

# Contents

<b>1 Preliminaries</b> .....	1
1.1 Representations of Finite Groups .....	1
1.2 The Group Algebra, the Left-Regular and the Permutation Representations, and Gelfand Pairs .....	3
1.3 The Commutant of the Left-Regular and Permutation Representations .....	5
1.4 Induced Representations .....	7
<b>2 Hecke Algebras</b> .....	11
2.1 Mackey's Formula for Invariants Revisited .....	11
2.2 The Hecke Algebra Revisited .....	21
<b>3 Multiplicity-Free Triples</b> .....	31
3.1 A Generalized Bump–Ginzburg Criterion .....	34
3.2 Spherical Functions: Intrinsic Theory .....	35
3.3 Spherical Functions as Matrix Coefficients .....	41
3.4 The Case $\dim \theta = 1$ .....	47
3.5 An Example: The Gelfand–Graev Representation of $\mathrm{GL}(2, \mathbb{F}_q)$ .....	48
3.6 A Frobenius–Schur Theorem for Multiplicity-Free Triples .....	50
<b>4 The Case of a Normal Subgroup</b> .....	53
4.1 Unitary Cocycles .....	54
4.2 Cocycle Convolution .....	55
4.3 The Inertia Group and Unitary Cocycle Representations .....	56
4.4 A Description of the Hecke Algebra $\mathcal{H}(G, N, \theta)$ .....	61
4.5 The Hecke Algebra $\tilde{\mathcal{H}}(G, N, \psi)$ .....	63
4.6 The Multiplicity-Free Case and the Spherical Functions .....	65
<b>5 Harmonic Analysis of the Multiplicity-Free Triple</b> <b><math>(\mathrm{GL}(2, \mathbb{F}_q), C, \nu)</math></b> .....	71
5.1 The Multiplicity-Free Triple $(\mathrm{GL}(2, \mathbb{F}_q), C, \nu)$ .....	71
5.2 Representation Theory of $\mathrm{GL}(2, \mathbb{F}_q)$ : Parabolic Representations .....	74

5.3 Representation Theory of  $GL(2, \mathbb{F}_q)$ : Cuspidal Representations .... 75

5.4 The Decomposition of  $\text{Ind}_C^G \nu_0$  ..... 77

5.5 Spherical Functions for  $(GL(2, \mathbb{F}_q), C, \nu_0)$ : the Parabolic Case ..... 79

5.6 Spherical Functions for  $(GL(2, \mathbb{F}_q), C, \nu_0)$ : the Cuspidal Case ..... 83

**6 Harmonic Analysis of the Multiplicity-Free Triple**

**$(GL(2, \mathbb{F}_{q^2}), GL(2, \mathbb{F}_q), \rho_\nu)$**  ..... 95

6.1 Spherical Functions for  $(GL(2, \mathbb{F}_{q^2}), GL(2, \mathbb{F}_q), \rho_\nu)$ : the Parabolic Case ..... 96

6.2 Spherical Functions for  $(GL(2, \mathbb{F}_{q^2}), GL(2, \mathbb{F}_q), \rho_\nu)$ : the Cuspidal Case ..... 104

6.3 A Non-normalized  $\tilde{L} \in \text{Hom}_{G_1}(\rho_\nu, \text{Res}_{G_1}^{G_2} \rho_\mu)$  ..... 116

**Appendix A** ..... 121

A.1 On a Question of Ricci and Samanta ..... 121

A.2 The Gelfand Pair  $(GL(2, \mathbb{F}_{q^2}), GL(2, \mathbb{F}_q))$  ..... 123

A.3 On some Questions of Dunkl ..... 125

References ..... 130

**Index** ..... 135
