Contents

Part I Commonsense Psychology

1 Commonsense Psychology and Psychology *page* 3
- 1.1 Explaining the Behavior of Triangles 3
- 1.2 Heider's Commonsense Psychology 5
- 1.3 Theory of Mind 7
- 1.4 Historical Change in Commonsense Psychology 10
- 1.5 The Purpose of Psychology as a Science 13
- 1.6 Eliminative Materialism 15

2 Commonsense Psychology and Computers 17
- 2.1 Anthropomorphism Is Easy and Fun 17
- 2.2 Anthropomorphic Computing 18
- 2.3 Alan Turing and the Desktop Barrier 20
- 2.4 Coping with Discordant Computers 22
- 2.5 The Value of a Good Model (to a Computer) 24
- 2.6 Computational Modeling of Cognitive Processes 26
- 2.7 Inferential Theories in Artificial Intelligence 28
- 2.8 Models in the Right Direction 29
- 2.9 Jan Smedslund's Psychologic 31

3 Formalizing Commonsense Psychology 36
- 3.1 Coverage and Competency 36
- 3.2 Successive Formalization 38
- 3.3 Strategy Representation 39
- 3.4 Psychological Expressions 47
- 3.5 Draft Formalizations 53
- 3.6 Final Formalizations 54
- 3.7 Intermediate Applications 56
- 3.8 Repeatability 58

4 Commonsense Psychology and Language 60
4.1 Knowledge Management 61
4.2 Similarity Comparisons 62
4.3 Memory 63
4.4 Envisioning 64
4.5 Explanation 65
4.6 Managing Expectations 66
4.7 Other-Agent Reasoning 67
4.8 Goals 67
4.9 Goal Themes 68
4.10 Threats and Threat Detection 68
4.11 Plans 69
4.12 Goal Management 71
4.13 Execution Envisionment 71
4.14 Causes of Failure 72
4.15 Plan Elements 72
4.16 Planning Modalities 73
4.17 Planning Goals 74
4.18 Plan Construction 75
4.19 Plan Adaptation 75
4.20 Design 76
4.21 Decisions 77
4.22 Scheduling 78
4.23 Monitoring 79
4.24 Execution Modalities 79
4.25 Execution Control 80
4.26 Repetitive Execution 82
4.27 Mind–Body Interaction 82
4.28 Observation of Plan Executions 83
4.29 Emotions 84

Part II Background Theories

Introduction 91

5 Eventualities and Their Structure 93
5.1 Eventualities and Their Individuation 93
5.2 The Structure of Eventualities 95
5.3 Generation 98

6 Traditional Set Theory 100

7 Substitution, Typical Elements, and Instances 105
7.1 Substitution 105
7.2 Typical Elements 106
7.3 Handling Some Thorny Issues 108
7.4 Functional Dependencies 111
7.5 Instances 113

8 Logic Reified 116
8.1 Conjunction 116
8.2 Negation 117
8.3 Disjunction and Implication 118

9 Functions and Sequences 121
9.1 Pairs and Functions 121
9.2 Sequences 123

10 Composite Entities 126
10.1 Definitions 126
10.2 Some Simple Examples 129
10.3 The Figure–Ground Relation 130
10.4 Patterns and Their Instances 132

11 Defeasibility 135

12 Scales 139
12.1 Basics 139
12.2 Scale-to-Scale Functions 143
12.3 Constructing Scales 143
12.4 Qualitative Structure on Scales 145

13 Arithmetic 150
13.1 Integers 150
13.2 Rational Numbers 153
13.3 Measures and Proportions 154
13.4 Half-Orders of Magnitude 156

14 Change of State 158
14.1 The change Predicate 158
14.2 Predicates Derived from change 159

15 Causality 163
15.1 Causal Complexes and the Predicate cause 163
15.2 Agents and Agenthood 165
15.3 Other Causal Predicates 168
15.4 Ability 170
15.5 Executability 171
15.6 Difficulty 173

16 Time 177
16.1 The Topology of Time: Instants, Intervals, and Temporal Sequences 177
16.2 Relating Eventualities and Time 181
16.3 Temporal Ordering and Interval Relations 183
16.4 Durations 187
16.5 Periodicity 190
16.6 Rates and Frequency 191

17 Event Structure 196
17.1 Events and Subevents 196
17.2 Event Sequences and Conditionals 197
17.3 Iterations 199

18 Space 202
18.1 Space and Spatial Analogies 202
18.2 Spatial Systems and Distance 203
18.3 Location 205

19 Persons 207

20 Modality 211
20.1 The Predicates `Rexist` and `atTime` 211
20.2 Positive Modalities 213
20.3 Possibility and Necessity 213
20.4 Likelihood, or Qualitative Probability 215

Part III Commonsense Psychology Theories

21 Knowledge Management 223
21.1 Objects of Belief 223
21.2 Belief 224
21.3 Belief Revision 228
21.4 Degrees of Belief 231
21.5 Assuming 235
21.6 Having Things in Mind and in Focus 238
21.7 Inference 239
21.8 Justification 242
21.9 Knowledge 244
21.10 Intelligence 245
21.11 Sentences and Knowledge Domains 246
21.12 Expertise 248
21.13 Mutual Belief 250

22 Similarity Comparisons 256
22.1 Similarity 256
22.2 Similarity of Structured Entities 265
22.3 Cognizing Similarities 267

23 Memory 270
23.1 Storing and Retrieving 270
23.2 Accessibility 271
23.3 Associations and Causing to Remember 273
23.4 The Meanings of "Remember" and "Forget" 274
23.5 Remembering To Do 277
23.6 Repressing 277

24 Envisioning 280
24.1 Thinking Of 280
24.2 Causal Systems 283
24.3 Contiguous Causal Systems 286
24.4 Envisioned Causal Systems 289
24.5 Envisionment and Belief 291
24.6 Other Varieties of Thinking 295

25 Explanation 299
25.1 Explanations and Mysteries 299
25.2 The Explanation Process 301
25.3 Explanation Failures 303

26 Managing Expectations 306

27 Other-Agent Reasoning 309

28 Goals 312
28.1 Goals, Subgoals, and Plans 312
28.2 The Content of Goals 315
28.3 Goals and Multiple Agents 317
28.4 Trying, Succeeding, and Failing 319
28.5 Functionality 320
28.6 Good and Bad 322
28.7 Value, Cost, and Importance 322

29 Goal Themes 332
29.1 Thriving 332
29.2 Pleasure and Pain 333
29.3 Short-Term versus Long-Term Goals 336
29.4 Goal Themes 338

30 Threats and Threat Detection 341
30.1 Threat Situations 341
30.2 Threat Detection and Management 343
30.3 Seriousness 345

31 Plans 348
31.1 Plans as Mental Entities 348
31.2 The Planning Process 350
31.3 Strategies and Tactics 355
31.4 Executability and Complete Plans 356
31.5 Types of Plans 358
31.6 Helping 362

32 Goal Management 366
32.1 Adding, Removing, and Modifying Goals 366
32.2 Priority 368
32.3 Assessing and Prioritizing Goals 370

33 Execution Envisionment 373
33.1 Executions and Their Envisionment 373
33.2 Envisioning Success and Failure 374
33.3 Specific and Arbitrary Contexts of Execution 376
33.4 Envisioned Executions and Time 378

34 Causes of Failure 380
34.1 Introduction 380
34.2 Contributing Source Taxonomies 381
34.3 Taxonomy of Plan Failure Explanation Patterns 381
34.4 Causal Complexes and Failure 383
34.5 Applications 385

35 Plan Elements 387

36 Planning Modalities 392
36.1 The Activity of Planning 392
36.2 Planning Activity and Other Agents 393
36.3 Counterfactual Planning 394

37 Planning Goals 397
37.1 Constraints and Preferences 397
37.2 Including and Avoiding 400
37.3 Enabling and Blocking 401
37.4 Minimizing and Maximizing 402
37.5 Locating Instances for Plans 403
37.6 Maintaining Plan Progress 404

38 Plan Construction 407
38.1 The Planning Activity 407
38.2 Planning Process Control 408
38.3 Planning Subprocesses 409
38.4 Planning Problems 411
38.5 Selecting among Candidate Plans 412

39 Plan Adaptation 416
39.1 Tweaking 416
39.2 Types of Plan Adaptation 418
39.3 Outcomes of Plan Adaptation 419

40 Design 421
40.1 Artifacts 421
40.2 Designs 423
40.3 Designing 424

41 Decisions 427
41.1 The Decision-Making Process 427
41.2 Choices and Choice Sets 430
41.3 The Process of Deliberation 432
41.4 Justifications for Decisions 435
41.5 Consequences of Decisions 436

42 Scheduling 439
42.1 Simultaneous Actions 439
42.2 Schedules 440
42.3 Scheduled and Pending Plans 443
42.4 Schedule Preferences 446
42.5 Scheduling Actions 446

43 Monitoring 451
43.1 Monitoring Processes 451
43.2 Characteristics of Monitoring Processes 453

44 Execution Modalities 456
44.1 Executions 456
44.2 Modalities of Execution 458
44.3 Plan Execution and Time 460

45 Execution Control 464
45.1 Beginning Executions 464
45.2 Executions in Progress and Completed 466
45.3 Execution Costs and Outcomes 468
45.4 Abstract Plans and Their Instantiations 469
45.5 Plans and Aspect 471
45.6 Distraction 474

46 Repetitive Execution 478

47 Mind–Body Interaction 484
47.1 Introduction 484
47.2 Mind and Body 485
47.3 Awareness and Focusing 485
47.4 Perception 486
47.5 Bodily Actions 488
47.6 Perceiving Bodily Actions 491
47.7 Controlling Perception 492
47.8 Levels of Capability and Activity 493
47.9 States of Consciousness 497

48 Observation of Plan Executions 502
48.1 Observing the Plan Executions of Other Agents 502
48.2 Instructions 504
48.3 Performances and Their Specification 505
48.4 Skill 506
48.5 Evaluation 509

49 Emotions 513
49.1 Emotions in General 513
49.2 Intensity and Arousal 515
49.3 Happiness and Sadness 518
49.4 Shades of Happiness 521
49.5 The Raw Emotions 524

49.6 Basic Emotions Cognitively Elaborated 528
49.6.1 Happiness and Sadness for Others 528
49.6.2 Hope and Fear-2 530
49.6.3 Reactions to Goals Realized and Frustrated 531
49.6.4 Reactions to Achievements and Failures 533
49.7 Envy and Jealousy 536
49.8 Liking and Disliking 538
49.9 Emotional States and Tendencies 539
49.10 Appraisal and Coping 541

Appendix A: First-Order Logic 545
A.1 Predicate-Argument Relations 545
A.2 Logical Connectives 546
A.3 Variables and Quantifiers 548
A.4 Rules of Inference 549
A.5 Axioms and Logical Theories 549
A.6 Models 550
A.7 Definition and Characterization 552
A.8 Common Patterns in Axioms 553
