Introduction 324
 - 4.1 Spherical Instruments 326
 - 4.1.1 *Celestial Globe* 326
 - 4.1.2 *Spherical Astrolabe* 341
 - 4.1.3 *The Armillary Sphere* 352
 - 4.2 The Astrolabe 373
 - 4.2.1 *The Introduction of the Standard Astrolabe in al-Andalus* 373
 - 4.2.2 *The Introduction of the Astrolabe in Catalonia (Tenth Century)* 378
 - 4.2.3 *On the Standard Astrolabe in al-Andalus and the Maghrib from the Eleventh Century Onwards* 399
 - 4.2.4 *The Astrolabe in the Christian Kingdoms of the Iberian Peninsula* 410
 - 4.3 Universal Astrolabes 440
 - 4.3.0 *Introduction* 440
 - 4.3.1 *'Alī ibn Khalaf's Universal Plate* 443
 - 4.3.2 *Ibn al-Zarqālluh's ṣafiḥa ("azafea")* 450

- 4.3.3 *On the Relative Chronology of the Three Universal Astrolabes* 460
- 4.3.4 *On the Transmission of Ibn al-Zarqālluh's ṣafīḥa to the Mashriq and the Maghrib* 462
- 4.3.5 *Ibn Bāṣoh's Plate for All Latitudes* 466
- 4.3.6 *al-Jazzār's Astrolabe* 469
- 4.4 *Quadrants* 470
- 4.5 *Equatoria* 475
 - 4.5.1 *Introduction* 475
 - 4.5.2 *Ibn al-Samḥ's Equatorium* 476
 - 4.5.3 *The Equatorium of Ibn al-Zarqālluh* 479
 - 4.5.4 *The Equatorium of Abū l-Ṣalt Umayya of Denia* 487
 - 4.5.5 *Other equatoria* 489
- 4.6 *Jābir ibn Aflaḥ's Observational Instrument* 492
- 5 *Hay'a (Cosmology)* 496
 - 5.1 *Introduction: on the Meaning of Hay'a in Western Islam* 496
 - 5.2 *The Treatises on hay'a by Dūnash ibn Tamīm, Qāsim ibn Muṭarrif and an Anonymous Eleventh-Century Toledan Astronomer* 499
 - 5.2.1 *Dūnash ibn Tamīm* 499
 - 5.2.2 *Qāsim ibn Muṭarrif al-Qaṭṭān* 502
 - 5.2.3 *An Anonymous Toledan (?) Astronomer of the Eleventh Century* 506
 - 5.3 *Jābir ibn Aflaḥ's Mathematical Criticism of the Almagest* 508
 - 5.3.1 *Jābir's Chronology and Scientific Works* 508
 - 5.3.2 *The Aim of the Iṣlāḥ* 510
 - 5.3.3 *Jābir's Criticisms of the Almagest* 511
 - 5.3.4 *Conclusions* 516
 - 5.4 *The Twelfth-Century Andalusī Revolt against Ptolemy* 516
 - 5.4.1 *Introduction* 516
 - 5.4.2 *Were These Andalusī Philosophers Competent in Astronomy?* 517
 - 5.4.3 *Andalusī Criticisms of Ptolemy: Ibn Bājja and Ibn Rushd* 525
 - 5.4.4 *Al-Biṭrūjī's Astronomical System* 530
 - 5.5 *Hay'a in Castile during the Reign of Alfonso X (1252–1284)* 545
 - 5.5.1 *Petrus Gallecus' Summa de astronomia* 545
 - 5.5.2 *The Alfonsine Translation of Ibn al-Haytham's Fī hay'at al-ʿālam* 553
 - 5.6 *Other hay'a Sources between the Twelfth and the Fifteenth Centuries* 567
 - 5.6.1 *Jewish Sources* 567
 - 5.6.2 *Pseudo-Enrique de Villena's Treatise on Astrology* 572
 - 5.7 *Conclusions* 575

- 6 Astronomical Theory 577**
- 6.1 Introduction 577
- 6.2 The Motion of Accession and Recession of the Equinoctial Points
(*al-iqbāl wa l-idbār*, Trepidation Theory) 579
- 6.2.1 *On the Introduction of Trepidation Theory in al-Andalus: the Liber de motu octaue spere* 579
- 6.2.2 *Ibn al-Zarqālluh's "Treatise on the Motion of the Fixed Stars"*
(*Maqāla fī ḥarakat al-iqbāl wa l-idbār*) 586
- 6.2.3 *Ibn al-Kammād on Trepidation* 610
- 6.2.4 *al-Istijī and the Muntakhab Zīj* 617
- 6.2.5 *Ibn al-Hā'im on Trepidation* 619
- 6.2.6 *Trepidation in Maghribī zījes* 622
- 6.2.7 *Trepidation in the Christian Kingdoms of the Iberian Peninsula* 642
- 6.3 Ibn al-Zarqālluh's Solar Model 654
- 6.3.1 *Introduction* 654
- 6.3.2 *The Motion of the Solar Apogee* 657
- 6.3.3 *Ibn al-Zarqālluh's Solar Model* 661
- 6.4 The Lunar Model 676
- 6.5 Conclusions 681
- 7 Astronomical Tables (zījes) 683**
- 7.1 Introduction: the Eastern Input in al-Andalus 683
- 7.2 A General Survey of Andalusī and Maghribī zījes 688
- 7.2.1 *Al-Khwārizmī – Maslama* 688
- 7.2.2 *Ibn Mu'ādh's Tabulae Jahen* 708
- 7.2.3 *The Versified zīj of Abū l-Ḥasan 'Alī b. Abī 'Alī al-Qusanṭīnī*
(ca. 1359–61) 714
- 7.2.4 *The Toledan Tables* 719
- 7.2.5 *The zījes of Ibn al-Kammād* 735
- 7.2.6 *Ibn al-Hā'im's al-Zīj al-kāmil fī l-ta'ālīm* 751
- 7.3 Maghribī zījes: the School of Ibn Ishāq 764
- 7.3.1 *Introduction: Ibn Ishāq's Lost zīj* 764
- 7.3.2 *The Five zījes of Ibn Ishāq's School* 767
- 7.3.3 *An Attempt to Recover Some Materials from Ibn Ishāq's Original Tables* 771
- 7.4 Other Maghribī zījes 795
- 7.4.1 *Ibn 'Azzūz and His Muwāfiq zīj* 795

7.5	The Introduction of Eastern <i>zīj</i> es in the Maghrib	814
7.5.1	<i>Ibn Abī l-Shukr al-Maghribī</i>	814
7.5.2	<i>Ibn al-Shāṭir</i>	816
7.5.3	<i>Ulugh Beg</i>	817
7.6	<i>Zīj</i> es in the Christian Kingdoms of the Iberian Peninsula	820
7.6.1	<i>Abraham bar Ḥiyya and Abraham ibn ʿEzra</i>	820
7.6.2	<i>The Alfonsine Tables</i>	827
7.6.3	<i>Pedro IV of Aragon and the Tables of Barcelona</i>	858
7.6.4	<i>Other Iberian <i>zīj</i>es of the Fourteenth and Fifteenth Centuries</i>	867
7.7	Almanacs and Ephemerides	876
7.7.1	<i>Introduction</i>	876
7.7.2	<i>Yearly Ephemerides</i>	878
7.7.3	<i>Perpetual Almanacs</i>	880
7.8	Conclusions	902
	Bibliography	907
	Index of Parameters and Numerical Values	976
	Index of Names and Subjects	986
